**SUBJECT : Public Hearing Report (PHR)**  
**Santa Cruz Cement Grinding Facility**  
Brgy. Darong, Sta. Cruz, Davao del Sur

Dear **Dir. Turbella**,

We are submitting herewith the **Public Hearing Report (PHR)** of the **Proposed Santa Cruz Cement Grinding Facility** in Barangay Darong, Sta. Cruz, Davao del Sur. The PHR documents issues and suggestions raised by various stakeholders during the Public Hearing conducted at the Barangay Darong Covered Court in Brgy. Darong, Sta. Cruz, Davao del Sur on November 16, 2018 (Friday).

For inquiries, you may contact our EIA Study Team, LCI Envi Corporation through Mr. Jerome B. Leano at (02) 442-2830.

Very truly yours,

**MR. FERDINAND K. CONSTANTINO**  
President/Director  
Oro Cemento Industries Corporation

## SECTION 1

### PROJECT OVERVIEW

- <sup>1</sup> **Oro Cemento Industries Corporation (OCIC)** intends to put up a cement grinding facility in Barangay Darong, Sta. Cruz, Davao del Sur. The facility will have cement grinding equipment, bulk storage, and other support facilities. It will have a production capacity of 2 million metric tons per year (MMTPY).

**Table 1: Proposed Project, Proponent and EIA Preparer Details**

<b>PROJECT NAME</b>	<b>Santa Cruz Cement Grinding Facility</b>
<b>PROJECT LOCATION</b>	Province of Davao del Sur, Municipality of Sta. Cruz, Barangay Darong
<b>TYPE OF PROJECT</b>	• Cement (Clinker) Grinding Process
<b>PROJECT SIZE</b>	2.0 Million Metric Tons per Year (MMTPY) Cement 50,000,000 Cement Bags

## SECTION 2

### ACTIVITY RATIONALE

- 2 The Public Hearing was agreed upon during the 1<sup>st</sup> Technical Review of the Review Committee (REVCOM) last 28<sup>th</sup> of September 2018. The Notice of Public Hearing was officially posted on [https://eia.emb.gov.ph/notice-of-public-hearingconsultation link/](https://eia.emb.gov.ph/notice-of-public-hearingconsultation_link/) last 26<sup>th</sup> of October 2018. Included in the uploaded documents were the latest Environmental Impact Statement (EIS) and EIS Summary for the Public (ESP) written in both Filipino and English.
- 3 The Notice of Public Hearing was published in Manila Bulletin last 2<sup>nd</sup> and 9<sup>th</sup> of November 2018 (SEE: Attachment 1).
- 4 The distribution of the official invitations from the DENR Environmental Management Bureau (EMB) were conducted on the 5<sup>th</sup> of November 2018 onwards. The following were invited:

## SECTION 3

### CONDUCT OF THE PUBLIC HEARING

- <sup>6</sup> The Public Hearing activity was conducted from 9:00AM to 1:00PM on the 16<sup>th</sup> of November 2018 (Friday) at the Barangay Darong Covered Court located in Brgy. Darong, Sta. Cruz, Davao del Sur. The composition of the participants is presented in **Table 3**. The meeting was facilitated by the DENR EMB Central Office Case Handlers and Public Hearing Officer.

**Table 3: Participants in the Public Hearing**

STAKEHOLDER GROUP/OFFICE/ORGANIZATION	TOTAL NO. OF REPRESENTATIVES	GENDER DISTRIBUTION	
		Female	Male
• (a) LGUs in areas where all project facilities are proposed to be constructed/situated and where all operations are proposed to be undertaken			
○ Municipality of Sta. Cruz, Davao del Sur	3	2	1
○ Barangay Darong, Sta. Cruz, Davao del Sur	34	18	16
• (b) Government agencies with related mandate on the type of project and its impacts			
○ DENR EMB (Central Office)	3	1	2
○ DENR Region XI	2	2	-
• (c) Interest groups, preferably those with mission/s specifically related to the type and impacts of the proposed undertaking			
○ Various Sectoral Representatives from Brgy. Darong	102	50	52
• EIA Review Committee	3	2	1
• Oro Cemento Industries Corporation (Proponent)	6	-	6
• LCI Envi Corporation (EIA Consultant)	2	-	2
TOTAL	155	75	80

- <sup>7</sup> A copy of the attendance sheets is provided as **Attachment 3** of this report.

## SECTION 4

# SUMMARY OF ISSUES AND CONCERNS

- 8 The presentation material that guided the flow of the Public Hearing is provided as **Attachment 4** of this report. The pertinent issues, concerns, and suggestions raised by the participants during the open forum and the corresponding responses of the project proponent and EIA consultant are summarized in the matrix below.

**Table 4: Matrix of Issues, Concerns, and Suggestions raised during the Public Hearing**

ISSUE/CONCERN RAISED	ISSUE/CONCERN RAISED BY	RESPONSE FROM THE PROPONENT/CONSULTANT
<b>PROJECT LOCATION</b>		
Can you show where the project will be located?	Brgy. Darong Kagawad	The project is located besides the San Miguel Foods, Inc. (SMFI) Feed Mill facility.
<b>WATER CONSUMPTION</b>		
How much is the water consumption of project?	Brgy. Darong Sectoral Representative	Since the project employs dry-process, the project only needs 110 cu. m/day for process cooling, greening and domestic use.
<b>MARINE ASSESSMENT</b>		
Can the proponent's marine assessment be validated with DENR Regional Office's marine experts? This is so we could avoid duplication of works?	CENRO Digos City Representative	This suggestion is noted by Oro Cemento. All information pertaining to the results of the marine assessment for the EIA is presented in the report.
<b>IMPACTS OF THE PROJECT</b>		
Can your product (cement) cause cancer (carcinogens)?	Brgy. Darong Sectoral Representative	At present, there are no literatures/studies indicating that cement products can cause cancer.
Will your products generate noise during operation? Do you have mitigating measures for it?	Brgy. Darong Sectoral Representative	<p>The project will definitely produce noise.</p> <p>The project will be constructed far enough (middle of the property) from the neighborhood. Further, the project will have mitigating measures to attenuate noise (walls, mufflers, etc.).</p> <p>We will ensure that the project will follow the set standards from NPCC and avoid any discomfort (noise) in the community.</p>
What will happen if there will be oil spill in the sea?	Brgy. Darong Sectoral Representative	<p>Vessels calling at the port will not be working on items which might cause oil spill, however if and when such happens, a contingency plan is in place to address it.</p> <p>The EIS report for the project identified oil spill and ensured that proper mitigating measures are applied.</p>

ISSUE/CONCERN RAISED	ISSUE/CONCERN RAISED BY	RESPONSE FROM THE PROPONENT/CONSULTANT
<b>MULTI-PARTITE MONITORING TEAM (MMT)</b>		
Will the project have multi-partite monitoring? Who will be the members of the MMT?	Brgy. Darong Sectoral Representative	The project will have an MMT. The members of the MMT will be determined after the issuance of the Environmental Compliance Certificate (ECC). The MMT composition will be based on DENR's new DAO.
<b>INFORMATION, EDUCATION AND COMMUNICATION CAMPAIGN (IEC)</b>		
Can we have another meeting to discuss further the effects of the project to the community?	Municipal Planning and Development Office Representative	This is noted by Oro Cemento, but we should schedule this after the review of the EIS is finished.
<b>BIOSECURITY</b>		
Can you verify if it is allowed to plant trees near the feed mill facility? As mentioned in our coordination meeting with SMFI, they discourage tree planting, as it can cause birds to go near the feed mill.	Sta. Cruz LGU Representative	The trees to be planted are non-fruit bearing trees. The facilities to be constructed, like warehouses and offices, are closed.  We will also be coordinating with SMFI regarding this.
<b>SITE VISITATION</b>		
Is it possible to have a site visit for barangay officials to similar projects (cement/grinding plants) that SMC is currently operating?	Barangay Darong Barangay Captain	We will be coordinating with your office (barangay) for the new schedule of the site visit.
<b>GREENING PROGRAM</b>		
May we suggest that the greening program in the peripheries will benefit the public? May we suggest further that fruit-bearing trees be planted?	CENRO Digos City Representative	As mentioned earlier, planting of fruit bearing trees is discouraged by Feedmill management to avoid attracting birds and insects that may contaminate their raw materials for feeds.
<b>PROPOSED SCHOOL LOCATION</b>		
What is the update on the promised location of the Darong High School?	Education Sectoral Representative	This is still being discussed with the management. As we are still looking for a location that will benefit the students. Once finalized, we will be coordinating with the barangay.  It will be better if the barangay and school representatives will suggest a location for Oro Cemento to consider.

- <sup>9</sup> The full transcript and video documentation of the public hearing proceedings are presented in **Attachments 5 & 6**, respectively.

# **PUBLIC HEARING AT ANG PHILIPPINE EIS SYSTEM**

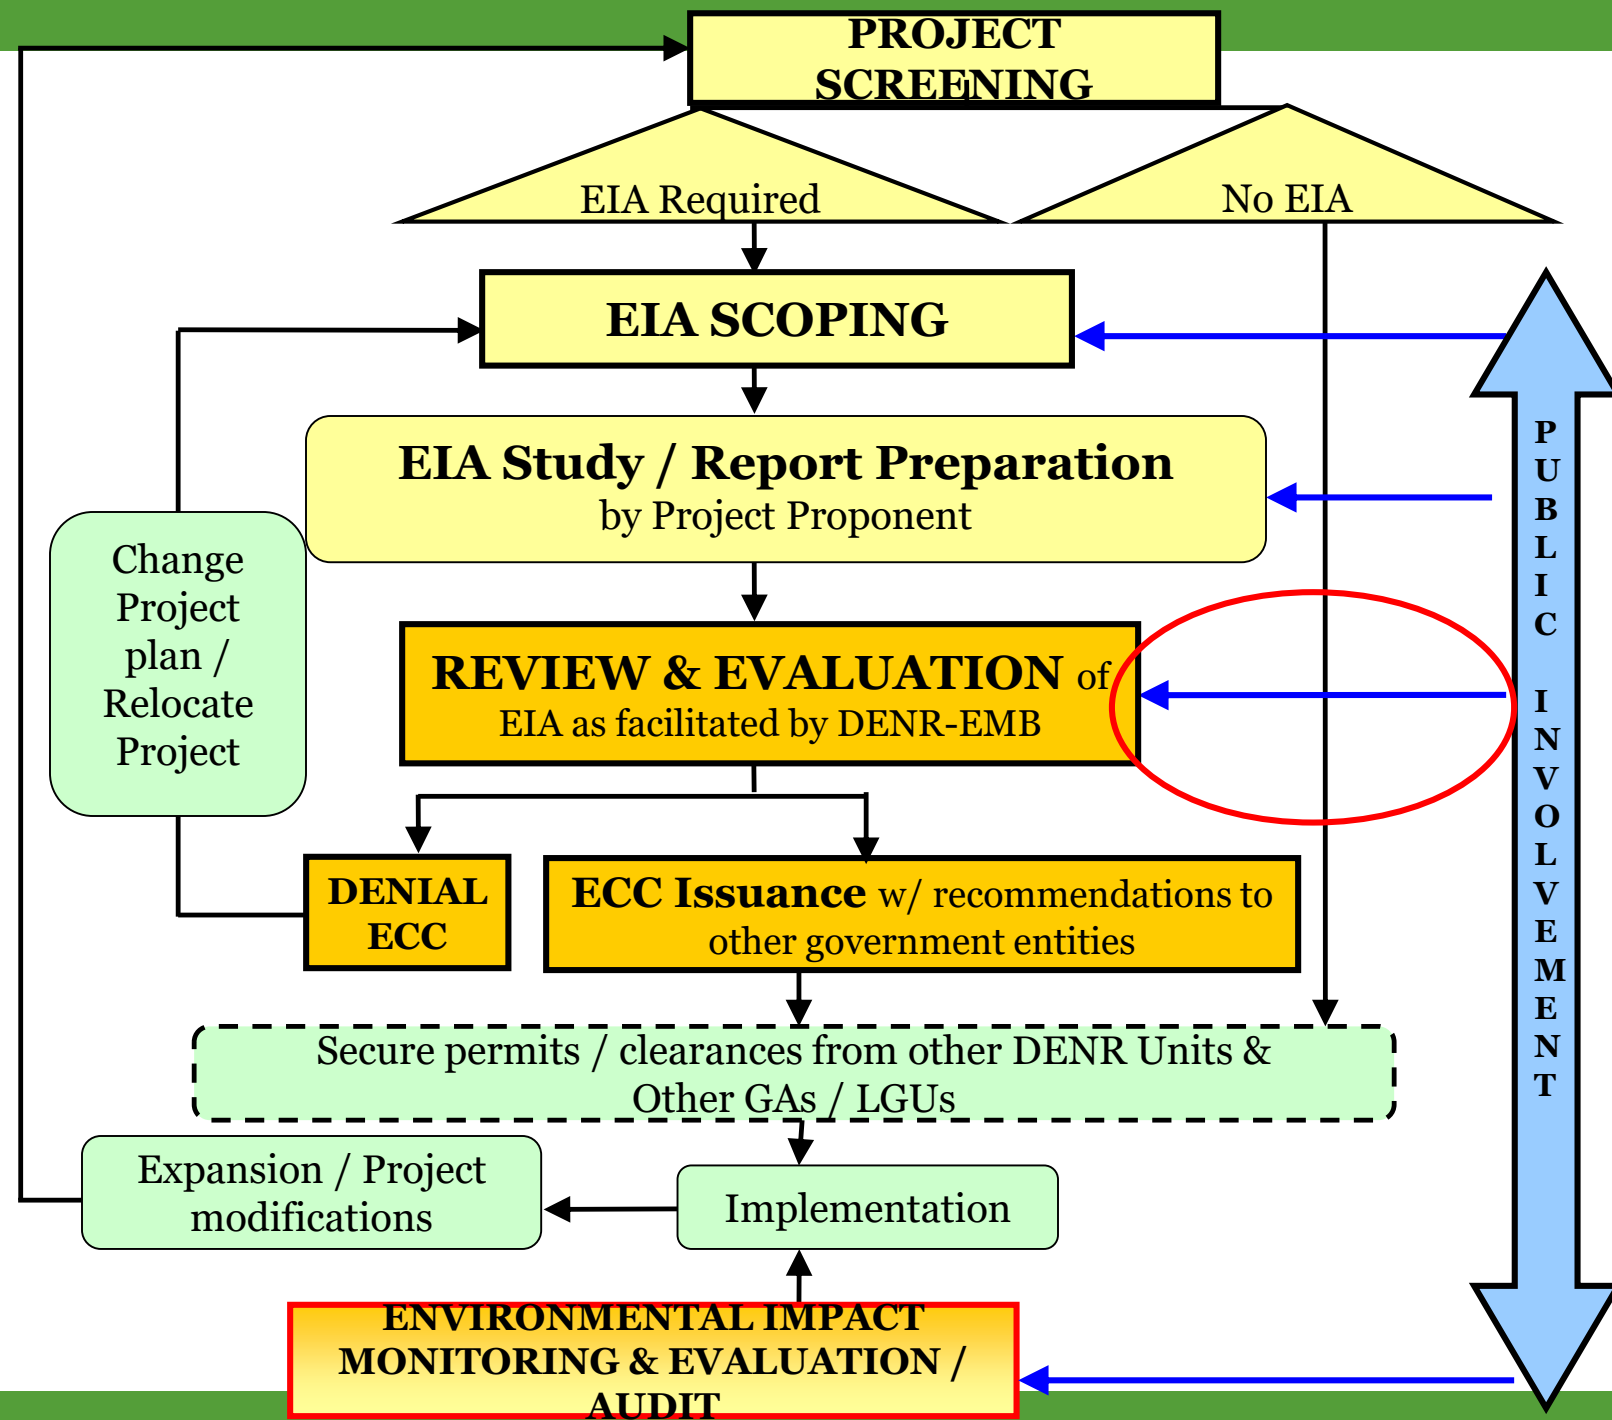

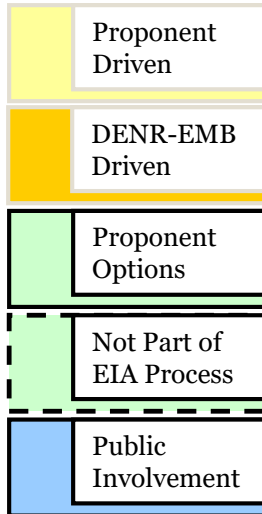

# PUBLIC HEARING

---

# Public Hearing

- Bahagi ng EIA Process
- Isang paraan ng Public Participation

**LEGEND:**

# Public Hearing

- Is designed to promote dialogue or communication between and among the project proponent, the DENR and the public for the purpose of exchanging information and views about the proposed project.
- Is a formal process that is initiated, planned and conducted by the DENR.

# Public Hearing

- It provides a forum for the proponent and the DENR to understand community values or needs and appropriately respond to them
- Serves as a venue to test alternative options for resolution of issues or conflicts.

# Objectives and Purpose

- To provide a forum for the proponent to inform the entire community of the **outcome of the Environmental Assessment** of proposed undertakings;

# Objectives and Purpose

- To **verify the accuracy** of the EIA findings in relation to the situation on the ground;
- To confirm that all the affected parties and stakeholders have been **adequately consulted** and have been part of the various decision-making processes;

# Objectives and Purpose

- To offer the affected and interested parties, as well as other stakeholders, the opportunity to **express their opinions** on any issues considered outstanding; and
- To promote effective **public participation** and ensure confidence in the EIA process as well as support for the proposed undertaking.

**Atty. Aime Rodaje**

Public Hearing Officer for the  
Proposed Project

DENR-Central Office

# **MGA PANUNTUNAN SA PAGSASAGAWA NG PUBLIC HEARING**

## Mga Patakaran sa Pagsasagawa ng Public Hearing

---

1. Ang public hearing ay gagawin sa Tagalog. Gayunpaman, maaari pa ring gamitin ang lengguwahe kung saan kayo mas kumportable.
2. Ang sinumang may gustong sabihin sa open forum ay dapat itaas ang kanyang kamay upang mapayagang magsalita ng hearing officer. Ang mga komento at suhestyon ay maaari ding isulat sa ipapamahaging papel at ibigay sa tauhan ng DENR.
3. Gamitin ang mikropono sa pagsasalita sapagkat ang mga pangyayari ay itinatala.
4. Kung magsasalita sa unang pagkakataon, sabihin ang pangalan, opisina/organisasyon na iyong nirerepresenta at ang iyong posisyon.

## Mga Patakaran sa Pagsasagawa ng Public Hearing

---

5. Ang mga magsasalita ay dapat bigyan ng kaukulang pansin ang nakalaang oras

Project Proponent – 10 minuto para ipaliwanag ang proyekto

EIA Consultant/PP – 15-20 minuto para ipaliwanag ang mga natuklasan sa kanilang pag-aaral

Stakeholders/Concerned citizen – 2 minuto bawat isa

*(ang sinumang gustong magsalita ng mas matagal upang ipresenta ang mga importanteng impormasyon gayundin ang mga nangangailangan ng mga gamit tulad ng projector ay dapat magsabi sa hearing officer sa pamamagitan ng EMB personnel bago magsimula ang open forum)*

6. Lahat ng presentasyon at katanungan ay dapat maikli, malinaw at direkto. Iwasan ang paggawa ng mahahabang pagsasalita upang magamit ng husto ang partisipasyon ng publiko at upang makamit ang objektib ng public hearing.

## Mga Patakaran sa Pagsasagawa ng Public Hearing

---

7. Ang mga komento ay dapat gawin bilang kinatawan ng interes ng publiko at hindi pansarili ng sa gayon ay nakapokus ang lahat sa isyung pinaguusapan.
8. Makinig sa taong nagsasalita at iwasan ang paggawa ng anumang nakakabulabog. Ano man ang nararamdaman tungkol sa sinasabi ng taong nagsasalita ay dapat itong ipagtimpi at hintayin ang pagkakataong makapagsalita. Irespeto ang opinion ng iba at ang hindi pagsang-ayon ay dapat isatinig ng maayos.
9. Ang hearing officer ay may karapatang palabasin ang indibidwal o grupo na patuloy na nakakagulo sa ginagawang hearing kung hindi pa rin ito tumigil matapos bigyan ng tatlong babala ng Hearing Officer.
10. Kung maari ay tapusin ang Public Hearing at huwag munang umalis.

Proponent

# ANG PROYEKTO

# IMPORMASYON TUNGKOL SA PROYEKTO

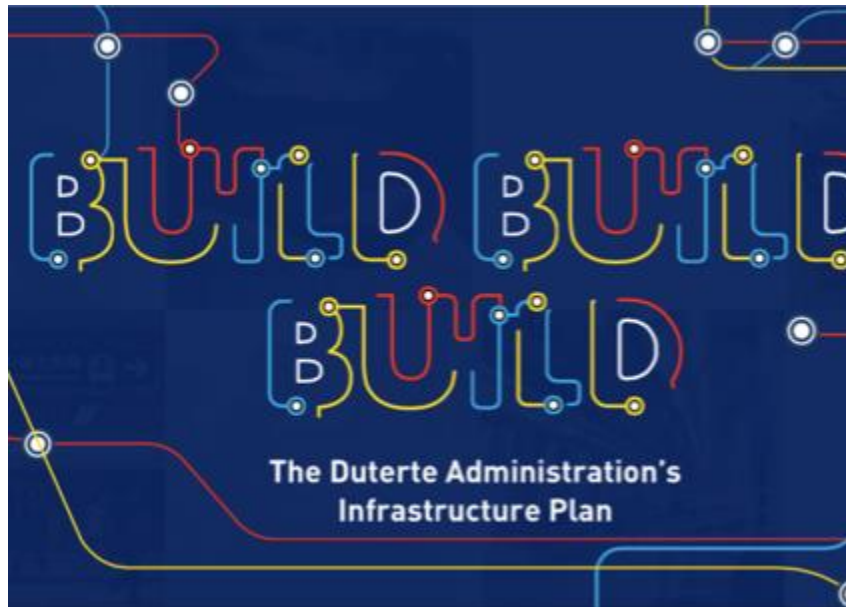

PANGALAN NG PROYEKTO **Santa Cruz Cement Grinding Facility**

PROPONENT **Oro Cemento Industries Corporation**

URI NG PROYEKTO **Cement (Clinker) Grinding Process**

LAKI/KAPASIDAD **2.0 Million Metric Tons per Year (MMTPY)  
Semento/50,000,000 Sako ng Semento**

LOKASYON **Brgy. Darong, Sta. Cruz, Davao del Sur**

## Layunin ng Proyekto

- Masuplayan ang pangangailangan sa mga kagamitan sa konstruksyon bunga ng pagdami ng mga investments sa iba't ibang sector ng bansa.
- Makakatulong din ang proyekto sa mga malalaking proyekto ng Gobyerno mula sa "*Build, Build, Build*" program ng Administrasyong Duterte.

# Bahagi ng Proyekto

PROJECT COMPONENT	DESCRIPTION/SPECIFICATIONS
Raw Materials Storage	Longitudinal storage with 50,000 MT capacity and with mechanical reclaimer
Clinker Storage	6 x 10,000 tons capacity
Dosing Silos	6 x silos with various sizes, with weigh feeders
Cement Mill	1 x 250 TPH Vertical Roller Mill
Cement Storage	4 x 10,000 tons capacity
Cement Packing and Dispatch	3 x 90 TPH Rotary Packing machine
Water Source	2 Deepwell Pumps (capacity: 110 cu.m./day)
Air Pollution Control	Bag Filters
Wastewater Pollution Control	Septic Tanks Sewage Treatment Plant
Pier Facility (Common)	Raw Material/Clinker Unloading & Conveyor
<b>Support Facilities</b> <ul style="list-style-type: none"> <li>• Warehouses</li> <li>• Administration Building and Staff House</li> <li>• Parking and Truck Marshalling Area</li> <li>• Water and Wastewater Treatment Facilities</li> <li>• Clinic</li> <li>• Power Substation</li> </ul>

# **KABUUANG RESULTA NG PAGSUSURI**

POTENSYAL NA EPEKTO	DESKRIPSYON	MITIGATING MEASURES
LAND		
LAND USE AND CLASSIFICATION		
Impact in terms of compatibility with existing land use	Ang proyekto ay itatayo sa lugar na nakatalaga bilang <b>Industrial Zone</b> sa Sta. Cruz, Davao del Sur	Pagpapanatili ng sapat na <b>buffer zone</b> para mabawasan ang epekto sa mga katabing komunidad

POTENSYAL NA EPEKTO	DESKRIPSYON	MITIGATING MEASURES
<b>LAND</b>		
<b>LAND USE AND CLASSIFICATION</b>		
<b>Improper solid waste management and other related impacts</b>	Pagkakaroong ng basura sa pagtayo at paggawa ng planta	Pagpapatupad ng Solid Waste Management Plan alinsunod sa umiiral na sistema sa bayan ng Sta. Cruz

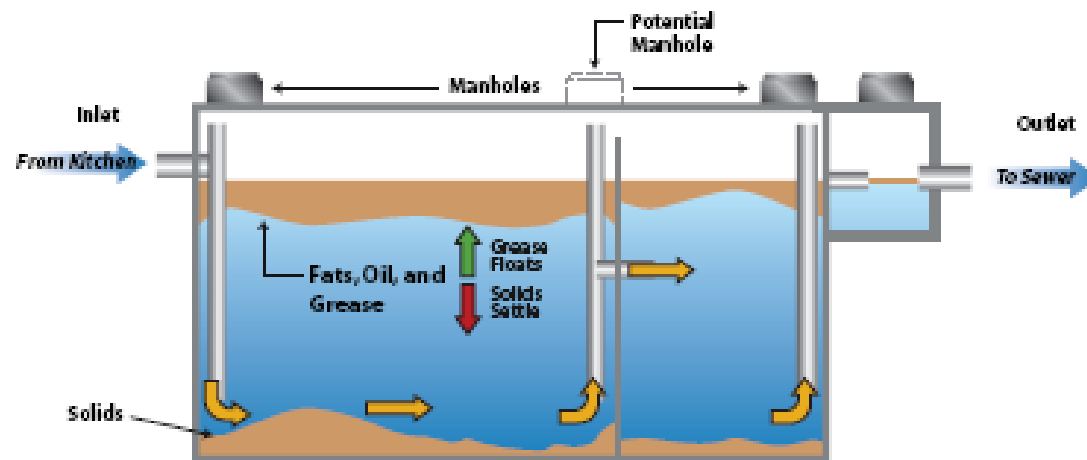

POTENSYAL NA EPEKTO	DESKRIPSYON	MITIGATING MEASURES
LAND PEDOLOGY		
Soil erosion/Loss of topsoil	Soil erosion dulot ng site development	Paglilimita ng earth movement Paglagay ng silt trap or settling pond

POTENSYAL NA EPEKTO	DESKRIPSYON	MITIGATING MEASURES
<b>WATER</b>		
<b>WATER QUALITY</b>		
Degradation of ground water / coastal water quality	Kontaminasyon dulot ng hindi tamang pagtapon ng waste water	Paglalagay ng sanitation facilities para sa mga manggagawa (hal. palikuran, paliguan, atbp.) Oil water separator

**CONVENTIONAL GREASE INTERCEPTOR** Outdoor, In-ground-Precast Concrete (Typical)

## POTENSIAL NA EPEKTO

## DESKRIPSYON

## MITIGATING MEASURES

### AIR

### AMBIENT AIR QUALITY AND NOISE

#### Impact on Air Quality

Emisyong  $\text{NO}_x$ ,  $\text{SO}_2$ , at CO mula sa heavy equipment na gagamitin sa konstruksyon ng proyekto

Maayos na maintenance sa heavy equipment

Emisyong TSP at  $\text{PM}_{10}$  emissions mula sa cement grinding facility

Paglalagay ng bag filters na kayang sumagap ng 90% ng emisyon mula sa cement grinding facility

Pagdidilig ng kalsada sa loob ng planta para ma-control ang alikabok

POTENSYAL NA EPEKTO	DESKRIPSYON	MITIGATING MEASURES
<b>AIR</b> <b>AMBIENT AIR QUALITY AND NOISE</b>		
<b>Increase in Ambient Noise Level</b>	<p>Ingay mula sa heavy equipment sa konstruksyon ng proyekto</p> <p>Ang cement grinding facility ay magdudulot ng ingay</p>	<p>Maintenance ng makina at iba pang mekanikal na parte ng mga kagamitan</p> <p>Paglalagay ng exhaust mufflers</p> <p>Paggawa ng enclosures na papalibot sa project site</p> <p>Maintenance ng vegetation na nakapalibot sa project area bilang natural na pananggalang sa ingay</p>

<b>POTENSIAL NA EPEKTO PEOPLE</b>	<b>DESKRIPSYON</b>	<b>MITIGATING MEASURES</b>
<b>Traffic Congestion</b>	Trapik dulot ng pagdami ng trucks na babaybay sa loob at labas ng planta	Koordinasyon sa LGU ng Sta. Cruz tungkol sa tamang pag-manage ng trapik malapit sa project area  Paggawa ng private road upang hindi magamit ang barangay road

# **IBA PANG MGA ISYUNG NATALAKAY MULA SA MGA NAKARAANG KONSULTASYON**

ISSUES/CONCERNS/ SUGGESTIONS	RAISED BY	PROPONENT/EIA CONSULTANT RESPONSES
<b>LAND, WATER AND AIR</b>		
<ul style="list-style-type: none"> <li>Ang foreshore lease application ay kinakailangan para sa proyekto.</li> </ul>	Ms. Aida Bautista (PENRO DMO)	Sa kasalukuyan, mayroong aplikasyon ng foreshore lease application ang proyekto.
<ul style="list-style-type: none"> <li>Ang marine ecosystem ay kinakailangang pag-aralang maige, lalo na ang malapit sa port facility.</li> </ul>		Base sa aming isinagawang marine assessment, walang tatamaang marine resources (corals, seagrasses, etc.) sa alignment ng pier.

ISSUES/CONCERNS/ SUGGESTIONS	RAISED BY	PROPONENT/EIA CONSULTANT RESPONSES
<b>PEOPLE AND OTHER ENVIRONMENTAL CONCERNS</b>		
<ul style="list-style-type: none"> <li>Restriksyon sa pagpasok sa baybayin sa tapat ng proyekto kapag nag-operate na ang planta.</li> </ul>	Mr. Jamil Onutan (BFARMC)	<p>Base sa mga pag-uusap na ginawa para sa mga mangingisda, malayo ang lugar ng pangisdaan nila sa lugar na pagtatayuan ng proyekto.</p> <p>Maaari paring makadaan ang mga mangingisda, ngunit hindi ito nirerekomenda, para na rin sa kanilang kaligtasan.</p>
<ul style="list-style-type: none"> <li>Paggamit ng barangay road ng mga trucks.</li> </ul>	Ms. Juvy Caballero (Brgy. Kagawad)	Hindi gagamitin ang barangay road, dahil magkakaroon ng private road ang mga delivery trucks papasok at palabas ng planta hanggang sa National Road.

ISSUES/CONCERNS/ SUGGESTIONS	RAISED BY	PROPONENT/EIA CONSULTANT RESPONSES
<b>PEOPLE AND OTHER ENVIRONMENTAL CONCERNS</b>		
<ul style="list-style-type: none"> <li>Pagkakaroon ng Batch 2 ng site visit sa cement plant ni SMC.</li> </ul>	Mr. Hakim Lalang (Brgy. Kagawad)	Ang pangalawang batch ng site visit para sa mga bagong barangay officials ay isasagawa base sa mapapagkasunduang schedule.

ISSUES/CONCERNS/SUGGESTIONS	RAISED BY	PROPONENT/EIA CONSULTANT RESPONSES
<b>PEOPLE AND OTHER ENVIRONMENTAL CONCERNS</b>		
<ul style="list-style-type: none"> <li>Lugar ng pagtatayuan ng barangay high school.</li> </ul>	Mr. Jerry Tumala (Brgy. Captain)	Pinagaaralan parin ang lugar kung saan pwedeng ilagay ang barangay high school.
<ul style="list-style-type: none"> <li>Pagbibigay priyoridad sa trabaho at livelihood activities para sa Brgy. Darong.</li> </ul>		Ang mga kwalipikadong residente ng barangay Darong ay bibigyang priyoridad sa trabaho at livelihood activities.

ISSUES/CONCERNS/ SUGGESTIONS	RAISED BY	PROPONENT/EIA CONSULTANT RESPONSES
<b>PEOPLE AND OTHER ENVIRONMENTAL CONCERNS</b>		
<ul style="list-style-type: none"> <li>Patrol boat para sa mga aktibidad ng Bantay Dagat.</li> </ul>	Mr. Jamil Onutan (BFARMC)	<ul style="list-style-type: none"> <li>Ito ay maaaring mailagay na programa sa CSR ng OCIC.</li> </ul>

# Proponent's Commitment sa EIS

- **Susundin** ang mga kondisyon na nasasaad sa EIS, ECC, at kaugnay na mga batas;
- **Pagtitibayin** ang ugnayan sa apektadong komunidad;
- **Itataguyod** ang *sustainable* at responsableng paggamit ng likas-yaman at angkop na teknolohiya;
- **Maglulunsad** ng programang makaaambag sa pagpapaganda ng kalidad ng buhay sa komunidad;
- **Magsasagawa** ng programang makatutulong sa kahandaan ng mga manggagawa sa planta na gampanan nang maayos ang kanilang mga trabaho; at
- **Magpapatupad** ng *grievance redress mechanism* na pangangasiwaan ng Environmental, Health, and Safety Officer.

## **TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS**

PROPOSED SANTA CRUZ CEMENT GRINDING FACILITY  
BARANGAY DARONG, STA. CRUZ, DAVAO DEL SUR

**PUBLIC HEARING**

<START OF TRANSCRIPT>

**PH OFFICER:** At this point, bibigyan po natin kayo ng pagkakataon na sabihin ang inyong katanungan. Subalit, kailangan munang tandaan ang mga rules ano po? Iwasan po natin ang mainit na pagtatalo. Yung mga masasakit po na pananalita, maiinit na argumento, iwasan po natin yun. Kasi po, makukuha naman po yun sa mahinahon diba? Yung mga katanungan po nila, dapat po, connected sa proyekto. Wag po tayong magtanong ng mga bagay na hindi konektado sa pinopropose po ng proponent.

Kung sakali po, nakiki-usap po kami sa inyo, na yung nabanggit nan a tanong, wag na po nating ulitin, kasi po, masasayang po ang oras po. Bago po magsalita, sabihin po yung pangalan, barangay, organisasyong kinabibilangan. Kung nahihiya po kayo, ako po ang lalapit sa inyo. Kung sakali po, may papel po kami para duon niyo po isulat ang mga katanungan niyo at babanggitin po naming iyon.

Hinihikayat po naming kayo mga kaibigan na sabihin niyo po yung mga saloobin na to sa oras na ito. Sige sir?

**PUBLIC:** Magandang umaga sir/ma'am, isa po akong barangay Tanod. Hindi ako anti-proyekto, natutuwa kami na malaman na ang mga pangamba ng mga tao, na hindi makasama sa katawan ang alikabok. Sa nakita namin kanina, okay ang project niyo. Dahil may pollution control. Kung may polusyon, merong solusyon. Wala naman pangamba na ang mga tao dito. Pag may nakita kaming lumilipad na mga alikabok, i-report namin sa barangay, para aksyon agad. Dun sa facility, klarong klaro naman na meron kayong solusyon sa mga polusyon mula sa project.

**TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS**

**Santa Cruz Cement Grinding Facility Project**

Venue: Covered Court Brgy. Darong, Sta. Cruz, Davao del Sur|Date:16 November 2018

---

**PH OFFICER:** Maraming salamat po sir, noted po lahat ng sinabi nila.

Pwede niyo pong sabihin sa inyong diyalekto, meron po kaming translator galing sa EMB Region XI.

**PUBLIC:** Maayong buntag sa tanan! Ako po si <inaudible> ng DENR CENRO Digos, I'm here to listen and document the presentation of Oro Cement. Sa report po, sa project proposal list, dapat sana, may visual, dahil hindi namin alam yung itatayo. Sana yung next, visualize. Kasi, gagawa tayo ng cement grinding, anong klase yun? Hindi naming alam. Sample yung image. Sa coastal, yung environment adviser, in your own, sa company. Para wala tayong duplication, sana mag invite kayo sa DENR Regional. Para malaman natin kung ano ang masisira. Kasi sa report niyo, may corals. Sana sa pag-validate, may recommendation sana yung coastal namin. In the long run, hindi natin ma-iiwasan na may maapektuhang community, lalo na yung mga mangingisda. Kung may mag-complain, ofcourse, i-entertain namin yan. Huwag naman sana tayong umabot sa punto na yun. Suggest lang po sir, na gagawa kayo sa regional office, sa coastal management division, para magkaroon ng validation sa site niyo, kasi may terms and conditions tayo jan. Yung coastal expert namin sa region, alam nila yung dapat gawin. Yung sa greening, salamat po sa company, para mamimize natin yung air pollution, kung may air pollution. Of course, ang suggest ko lang, yung itanim niyo, in-favor of the community. Kung gusto niyo talagang makatulong sa community, of course, yung mga high valued crops like manga. For protection purposes, forest trees like mahogany and narra. Yung sa solid wastes, gagawa kayo ng solid waste management plan. I-susubmit niyo sa DENR at MENRO, at least, pag mag-operate kayo, yun yung susundin namin. That is all. Thank you!

**TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS**

**Santa Cruz Cement Grinding Facility Project**

Venue: Covered Court Brgy. Darong, Sta. Cruz, Davao del Sur|Date:16 November 2018

**PROPONENT:** Sir, regarding po sa mga itatanim sa buffer zone, yung itatanim namin ay protection. Gagawa kami ng plano para sa mga appropriate trees. May plano na magtanim ng macopa, sabay sa pag-construct.

**PH OFFICER:** Sir, yung ibang suggestion po kanina, noted po lahat yun. Then yun sa validation po ng mga corals. Another question po?

**PUBLIC:** Sanitation Inspector, Sta. Cruz, sa diniscuss ni sir kanina, madami tayong maiingay na equipment na mag-operate ng 24 hours. Ano po ba yung mga mitigating measures, kasi sa pagkakaalam ko, hindi pwede na throughout the day, yung decibels ay pantay-pantay. Baka pwede natin i-discuss. Salamat po!

**PROPONENT:** Yung equipment natin, talagang nag-poproduce ng noise, may mga iba't ibang klase ng paraan para mapababa ang noise. No. 1, sa building palang, kapag nilagyan natin ng pader, naatenuate na yung noise. Pangalawa, bukod sa enclosure, ilalayo natin sa bakod. Para mas malaki ang ibaba sa ingay. Ngayon pa lang, base sa NPCC guidelines, meron pong standards sa daytime at nighttime, sisiguraduhin natin na yung sa monitoring nila, kapag nanjan na yung planta, hindi tayo nag-exceed sa noise level requirement. Meron tayong mga ganung pamantayan. We are aware of that, in fact, nasa report yung mga decibel limits na kelangang i-maintain. During the air sampling, kumuha rin tayo ng noise levels noon. So, may profile na tayo ng noise sa area. Kaya nga po nilayo yung mga equipment during the design ng planta. Syempre, ayaw naman natin na habang natutulog kayo, may naririnig kayo. Sa totoo nga, yung staff house nila, ilalapit sa community.

**PH OFFICER:** Salamat sir Joma, sana nasagot yung katanungan nila.

**TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS**

**Santa Cruz Cement Grinding Facility Project**

Venue: Covered Court Brgy. Darong, Sta. Cruz, Davao del Sur|Date:16 November 2018

**PUBLIC:** Isa pa po, yung sa health, municipal health office po, sa dust naman po, 24 hours operation, and yung mitigating measures natin ay yung bag-filter at greening. Sir, hindi ba kayo magkakaproblema sa greening, kasi katabi niyo yung feedmill? When we conducted the coordination meeting with feedmill last Monday, dinidiscourage nila yung greening, kasi it will attract birds that might create biosecurity problem for them. Greening is good for you, pero sa kapit bahay niyo, magkakaproblema sila. I-protect lang natin yung mga recipient.

**PROPONENT:** Yung hopper natin, vacuum sealed, para hindi na maka-eskapo yung alikabok. We assure you that hindi kami mag-cooperate kapag may problema ang planta.

**PH OFFICER:** Sir, yung tanong po niya regarding sa feedmill.

**PROPONENT:** Tungkol po sa sinasabi sa feedmill at saka sa cement plant, as much as possible, ang ilalagay pong puno ay hindi namumunga. Yung lahat ng bodega ng feedmill, nakasarado po yun. Iiwasan din po natin na pumasok yung mga ibon. Pag-uusapan din po namin ito ng feedmill, para ma-address yung sinasabi niyong issue.

**PUBLIC:** Good morning po, Darong high school, we are very happy na mabigyan na rin ng pansin yung kinakailangan naming lupa para sa high school. Nakakalungkot lang, kasi it was announced sa scoping, tapos ngayon, na-mention ulit. May mga tao ng member ng SMC na tinatanong po namin, nakakalungkot po yung sagot na hindi po naming alam, at wala daw pong document na will justify na yung community has a request for the lot for the high school so nalungkot po kami. In fact, yesterday, nag-hahanap po kami ng document na it will prove na may mga promises

**TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS**

na nangyari. May mga minutes po na nangyari po ang mga pag-uusap for the Darong high school. Kasi yung sa Darong high school po, we really need that, at urgent po iyon.

**PROPONENT:** Totoo po yun, napag-usapan sa mga dating scoping yun. Yung narecommend po namin na lugar malapit po sa <inaudible>. Kaya ang advise ng management, look for other areas, as much as possible, huwag malayo, para sa mga bata. Para hindi tayo magkaproblema. So, ang suggestion natin, ihanap ng lugar, given yung ibang areas na hindi pa namin pag-aari. Huwag kayong mag-alala, at tutulungan namin kayo tungkol dun.

**PH OFFICER:** Okay po? Sir?

**PUBLIC:** Thank you po for that, and we are looking forward na mangyari po ito this year. Okay po, yung concern is yung environmental, yung mga sampling, ang tanong ko po, saan po ba ma-aaccess ang data na ito.

**PROPONENT:** Sasabihin ko nga po kanina, yung kabuuan ng report, accessible po siya sa EMB website. Kasi po, bago tayo nag-conduct ng public hearing, naka-upload po yung file. Kasi po, may policy si EMB ngayon, na lahat ng report na i-susubmit sa kanila ay i-uupload. Even po yung certificate of analysis. Nasa tarp din po kung saan niyo kukunin. Although, draft pa po iyon, and bago nila i-approve yung ECC, i-uupload nanaman po ulit iyon.

**PUBLIC:** Pwede pong makasuggest din na, bigyan yung barangay Darong for easier access. From time to time, kapag nag-operate na yung planta, hindi maiiwasan yung mga parents namin na magtanong, so for easier access po, I suggest meron po sa barangay.

**TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS**

**Santa Cruz Cement Grinding Facility Project**

Venue: Covered Court Brgy. Darong, Sta. Cruz, Davao del Sur | Date: 16 November 2018

**PH OFFICER:** Noted po yun sir, makipag-coordinate po kayo sa local government sa barangay.

**PUBLIC:** Good morning, I'm <inaudible> from the planning office. Ang tanong ko lang sir, nagpresent kayo kung ano yung about sa monitoring sa air, water at solid waste. Gusto namin malaman yung talagang result, kasi teknikal yun. Sa level namin, meron na kaming kaunting kaalaman. Maganda po siguro na meron tayong 1 meeting para ma-coordinate namin sa mga barangay officials kung ano talaga ang result. Third party ang kumuha ng data, so parang transparent lang for the community. Para may interaction sa result. Ang gagawin natin ay baseline, so may monitoring kayong gagawin every quarter. Kailangan nating malaman yung mangyayari sa future at commitment sa community. Yung sa zoning classification niyo sa lupa, nakalagay yan sa agricultural, pero pwedeng gawing industrial, pero hindi pa siya na-approve. Yun lang sir, thank you!

**PH OFFICER:** Si Sir Jolo (EMB) po muna ang mag-eexplain about sa MMT.

**CASE HANDLER:** Yugn tungkol po sa multi-partite monitoring team (MMT), base po sa aming DAO, yung public participation natin for Environmentally Critical Projects, ay mangangailangan ng MMT. Ang MMT po ay ma-eestablish kapag na-issuehan na sila ng ECC. Yung mga representatives po mula sa LGUs, communities, and based na rin po sa bagong DAO, DENR CENRO at PENRO. Ang MMT po yung monitoring arm ng EMB. Sila yung katulong sa pagvavalidate dun sa mga kinonduct na monitoring activities ng proyekto, at kung nag cocomply po sila sa conditions naka-impose po sa ECC nila. Including yung mga monitoring plans at kung effective po ba.

**TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS**

**Santa Cruz Cement Grinding Facility Project**

Venue: Covered Court Brgy. Darong, Sta. Cruz, Davao del Sur | Date: 16 November 2018

**PUBLIC:** The result of the study should also be presented not only to the officials but to technical persons in the local government unit. I am the MPDC. We wish that we can find time to study the EIS. We will also discuss this with the members of the academe. Our vision for the next 9 years, that our development should have ecological one. It should not be about economic development only. It should be sustainable and have ecological balance. <inaudible>. We can explain to the people, the process, para kung ano yung mangyayari yung community. How I wish that the presentation of the process flow. We have to this presentation. Yung process talaga. Also, we have to sit-down regarding the road network. Maybe the provincial and municipal government for the road. That we should know so we could integrate it in our plans.

**PROPONENT:** Noted po, maraming salamat po MPDC. Maganda po yung suggestion niyo about sa pag-disclose, but we have to consult this with the EMB also, kasi nasa proseso kami ng review. Kung ang i-issue samin regarding sa IEC, specifically for the LGU and BLGU to discuss the information. Nothing will prevent you for asking this to Oro. Yung process flow and road networks will be discussed with you, so thank you po.

**PH OFFICER:** Tuloy-tuloy naman po yung communication nila sa inyo, and yung lahat ng issues na i-reraise ay noted naman po.

**PUBLIC:** Member ng Lupon <inaudible>. Facility o planta? Facility yung tawag? Yung sa FLA, how many years yung lease?

**PROPONENT:** On-going po yung application for FLA. Yung sa watershed protection, that will be part of the CSR and also yung greening

**TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS**

**Santa Cruz Cement Grinding Facility Project**

Venue: Covered Court Brgy. Darong, Sta. Cruz, Davao del Sur|Date:16 November 2018

program. Yung 110 cu. m., that is the rated po, but the requirement of the plant is maliit lang, wala pong 30 cu. m., so maliit lang po. Limitado lang po yung water requirement ng planta, because this is a dry process. Nakalagay po sa report natin kung ilan po yung tubig na kekelanganin.

**PH OFFICER:** Sasagutin din daw po ni sir (CENRO) yung question ni sir.

**PUBLIC:** Sir, tulong lang po ito sa company, to make it clear, sa FLA, may application po yung SMC sa CENRO Digos, kung ilang years po yung foreshore, 25 years po yan - renewable po yan. As long ang ma-meet nila yung condition sa FLA, bayaran nila, may mga terms and conditions yan sa contract. And then sa watershed po, mapansin po natin na yung Oro Cemento Company, wala po sa taas, nasa lowland po siya. Mas dapat po pagtuunan yung coastal resources. Its up to the company kung magbibigay sila ng tulong or suporta sa watershed programs. Yung sa soil sampling, that's the time po na magkakaroon ng MMT. Titignan natin yung commitment ng company - magbibigay sila ng data. Gusto ko lang po ma-claro.

**PH OFFICER:** Maraming salamat po sa information! May mga tanong pa po ba?

**PUBLIC:** Point of clarification, may mga nakausap po kami na yung nag-pepresent daw is not an employee of Oro Cemento. Kasi hindi po namin alam yung empleyado ng Oro Cemento.

**PROPONENT:** Nagpakilala po kami kanina. Kami po yung consultant.

**PUBLIC:** Hindi daw po kasi valid yung commitments, kasi hindi po kayo tiga-SMC, yung nag-hahandle ng public scoping ay not from Oro.

**TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS**

**Santa Cruz Cement Grinding Facility Project**

Venue: Covered Court Brgy. Darong, Sta. Cruz, Davao del Sur | Date: 16 November 2018

**PH OFFICER:** Si Sir Joma po, ay yung consultant na nag-conduct ng study. May mga clarifications pa po ba?

**PUBLIC:** During the time na mag-operate na yung planta, makakadaan po ba kami sa pier?

**PH OFFICER:** Actually, prinesent napo kanina, pero i-clarify po ulit ni Sir.

**PROPONENT:** Butas po yun no, makakalusot po kayo. Kaya lang po, pag-uusapan din po natin later, dahil may mga safety procedures po tayo sa planta, lalo na kapag nanjan yung barko. For safety reasons. More than us, mas alam niyo po yung condition ng dagat.

**PUBLIC:** Maayong buntag! Ako po ang Brgy. Captain ng Darong. Direct to the point sir, gusto lang po naming sa council <inaudible>, gusto sana namin i-visit namin yung lugar na may katulad nung sa gagawin project.

**PUBLIC:** Yung sinasabi ni kapitan, that was already presented during the public scoping. Wherein, they will be going to similar projects in other places, so they can appreciate the project. Binabalik lang po ni Kapitan.

**PROPONENT:** Nag-organize na po ng plant tour sa previous barangay officials. Nagkataon lang po na napalitan po sila, at ipaparating po natin ito. Pero, wala pa po yung public scoping natin dati, i-ninitiate na nung kumpanya yung pagdala sa ating mga officials sa planta. Siyempre, naiintindihan ko po na bagong set tayo. Kaya po, ipaparating natin ito sa management.

I-clarify ko lang din po na kami ay consultant, at EIA preparer lang po kami. So, we actually have a direct connection to the client. So

**TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS**

Venue: Covered Court Brgy. Darong, Sta. Cruz, Davao del Sur|Date:16 November 2018

nakaka-communicate po kami. Wala po kaming power. Ang pwede lang po naming magawa ay maisulat yung mga recommendations namin.

**PH OFFICER:** Sir, lahat naman po ng usapan dito ay Documented naman po.

**PUBLIC:** Ma'am, kasi ganito ang nangyari jan, so yung President po, hindi naman tayo against sa project. Ang gusto lang naming mangyari, Makita yung lugar. Maraming salamat po!

**PUBLIC:** Maayong buntag sa tanan, salamat po na na-mention ni sir yung sa environmental. Salamat at may team na mag-momonitor. Sino ba yung mga representatives ng MMT?

**PH OFFICER:** Jolo, can you answer the question?

**CASE HANDLER:** Composition po ng MMT natin ay maximum of 10. Composition po ng MMT natin ay representatives ng barangay officials, MENRO/CENRO, RHU, LGUs, representatives ng other government agencies na may mandato sa kanilang proyekto. By virtue na rin po ng DAO 2018-18 na miyembro rin po yung MMT yung representatives po ng DENR.

**PUBLIC:** Saan po yung location talaga ng planta?

**PH OFFICER:** Sir, sino po yung sasagot? Actually po kanina, pinakita na po kung saan yung magiging location ng project.

**PROPONENT:** \*Shows the project location and area\*

**PUBLIC:** Good morning, school head po ng Darong high school. Last scoping po kasi, last July. Yung mga heads po namin, nagbigay sila ng budget for the new school building. Ngayon po, nagfofollow-up po sila kung ano daw po yung linya ng oro cemento. Kasi, lalagpas nanaman po yung budget. I hope you know what I mean.

**TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS**

**Santa Cruz Cement Grinding Facility Project**

Venue: Covered Court Brgy. Darong, Sta. Cruz, Davao del Sur|Date:16 November 2018

**PROPONENT:** Maraming salamat po. Actually sir, may na-identify na kami na location. Nagkaroon ng deliberation na yung area, hindi dapat duon yung school. So, naghahanap kami ng lugar, baka may marerekomenda kayo, titignan namin kung pwede. Kasi sa ngayon, wala kaming area na pwedeng magamit.

**PH OFFICER:** Sir, tulungan na lang po. Baka may pwede kayong i-recommend na area.

**PUBLIC:** Sa ngayon po, may na-identify kaming lupa na hindi masyadong malayo sa elementary school. Yun po yung area nila <inaudible>. Tapos, mga 2 hecatares po yun.

**PROPONENT:** I-check po natin yung documentation nung area. Tapos, kung okay po, ipapa-approve naming sa management. Yung area requirement niyo, gusto lang din naming malinawan, kasi masyadong malaki yung 2 hectares, para sa 3 rooms.

**PUBLIC:** Yung school na itatayo is for junior and senior high school. Yung sa amin po, yung lupa namin is around 2.6 hectares.

**PROPONENT:** Gusto lang din malaman, especially yung data natin.

**PUBLIC:** So far po, mga 60 students pa lang. Pero mag-dodoble doble po yun.

**PH OFFICER:** Sige po, pag-usapan na lang po ito sa ibang araw. Okay po?

**PUBLIC:** Concern lang po ako sa dagat, diba mag-gamit kayo ng barko, pano kung magdulot po yun ng oil spill or marine pollution. Kasi, yung mga tao jan, duon naliligo.

**TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS**

**Santa Cruz Cement Grinding Facility Project**

Venue: Covered Court Brgy. Darong, Sta. Cruz, Davao del Sur|Date:16 November 2018

**PROPONENT:** Salamat po sir, naka-incorporate po yung oil spill management at emergency response kung sakaling magkaroon ng oil spill sa report. Yung plano natin is kausapin din later.

**PUBLIC:** Sir, tanong ko lang po kung may statistics kayo for the noise? So sir, anong decibels po ba, meron po ba kayo? Maka-affect po ba?

**PROPONENT:** Naka indicate po yun sa report, yung statistics about sa noise.

**PUBLIC:** Sir, sa data po ng air quality, particulars po, microns po? So sa air po, can we guarantee that walang carcinogens sa products ninyo? I just want to clarify this, as the project may cause problems sa health ng community.

**PROPONENT:** Wala pong known carcinogens sa semento.

**PH OFFICER:** Basahin ko lang po yung tanong, may suggestion po na kung pwede, palitan yung name ng project, magiging Darong po.

**PH OFFICER:** \*Recapitulation of the public hearing proceedings\*

**PH OFFICER:** Okay, kung wala na pong tanong, isasara na po natin ang public hearing.
