I. Attendance of stakeholders & the general public¹

The public hearing was held on March 22, 2019. There were 234 participants who attended the said meeting. Barangay *tanods*, barangay *kagawads*, barangay health worker and residents were present. Representatives of Mabuhay FilCement Inc. also attended, together with representatives from EMB and PCEAS. Attendance is attached as Annex A.

II. What and how the information was disseminated to various stakeholder groups

Invitations were sent to officials and residents of Brgy. Lumbang Calzada which stated that the public hearing was scheduled on 22 March 2019 (Friday) at 10:00AM in Brgy. Lumbang Calzada, Basketball Court, Calaca Batangas. See attached invites in Annex B. The registration for the said hearing started from 9:00AM until 10:00AM. The program officially started on 10:00AM with the national anthem, invocation from the head of Barangay Health Workers, Mr. Michael Gonzales and opening remarks from Mr. Carlo Enrique Soriano, the Municipal Planning and Development Coordinator.

Mr. Carl Louie Santiago, from the EMB Central Office, then introduced the conduct of the public hearing. He also presented the target objectives and outcomes. After that, a representative from Mabuhay FilCement Inc. presented the project background, description, location, implementation, schedule, and other information and facts regarding the MFI Grinding and Packing Facility.

The results of the EIS study conducted was discussed by Ms. Socorro Patindol. Afterwards Atty. Aime Rodaje presented the house rules on the conduct of public hearing. The open forum lasted for an hour then there was a break. After a two hour break, Atty. Rodaje discussed the agreements in the public hearing and consultation open forum and he also presented the summary of issues, concerns, and impacts raised by the public and responses of the proponent. Mr. Santiago then discussed the next steps in the EIA process and closed the program.

¹ Description of stakeholder sectoral representation

III. Issues and Concerns Raised during the Public Hearing

Table 1 - Issues and Comments with response during the public hearing

Question	Response
Air	
Are the houses near the site going to be affected by the project in terms of pollution? – Efren Alvarez	<p>The proponent mentioned that the proposed project is not an integrated facility (cement plant). The proposed project is a grinding facility for clinker. Trucks have hopper installed with dust collectors to minimize air pollution. Trucks going to the facility are also fully covered.</p> <p>MFI being accountable to DENR, assures the community of its compliance to the mitigating measures using state of the art technology.</p> <p>The clinkers will be in silos. The grinding equipment is inside an enclosed building and sound proof barriers.</p>
What is the assurance on the mitigating measures for waste, dusts? – Florencio Calingasan	<p>The proponent mentioned that the design is different from other plants. New grinding system will be adopted as an alternative to the existing technology to ensure production processes will be cost-effective and environment-friendly.</p> <p>The proponent assured the community of their compliance to the mitigating measures.</p> <p>The MMT will monitor the project from construction to operation phase.</p>
What are safety precautions during hauling? I had bad experience as driver for Holcim – Lando Manalo	<p>The facilities to be constructed are fully enclosed and dust collectors will be installed including electrostatics precipitators. The proponent will ensure regular watering of the access road and surroundings.</p>
People	
What will be the procedure in the hiring process through PESO again? Give us paper that the Barangay will be prioritized in employment– Councilor Pineda	<p>The proponent assured the attendees they will take care of the communities. The company is Filipino-owned, the assurance that they can give is they are also Filipino. Local qualified residents will be prioritized in the hiring process for the project. Hiring is a direct process. MFI is Filipino-owned, thus, local employment will be prioritized.</p> <p>MFI could not assure 100% local employment as some top managers will come from head office, however, for other positions, local qualified residents will be prioritized. MFI's office is open to accept applications from the barangay.</p>

What is the opinion of Brgy. Council? – Christina Alvarez	<p>Only Councilor Pineda expressed concern on the project. She emphasized the need to protect the interest of the community and not of the project.</p> <p>Other Councilors did not give their response.</p>
What is the assurance that the project will not have impact on health? As member of the MMT, I have a bad experience with Steel Asia. Is it possible to have site visit of MFI's facility in Cebu? – Corazon Catapang	<p>MFI's facility in Cebu is an integrated facility different from what will be constructed in Calaca which is just a simple grinding and packing facility.</p> <p>Ms. Patindol of PCEAS provided additional information on how to have assurance. She mentioned that this project requires the organization of the multipartite monitoring team (MMT) to be composed of the CENRO, MENRO, Brgy Officials/representatives that will monitor proponent's compliance to the mitigating measures. The MMT is the one tasked to ensure that the proponent will comply to their promises.</p>
Will the project going to push through even without the approval of the brgy? – Dan Malapitan	As per DENR-EMB Carl Santiago, the public hearing is part of the process to secure an ECC. ECC is not a permit but a planning tool. The project may still proceed if found based on the EIA that it has no significant impact to the environment.
Does the proponent have memorandum of understanding with Brgy. Lumbang Calzada?	There is no memorandum of understanding executed with Brgy. Lumbang Calzada.
If it is possible to get the opinion of barangay officials they favor or not with the project	No answer from the Barangay Officials.
Is the project still going to proceed even without social acceptability? – Corazon Catapang	DENR- EMB's role is environment protection, to ensure that the project will not have significant negative impacts to the environment and people. The public hearing is venue for the Review Committee to gather feedback from the community as basis for review and evaluation. The LGU can conduct its own forum to determine the social acceptability. Series of consultations may still be conducted by the proponent.
What is the mark given by EMB on the consultations? – Jenmark Martinez	As per Carl Santiago, DENR- EMB cannot give a mark or they cannot rate it. All responses of the public consultations are documented and will be evaluated. The public consultations conducted will just be one of the basis for

	evaluation. Technical study results will also be included in the evaluation.
Is the public hearing a means for consultation or just for formality? – William Maligaya	As per Atty. Rodrigo, the public hearing is a consultation process. The hearing is no being done for formality purpose.
What is the assurance that the communities will not be affected and taken cared of? What about the Social Development Plan? - Christina Alvarez	<p>Mabuhay Filcement is Filipino owned and it is the vision of the owners that communities near its project is included in the development. MFI has good credibility and no bad track records of complaints from stakeholders. Hazarads are being addressed. In Cebu, there was a community that requested for a ROW for residents, but MFI owner provided a ROW wide enough for trucks to pass.</p> <p>VP Encarnacion mentioned that she has been exposed to various cement plant oprations for 30 years now but still healthy and fit because of the safety measures being undertaken by the company and concern for the employees.</p> <p>Atty. Rebadomia assured the attendees that MFI is a good company and it wants its communities to be developed and be part of the company's development. They have been working for the company and have witnessed its commitment to ensure safety and environment protection.</p> <p>S. Patindol od PCEAS presented the results of the survey. She said that respondents have expressed some environment concerns on the project, and those concerns were the basis of the conduct of EIA study. She highlighted the need to organize MMT wherein the barangay and the MENRO will become members. Mr. Santiago also highlighted that ECC is not about securing barangay permits, but it is a planning tool. Other permits from LGU and other government agencies will still have to be secured by the proponent.</p>
How is the production process of MFI for its proposed project? – Corazon Catapang	Raw materials such as clinkers, limestones, gypsum will be transported to the facility through the port of Calaca Industrial Zone and will be temporarily stored within the Project site through silos, steel bins and covered storages. The cement production process will only involve clinker and additives grinding. After grinding it will proceed to packing area for packing and then for dispatch.

	There will be no extraction of the groundwater as the project will utilize water supplied by the Calaca Industrial Seaport Zone.
What percentage of the gypsum will be used in the process? What will be the impact to KNAUF facilities? – Kathleen Saguid	Engr Mark Genayas said that gypsum will only about 6% of the total raw materials. Production will not affect KNAUF as clinkers will be stored in silos, enclosed facilities.
May we request for a black and white copy of the health impact, risks and project description? - Paz	Ms. Patindol said that summary of the Environment Impact Statement is in the DENR-EMB website. A copy has been given to the Calaca LGU and a copy of the executive summary will be given to the barangay. The proposed project site is within an industrial site but the study considered the health and community status.
Can we hear the voice of the barangay officials? – William Maligaya	As per DENR-EMB, the hearing is a venue to hear the voice of the community. Others can send their position paper to the DENR-EMB. If they insist, they can proceed with their own meeting after the closure of the public hearing.

NOTICE OF PUBLIC HEARING

On the **ENVIRONMENTAL IMPACT ASSESSMENT (EIA) REPORT** of the proposed **MABUHAY FILCEMENT GRINDING AND PACKING FACILITY PROJECT** of **MABUHAY FILCEMENT, INC.** to be located in **Brgy. Lumbang Calzada, Calaca, Batangas**.

Notice is hereby given to all parties who wish to give their opinion regarding the proposed **MABUHAY FILCEMENT GRINDING AND PACKING FACILITY PROJECT** to attend a Public Hearing on **22 March 2019 (Friday)** at **10:00 AM** (registration starts at 9:00 am) to be held in **Brgy. Lumbang Calzada, Basketball Court, Calaca, Batangas**.

The Public Hearing is being conducted in connection with the review of the EIS of the aforementioned project by the Environmental Management Bureau (EMB) of the Department of Environment and Natural Resources (DENR).

All interested parties who wish to attend or participate in this Public Hearing should preferably confirm their attendance/participation and may give their opinion(s) in a concise position paper to the **ENVIRONMENTAL IMPACT ASSESSMENT AND MANAGEMENT DIVISION (EIAMD)** of this Office through mail or through email at eiamd.emb.co@gmail.com, three (3) days before the Public Hearing schedule. Those who will not be able to register or submit written positions may be given the opportunity to share their issues on the day of the hearing itself.

The project's EIS and Executive Summary for the Public are downloadable at our website: www.eia.emb.gov.ph (kindly access the Notice of Public Hearing/ Consultation link found in our website) while copies will be available in this Office and in the following offices:

- 1.) **EMB Region 4A**
6th Flr. DENR by the Bay Bldg., 1515 Roxas Blvd., Ermita, Manila
- 2.) **Municipal Planning and Development Office (MPDO)**
Municipality of Calaca, Batangas

For more details, please contact the EIAMD Division at this Office at telephone number (02) 920- 2240 to 41 through the project case handler, Mr. Carl Louie Santiago.

Protect the environment... Protect life...

Question	Response
Are the houses near the site going to be affected by the project in terms of pollution? – Efren Alvarez	<p>The proponent mentioned that the proposed project is not an integrated facility (cement plant). The proposed project is a grinding facility for clinker. Trucks have hopper installed with dust collectors to minimize air pollution. Trucks going to the facility are also fully covered.</p> <p>MFI being accountable to DENR, assures the community of its compliance to the mitigating measures using state of the art technology.</p> <p>The clinkers will be in silos. The grinding equipment is inside an enclosed building and sound proof barriers.</p>
What is the assurance on the mitigating measures for waste, dusts? – Florencio Calingasan	<p>The proponent mentioned that the design is different from other plants. New grinding system will be adopted as an alternative to the existing technology to ensure production processes will be cost-effective and environment-friendly.</p> <p>The proponent assured the community of their compliance to the mitigating measures.</p> <p>The MMT will monitor the project from construction to operation phase.</p>
What is the opinion of Brgy. Council? – Christina Alvarez What is the opinion of Brgy. Council? – Christina Alvarez	<p>Only Councilor Pineda expressed concern on the project. She emphasized the need to protect the interest of the community and not of the project.</p> <p>Other Councilors did not give their response.</p>
What will be the procedure in the hiring process through PESO again? Give us paper that the Barangay will be prioritized in employment– Councilor Pineda	<p>The proponent assured the attendees they will take care of the communities. The company is Filipino-owned, the assurance that they can give is they are also Filipino. Local qualified residents will be prioritized in the hiring process for the project. Hiring is a direct process. MFI is Filipino-owned, thus, local employment will be prioritized.</p> <p>MFI could not assure 100% local employment as some top managers will come from head office, however, for other positions, local qualified residents will be prioritized. MFI's office is open to accept applications from the barangay.</p>
What is the assurance that the project will not have impact on health? As member of the MMT, I have a bad experience with Steel Asia. Is it possible to	<p>MFI's facility in Cebu is an integrated facility different from what will be constructed in Calaca which is just a simple grinding and packing facility.</p>

have site visit of MFI's facility in Cebu? – Corazon Catapang	Ms. Patindol of PCEAS provided additional information on how to have assurance. She mentioned that this project requires the organization of the multipartite monitoring team (MMT) to be composed of the CENRO, MENRO, Brgy Officials/ representatives that will monitor proponent's compliance to the mitigating measures. The MMT is the one tasked to ensure that the proponent will comply to their promises.
Will the project going to push through even without the approval of the brgy? – Dan Malapitan	As per DENR-EMB Carl Santiago, the public hearing is part of the process to secure an ECC. ECC is not a permit but a planning tool. The project may still proceed if found based on the EIA that it has no significant impact to the environment.
Does the proponent have memorandum of understanding with Brgy. Lumbang Calzada?	There is no memorandum of understanding executed with Brgy. Lumbang Calzada.
If it is possible to get the opinion of barangay officials they favor or not with the project	No answer from the Barangay Officials.
Is the project still going to proceed even without social acceptability? – Corazon Catapang	DENR- EMB's role is environment protection, to ensure that the project will not have significant negative impacts to the environment and people. The public hearing is venue for the Review Committee to gather feedback from the community as basis for review and evaluation. The LGU can conduct its own forum to determine the social acceptability. Series of consultations may still be conducted by the proponent.
What is the mark given by EMB on the consultations? – Jenmark Martinez	As per Carl Santiago, DENR- EMB cannot give a mark or they cannot rate it. All responses of the public consultations are documented and will be evaluated. The public consultations conducted will just be one of the basis for evaluation. Technical study results will also be included in the evaluation.
Is the public hearing a means for consultation or just for formality? – William Maligaya	As per Atty. Rodrigo, the public hearing is a consultation process. The hearing is no being done for formality purpose.
What are safety precautions during hauling? I had bad experience as driver for Holcim – Lando Manalo	The facilities to be constructed are fully enclosed and dust collectors will be installed including electrostatics precipitators. The proponent will ensure regular watering of the access road and surroundings.
What is the assurance that the communities will not be affected and taken cared of? What about the Social Development Plan? - Christina Alvarez	Mabuhay Filcement is Filipino owned and it is the vision of the owners that communities near its project is included in the development. MFI has good credibility and no bad track records of complaints from stakeholders. Hazarads are being addressed. In Cebu, there was a community that requested for a ROW for residents, but MFI owner provided a ROW wide enough for trucks to pass. VP Encarnacion mentioned that she has been exposed to various cement plant operations for 30 years now but still healthy and fit

	<p>because of the safety measures being undertaken by the company and concern for the employees.</p> <p>Atty. Rebadomia assured the attendees that MFI is a good company and it wants its communities to be developed and be part of the company's development. They have been working for the company and have witnessed its commitment to ensure safety and environment protection.</p> <p>S. Patindol od PCEAS presented the results of the survey. She said that respondents have expressed some environment concerns on the project, and those concerns were the basis of the conduct of EIA study. She highlighted the need to organize MMT wherein the barangay and the MENRO will become members. Mr. Santiago also highlighted that ECC is not about securing barangay permits, but it is a planning tool. Other permits from LGU and other government agencies will still have to be secured by the proponent.</p>
How is the production process of MFI for its proposed project? – Corazon Catapang	<p>Raw materials such as clinkers, limestones, gypsum will be transported to the facility through the port of Calaca Industrial Zone and will be temporarily stored within the Project site through silos, steel bins and covered storages. The cement production process will only involve clinker and additives grinding. After grinding it will proceed to packing area for packing and then for dispatch.</p> <p>There will be no extraction of the groundwater as the project will utilize water supplied by the Calaca Industrial Seaport Zone.</p>
What percentage of the gypsum will be used in the process? What will be the impact to KNAUF facilities? – Kathleen Saguid	<p>Engr Mark Genayas said that gypsum will only about 6% of the total raw materials. Production will not affect KNAUF as clinkers will be stored in silos, enclosed facilities.</p>
May we request for a black and white copy of the health impact, risks and project description? - Paz	<p>Ms. Patindol said that summary of the Environment Impact Statement is in the DENR-EMB website. A copy has been given to the Calaca LGU and a copy of the executive summary will be given to the barangay. The proposed project site is within an industrial site but the study considered the health and community status.</p>
Can we hear the voice of the barangay officials? – William Maligaya	<p>As per DENR-EMB, the hearing is a venue to hear the voice of the community. Others can send their position paper to the DENR-EMB. If they insist, they can proceed with their own meeting after the closure of the public hearing.</p>

Integrated summary of the main impacts
and residual effects after applying mitigation

I. Pre-Construction Phase

Sourcing of equipment and contractors;
Securing of approvals, like ECC issuance, etc.

II. Construction Phase

LAND

IMPACT	MITIGATION
Land pollution – generation of debris, solid wastes and scrap in various construction works;	<ul style="list-style-type: none"> • Good housekeeping; • Reduce, re-use, recycle of wastes

LAND

IMPACT	MITIGATION
Land degradation, sedimentation & deposition at sites and nearby/adjacent areas – due to soil erosion attributed to cut and fill project site preparations;	<ul style="list-style-type: none"> • Further minimize cut and fill because land is already developed

LAND

IMPACT	MITIGATION
Land contamination – due to generation of hazardous wastes;	<ul style="list-style-type: none"> • Good housekeeping

WATER

IMPACT	MITIGATION
Pollution of ground water - Release/discharges of waste water due to construction activities;	<ul style="list-style-type: none"> • Use of Portable toilets

WATER

IMPACT	MITIGATION
Water depletion due to groundwater extraction - use of limited water resource;	<ul style="list-style-type: none"> • Provision of water conservation measures

AIR

IMPACT	MITIGATION
Air Pollution Emissions to air due to land clearing and construction activities	<ul style="list-style-type: none"> • Regular spraying of water where earthwork activities are concentrated; • Compacting of exposed soil and immediate hauling of spoils;

AIR

IMPACT	MITIGATION
Air Pollution (cont'n) Emissions to air due to land clearing and construction activities	<ul style="list-style-type: none"> • Cover on trucks loaded with construction materials; • Impose speed restrictions for trucks;

AIR

IMPACT	MITIGATION
Air Pollution (cont'n) Emissions to air due to land clearing and construction activities	<ul style="list-style-type: none"> • Road water sprinkling; • Tree nursery and tree planting

PEOPLE

IMPACT	MITIGATION
<p>Nuisance to nearby communities</p> <ul style="list-style-type: none"> - Increase of noise level 	<ul style="list-style-type: none"> • Limit activities during day time

PEOPLE

IMPACT	MITIGATION
<p>Increase in traffic congestion</p> <ul style="list-style-type: none"> -Physical attributes and nuisance; 	<ul style="list-style-type: none"> • Implement Traffic management plan

PEOPLE

IMPACT	MITIGATION
Increase in livelihood opportunities and community income	<ul style="list-style-type: none"> To enhance, give priority to qualified locals

PEOPLE

IMPACT	MITIGATION
Employment and livelihood generation	<ul style="list-style-type: none"> To enhance, give priority to qualified locals Implement Social Development Program (SDP) and information and Education Campaign (IEC)

III. Operation Phase

LAND

IMPACT	MITIGATION
Land pollution - Solid waste accumulation; generation of sludge from septage;	<ul style="list-style-type: none">• Good housekeeping• Implement Proper Waste Management Plan• Implement reduce, re-use and recycle program.

LAND

IMPACT	MITIGATION
<p>Cont'n....</p> <p>Land pollution - Solid waste accumulation; generation of sludge from septage;</p>	<ul style="list-style-type: none"> • Provision of compost pit for biodegradable waste • Septic tank management by desludging

LAND

IMPACT	MITIGATION
<p>Contamination and improper management of hazardous waste materials</p> <p>- Hazardous wastes discharges to land</p>	<ul style="list-style-type: none"> • Proper labeling, segregation and storage Transport, treatment and disposal of DENR accredited third party contractors

LAND

IMPACT	MITIGATION
<p><i>Cont'n.</i></p> <p>Contamination and improper management of hazardous waste materials</p> <ul style="list-style-type: none"> - Hazardous wastes discharges to land 	<ul style="list-style-type: none"> • Provision of hazardous waste storage area with secondary containment

WATER

IMPACT	MITIGATION
<p>Water pollution domestic wastes</p> <ul style="list-style-type: none"> - Release / discharge to water 	<ul style="list-style-type: none"> • Use of multi-chamber septic tanks

WATER

IMPACT	MITIGATION
Water depletion due to groundwater extraction - Use of limited water resource	<ul style="list-style-type: none"> • Water conservation measures

AIR

IMPACT	MITIGATION
Air pollution from fugitive dusts, equipment and vehicles	<ul style="list-style-type: none"> • Use/installation of dust collector system • Closed system for transfer and storage

AIR

IMPACT	MITIGATION
<p><i>Cont'n</i></p> <p>Air pollution from fugitive dusts, equipment and vehicles</p>	<ul style="list-style-type: none"> • Manual sweeping • Proper maintenance of dust collector including replacement of filter bags • Road water sprinkling

AIR

IMPACT	MITIGATION
<p>Greenhouse gas emission</p>	<ul style="list-style-type: none"> • Implementation of a greenhouse gas emission reduction and management program

PEOPLE

IMPACT	MITIGATION
<p>Increase of ambient noise levels</p> <ul style="list-style-type: none"> - Noise from equipment and vehicles; 	<ul style="list-style-type: none"> • Establish and maintain Buffer zone and tree growing • Ensure proper maintenance of equipment and vehicles

PEOPLE

IMPACT	MITIGATION
<p>Increase of ambient noise levels</p> <ul style="list-style-type: none"> - Noise from equipment and vehicles; 	<ul style="list-style-type: none"> • Provision of earplugs to workers • Maintain OSH prescribed noise criteria

PEOPLE

IMPACT	MITIGATION
<p>Increase in health incidence attributable to operation of plant</p> <ul style="list-style-type: none"> - Health aspects; 	<ul style="list-style-type: none"> • Ensure all mitigating measures to control air pollution are in place and operational at all times

PEOPLE

IMPACT	MITIGATION
<p>Increase in livelihood opportunities and community income</p> <ul style="list-style-type: none"> - Employment & income generation for the people; 	<ul style="list-style-type: none"> • To enhance, give priority to qualified locals

PEOPLE

IMPACT	MITIGATION
Increase in local government's income - Income generation for the barangay and Calaca Local Government;	<ul style="list-style-type: none"> • Pay appropriate fees and taxes on time

PEOPLE

IMPACT	MITIGATION
Increase in traffic congestion –Physical Attributes and Nuisance	<ul style="list-style-type: none"> • Implement Traffic management plan

IV. Decommissioning Phase

LAND

IMPACT	MITIGATION
<p>Solid waste pollution / contamination brought about by scraps & debris from demolition</p> <ul style="list-style-type: none">- Discharge to land; <p>Change in land form and use</p> <ul style="list-style-type: none">- Discharge to land	<ul style="list-style-type: none">• Good housekeeping• Conduct Environmental site assessment (ESA) prior to abandonment

AIR

IMPACT	MITIGATION
Air pollution due to dust from demolished structure - Emissions to air;	<ul style="list-style-type: none">• Sprinkling of water in affected areas• Limit activity during daytime

People

Loss of jobs and community programs
- Loss of livelihood;

PEOPLE

IMPACT	MITIGATION
Noise pollution due to demolition activities	<ul style="list-style-type: none"> • Limit activity during daytime

PEOPLE

IMPACT	MITIGATION
Loss of Jobs and community programs	<ul style="list-style-type: none"> • Retrenchment package

11 March 2019

Fely De Castro
Barangay Health Worker
Calaca, Batangas

Dear Ms. De Castro,

We are pleased to invite you to attend the **Public Hearing** of the proposed **Mabuhay Filcement Grinding and Packing Facility Project of Mabuhay Filcement, Inc (MFI)**. The said hearing is scheduled on **22 March 2019 (Friday)** at **10:00 AM** (*registration starts at 9:00 AM*) and will be held in the **Brgy. Lumbang Calzada, Basketball Court, Calaca, Batangas**.

The Public Hearing will be conducted as part of the requirements of the proponent's application for an Environmental Compliance Certificate (ECC). Interested parties will be given the opportunity to express freely their concerns/support/opposition/questions about the project.

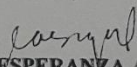

Kindly register in person or submit your opinion(s) in a concise position paper to this Office or email it at eiamd.emb.co@gmail.com on or before 19 March 2019. Those who will not be able to register or submit written positions may be given the opportunity to share their issues on the day of the hearing itself.

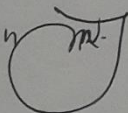

The project's Environmental Impact Statement (EIS) is downloadable at our website: www.eia.emb.gov.ph (*kindly access the Notice of Public Hearing/Consultation link found in our web page*). The copies of the ESP and EIS are available in this Office and in the following offices:

- **EMB Regional Office 4A**
Office Address: 6th Flr. DENR by the Bay Bldg., 1515 Roxas Blvd., Ermita, Manila
Telephone No.: (02) 536-97-84
- **Municipal Planning and Development Office (MPDO)**
Office Address: Municipal Hall of Calaca, Batangas

For more details, please contact the Environmental Impact Assessment and Management Division of this Office at Tel. Nos. (02) 920-2240 to 41 and look for the project case handler **Mr. Carl Louie Santiago**.

Sincerely yours,

ENGR. ESPERANZA A. SAJUL

Calaca, Batangas

Dear Municipal Administrator Pastoral,

We are pleased to invite you and your constituents to attend the **Public Hearing** of the proposed **Mabuhay Filcement Grinding and Packing Facility Project of Mabuhay Filcement, Inc (MFI)**. The said hearing is scheduled on **22 March 2019 (Friday) at 10:00 AM** (*registration starts at 9:00 AM*) and will be held in the **Brgy. Lumbang Calzada, Basketball Court, Calaca, Batangas**.

The Public Hearing will be conducted as part of the requirements of the proponent's application for an Environmental Compliance Certificate (ECC). Interested parties will be given the opportunity to express freely their concerns/support/opposition/questions about the project.

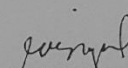

Kindly register in person or submit your opinion(s) in a concise position paper to this Office or email it at eiamd.emb.co@gmail.com on or before 19 March 2019. Those who will not be able to register or submit written positions may be given the opportunity to share their issues on the day of the hearing itself.

The project's Environmental Impact Statement (EIS) is downloadable at our website: www.eia.emb.gov.ph (*kindly access the Notice of Public Hearing/Consultation link found in our web page*). The copies of the ESP and EIS are available in this Office and in the following offices:

- **EMB Regional Office 4A**
Office Address: 6th Flr. DENR by the Bay Bldg., 1515 Roxas Blvd., Ermita, Manila
Telephone No.: (02) 536-97-84
- **Municipal Planning and Development Office (MPDO)**
Office Address: Municipal Hall of Calaca, Batangas

For more details, please contact the Environmental Impact Assessment and Management Division of this Office at Tel. Nos. (02) 920-2240 to 41 and look for the project case handler **Mr. Carl Louie Santiago**.

Sincerely yours,

ENGR. ESPERANZA A. SAJUL
Chief, EIAMD
