Province of Cebu

Dear Ma'am:

We are pleased to invite you to attend the **Public Hearing** of the proposed **Rolling Mill Project** of the **Century Peak Steel Manufacturing Corporation**. The said hearing is scheduled on **03 December 2019 (Tuesday)** at **9:00 AM** (*registration starts at 7:30 AM*) and will be held in the **Municipal Hall, Municipality of Pinamungajan, Province of Cebu**.

The Public Hearing will be conducted as part of the requirements of the proponent's application for an Environmental Compliance Certificate (ECC). Interested parties will be given the opportunity to express freely their concerns/support/opposition/questions about the project.

Kindly register in person or submit your opinion(s) in a concise position paper to this Office or email it at eiamd.emb.co@gmail.com on or before 29 November 2019. Those who will not be able to register or submit written positions may be given the opportunity to share their issues on the day of the hearing itself.

Herewith is the project's Executive Summary for the Public (ESP) for your reference. The project's Environmental Impact Statement (EIS) is downloadable at our website: www.eia.emb.gov.ph (*kindly access the Notice of Public Hearing/Consultation link found in our web page*). The copies of the ESP and EIS are available in this Office and in the following offices:

17) EMB Region VII

Office Address: Greenplains Subdivision, Banilad, Mandaue City, Cebu
Telephone No.: (032) 345-3905/ 346-1647

18) Municipal Planning and Development Office (MPDO)

Office Address: Municipal Hall of Pinamungajan, Province of Cebu
Cellphone No.: (032) 468-9319; Email: pinamungajan6039@gmail.com

For more details, please contact the Environmental Impact Assessment and Management Division of this Office at Tel. Nos. (02) 920-2240 to 41 and look for the project case handlers **Engr. Carlo Vic Arida, EnP** and **Engr. Mary Therese Gonzales, EnP**.

NOTICE OF PUBLIC HEARING

On the **ENVIRONMENTAL IMPACT STATEMENT (EIS)** of the proposed **ROLLING MILL PROJECT** of the **CENTURY PEAK STEEL MANUFACTURING CORPORATION (CPSMC)** located in **BARANGAYS SACSAC AND TUTAY, MUNICIPALITY OF PINAMUNGAJAN, PROVINCE OF CEBU**.

Notice is hereby given to all parties who wish to give their opinion regarding the implementation of the proposed **ROLLING MILL PROJECT** to attend a Public Hearing on **03 DECEMBER 2019 (TUESDAY) at 9:00 AM** (*registration starts at 7:30 AM*) to be held in the **MUNICIPAL HALL, MUNICIPALITY OF PINAMUNGAJAN, PROVINCE OF CEBU**.

The Public Hearing is being conducted in connection with CPSMC's application for its Environmental Compliance Certificate (ECC). The EIS of the aforementioned project is being reviewed by the Environmental Management Bureau (EMB) of the Department of Environment and Natural Resources (DENR).

The following is the project information:

Proponent	Century Peak Steel Manufacturing Corporation (CPSMC)
Project Name	Rolling Mill Project
Project Location	Barangays Sacsac and Tutay, Municipality of Pinamungajan, Province of Cebu
Project Area	4.1256 square meters
Project Capacity	2,000,000 metric tons deformed/round bars

All interested parties who wish to attend or participate in this Public Hearing should preferably confirm their attendance/ participation and may give their opinion(s) in a concise position paper to the **ENVIRONMENTAL IMPACT ASSESSMENT AND MANAGEMENT DIVISION (EIAMD)** of this Office through mail or through email at eiamd.emb.co@gmail.com, three (3) days before the Public Hearing schedule. Those who will not be able to register or submit written positions may be given the opportunity to share their issues on the day of the hearing itself.

The project's EIS and Executive Summary for the Public are downloadable at our website: www.eia.emb.gov.ph (*kindly access the Notice of Public Hearing/ Consultation link found in our website*) while copies will be available in this Office and in the following offices:

- 1) **EMB Region VII**
Office Address: Greenplains Subdivision, Banilad, Mandaue City, Cebu
Telephone No.: (032) 345-3905/ 346-1647
- 2) **Municipal Planning and Development Office (MPDO)**
Office Address: Municipal Hall of Pinamungajan, Province of Cebu
Cellphone No.: (032) 468-9319; Email: pinamungajan6039@gmail.com

For more details, please contact the EIAMD Division at this Office at telephone number (02) 920- 2240 to 41 and look for the project case handlers **Engr. Carlo Vic Arida, EnP** and **Engr. Mary Therese Gonzales, EnP**.

PUBLIC HEARING REPORT
ROLLING MILL PROJECT
of CENTURY PEAK STEEL MANUFACTURING CORPORATION (CPSMC)
DECEMBER 3, 2019, TUESDAY, 9:00 AM TO 1:00 PM
MUNICIPAL GYM, MUNICIPALITY OF PINAMUNGAJAN,
PROVINCE OF CEBU

MINUTES OF THE PUBLIC HEARING

Registration started at 7:30 AM at the Municipal Gymnasium, Municipality of Pinamungajan, Province of Cebu.

Weather- Rainy with Typhoon Tisoy.

Invitation letters were sent to the LGU- Provincial Office, LGU-Municipality of Pinamungajan, LGU-Barangay's Sacsac and Tutay, Municipal Planning and Development Office (MPDO) Pinamungajan, Department of Labor and Employment (DOLE) Region 7, Institution – DepEd, Sacsac and Tutay Elementary School, Religious Sector – Seventh Day Adventist, Pinamungajan Water District, Municipal Agrarian Reform Office (MARO), Municipal Health Office, Department of Labor and Employment (DOLE), Barangay Farmers Association, Exelsior Farm (Piggery), and residents of Barangays Sacsac and Tutay.

Public Hearing was conducted on December 3, 2019, Tuesday, 9:00 AM to 1:00 PM at the Municipal Gymnasium. The activity was participated by identified stakeholders such as from LGU-Municipality of Pinamungajan represented by the Municipal Planning and Development Officer (MPDO), Barangay Council of Sacsac and Tutay, Community and Stakeholders of Barangay Sacsac, Tutay, Poblacion, Rizal, Binabag, Mangoto, and Butong, Department of Labor and Employment (DOLE), Religious Organization, Head Teacher of Tutay Elementary School, Religious Sector – Seventh Day Adventist, Peoples Organization, Century Peak Corporation, Cense Technical Consultancy Services – EIS Preparers, CENRO, PENRO, EMB Central Office Representatives, DENR Hearing Officer, Review Committee Members and Resource Persons. All-in-all there were Eighty-Four (84) attendees during the public hearing excluding the representatives from the Proponent, Preparers and EMB.

The Public Hearing was presided by EMB-Central Office, EIS-Preparers and the Hearing Officer, the Presentation of the Program is attached in Annex G.

The summary of issues and concerns in Table below:

**ISSUES/CONCERNS RAISED DURING PUBLIC HEARING TO BE INCLUDED IN THE SCOPE OF THE
EIS STUDY**

EIA MODULE	Issues/Suggestions Raised by the Stakeholders	Sector or Representative Who Raised the Issue/Suggestion	Proponent's Response
1. Project Description	Unsa ng adres kay kinahanglan apil and Barangay Tutay (The project location should include Barangay Tutay)	Ambrosio Hubahid-Barangay Kagawad of Barangay Tutay	The project location presented in now located in Barangays Sacsac and Tutay. <i>Responded by: Engr. Venice Montemayor – Consultant</i>
	Kung mag-increase ug kapasiti kay tungod sa dako ang demand for example kanang 2M kada tuig	Elder Efren Ninal Seventh Day Adventist-Religious Sector	In case of increase in production capacity, new application subject to the same EIA process shall be

SUMMARY OF ISSUES AND CONCERNS DURING THE PUBLIC HEARING

ROLLING MILL PROJECT

CENTURY PEAK STEEL MANUFACTURING CORPORATION (CPSMC)

	<p>mahimu ug 4M kada tuig, makaya ba ning mga facility ng polusyon ang pag-increase ng kapasity?</p> <p>(If in case there is an increase in the production capacity due to demand from 2M MT/year to 4 MT/year, can the facilities accommodate the increase in the capacity)</p>		<p>undergone by the proponent as mentioned by the representative from EMB- Engr. Therese Gonzales</p> <p><i>Responded by: Engr. Venice Montemayor – Consultant</i></p>
2. Land	No issue was raised.	NA	NA
3. Water	No issue was raised.	NA	NA
4. Air	<p>Unsa ng impact sa init kay masin musamot of init ang among lugar diri.</p> <p>(How about impact on temperature, increase in heat due to hot temperature)</p>	Elder Efren Ninal Seventh Day Adventist-Religious Sector	<p>With regards to the increase in temperature, the project has a recuperating process wherein the heat is captured and maintained in the heating furnace with a small exhaust. This process will maintain its constant temperature to heat the billet. The exhaust will not pose any additional heat as this will mix with natural air.</p> <p><i>Responded by: Engr. Ronald Pahunang – Air Dispersion Specialist</i></p>
5. People	<p>In terms of employment- Pila ang estimate na job requirements sa project (What is the estimated number of employees and skills required for the proposed project?)</p> <p>Kang ang project na smelting plant kay makadaot sa health, cancer sa health kay tungod sa toxic ang ipagawas na polustion (The project can cause cancer health issue due to emission of toxic pollution)</p>	<p>Jerome D. Alan-DOLE Region 7</p> <p>Francisco Bellones Former Vice-Mayor of Pinamungajan</p>	<p>The number of workers is estimated at 600 during operation phase, and semi-skilled qualification. However, training shall be done also by the proponent.</p> <p><i>Responded by: Engr. Venice Montemayor – Consultant</i></p> <p>The project is not a smelting plant, this is only a rolling mill project.</p>
6. Others	<p>Ang among concern kay ang mga bayranan sa yuta kay wala pa ang kumpanya nakabayad.</p> <p>(The unpaid lot owners - payment of the land acquired)</p>	Cloero S. Hubahid Barangay Kagawad of Barangay Tutay	<p>The reason for delay is due to the lacking or incomplete documents submitted by the lot owners. We have checklist of requirements before they can process the payment. Assuming complete documents, please give us time to at least two (2) weeks to</p>

SUMMARY OF ISSUES AND CONCERNS DURING THE PUBLIC HEARING

ROLLING MILL PROJECT

CENTURY PEAK STEEL MANUFACTURING CORPORATION (CPSMC)

	<p>This is addressed to Century Peak regarding the pier facilities which we noticed exceeded the area reflected in the MOA for SAPA. Correction shall be done in the renewal of the SAPA, also, where is the Bio-physical Assessment that you need to submit</p>	<p>Jeffrey Daugdaug DENR CENRO Argao</p>	<p>process. <i>Responded by: Engr. Gerald Cabizares – Century Peak Resident Manager</i></p> <p>Will update sir and shall reflect in the renewal of the SAPA. Will comply with other requirements. <i>Responded by: Engr. Gerald Cabizares – Century Peak Resident Manager</i></p>

**PUBLIC HEARING TRANSCRIPTION
PROPOSED ROLLING MILL PROJECT
BARANGAYS SACSAC AND TUTAY, MUNICIPALITY OF PINAMUNGAJAN,
PROVINCE OF CEBU**

Prayer Song : Elder Efren Ninal from Seveth Day Adventist

National Anthem :

Engr. Venice Montemayor
CEnSE Consultants

: Maau buntag sa tanan sa atong mga bisita, gi appreciate gud namu ang inyong presence bisag nay tay weather condition karun, so naa ta diri sa public hearing para sa proposed Rolling Mill project, nahinumdum mu tanan n ani anhi me para sa general assembly nung Junu 15, 2019, para sa Barangay Sacsac, July 12, 2019 para sa public Scoping ug August 18, 2019 para sa Barangay Tutay, so naa napu ta karun para sa public hearing para I present ka ninyo ang resulta. Pero ato sang tawgan si Engr. Therese Gonzalez para magpresent unsa gyud gi again ning aning proseso, but before that, naghatag kami ng invitation sa Office ng Governor-Hon Gwendolyn Garcia, Office of Vice-Governor, Office of the Mayor, Vice-Mayor and MPDC, Barangay Sacsac ug Tutay, Institution gayan ng School ug Church, Industry katong Excelsio Piggery, DENR Regional Executive Director, EMB Regional Director, PENRO, CENRO, DOLE, ug mga tao ug other stakeholders diri sa Barangay Sacsac ug Tutay, pra madessiminate ug ayo ang atong public hearing, so naa pud diri ang atong mga bisita gikan sa EMB Central Office si Engr. Carlo Vic Arida, Engr. Therese Gonzales, ang mga case handlers na naghandle sa project, naa pud tay expert diri gikan sa Manila na si RD Cesar Siador sa Air, Engr. Nicanor Mendoza sa Water, si Sir Oscar Cruz para sa Geology and Land, si Doc. Lourdez Moreno para sa Terrestrial, sila ang nagreview sa atong project, expert gud na sila sa laing laing aspect. Para sa representative ni Mayor na si Mr. Oscar Canino sir please gamay lang na istorya sir pls.

Mr. Oscar Canino, MPDC

: Maayo buntag sa tanan, Im sorry kay si Mayor kay nay biglang trabaho busy kayo, so before anything else mayo buntay sa atong tanan, ang mga vistsors from Manila, DENR Office, ang mga experts na nia pud diri so im very happy na nay nay public hearing for the proposed rolling mill project so ang public hearing as part of the process sa iyang pag grant sa ECC, its just so happen na nay bagyo so medyo gamay ang atong actual audience para maipresent karun sa Barangay Sacsac, so kaning public hearing, ayaw mu kauwaw sa Century Peak Steel Manufacturing Corporation, so salamat kayo sa management sa Century na si Sir Gerald ug ang iba pang mga opisyal nan aa diri so mao to as far as the LGU is concern we interpose no objection to this project, because this will bring economic rise up sa atong lungsod, in fact we cannot hide na daghan na kayo ug trabaho, ug mudaghan pa kung pa open na ang project ug ang kadayuhan sa kaanun, kung nay issues sa public dili pun nato isacrifice our safety of our people if there is issue on the environment, so ang atong opisyaales sa Pinamungajan na madayon sila basta ayuhun kung nay issue sa atong lawas ug environment, dili pud dato sya pasagdan for short

this is a positive development to our municipality, again thank you very much (00:25).

Engr. Venice Montemayor
CEnSE Consultants

: Salamat kayo sir, akong nalimtan ang taga Century Peak Corporation na si Engr. Gerald Cabizares, sir please stand para makitan na nila ug ang iya pang mga kauban sa opisina ug ang ilang Customer Relations Officer. So, to start, so atong tawgon ang taga EMB Central Office para is discuss niya unsa gyud ang giagian ug proceso, Engr. Therese Gonzales (9:05).

Engr. Therese Gonzales
EMB – EIA

: Maau buntag po, ako po si Therese Gonzales from EMB Central Office, so itong pong public hearing isa sa mga prosesong pinagdadaan ng Century Peak Steel Manufacturing Corporation bago po sila makapag-umpisa, ito po ay nasa ilalim ng Environmental Impact Assessment, so lahat po ng proyekto bago sila mag simula ay dumadaan sa proseso so ang una pong proseso na ginagawa ay ang baseline information ng project proponent hinahire po nila sila Ms. Venice para kumuha ng baseline para sa air, water, land and people module, so sa proseso o ang EIA ay base po sa PD 1586 at DAO 2003-30, so anu po ang ginagawa sa isang part ng impact assessment, so unang-una po ay nangongolekta ng datus ang consultant ng proponent para sa data gathering so kinokolekto po nila base sa land, water, air and people, at ginagamit po nila ang mga datus nito para masuri po kung anu ang negative impacts ng project at paano po nila ito matutugunan, so yung mga negative impacts or masasamang epekto ay bibigyan po nila ng kaukulang mitigating measures at pinaigting po nila ang mabubuting epekto ng proyekto. So ito pong public hearing ay isa pong paraan masabi at maipalam sa inyo kung anu pong proyekto ang gagawin sa inyong lungsod at lugar at makuha po ang impormasyon, at concerns at maisali po ito sa Environmental Impact Assessment na gagawin nila sa proponent. So ang EIA ay isang Planning Tool po so hindi po ibig sabihin na lahat ng proyekto na dumaan sa EIA ay tuloy tuloy na po ang pag implementa, magiging gabay lang po ito para sa mga Local Government Units at isa ibang Government agencies para po madesisyonan nila kung papayagan po nila ang isang proyekto. So ang sinusumite po ng project proponent samin ay ang tinatawag na Environmental Impact Study, ito po ay isang napaka technical na dokumento kaya po kami nag sama ng Review Committee members na may kanya-kanyang expert sa land, sa air, sa water at sa people para po matulungan si EMB na mareview ito at madesisyonan para po mabibigyan ng Environmental Compliance Certificate (ECC) si project proponent. So ito po ang proseso na dinanaan ni project proponent so simula po sa project screening dahil ang Century Peak Steel ay tinuturing ng EMB na Environmental Critical Project para dumaan sa buong proseso so ang una pong ginawa ay nagkaroon ng Public Scoping, so ung part na iton nagpunta po si project proponent at ang kanilang Consultant para maexplain po sa inyo na magkakron nga ng ganitong proyekto at makuha nag saloobin ninyo at makuha nag issues and concerns at yung pangalang item po ay ang tinatawag nating technical scoping, so tio po yung technical ng pinag-uusapan kung anu po yung nilalaman ng report, dito po sinali na naming ang

Review Committee members para po mapag-usapan ang laman po ng Environmental Impact Study, so after po ng scoping, kumakalap na po ang project proponent ng baseline information, so nagsisimula napo silang mag sampling, magdata gathering at makipag-usap po sa mga tao tungkol sa proyekto at pagkaprepay napo nila ang requirement ng impact study, isusumite napo nila sa EMB, so dito napo nagsisimula ang review information. So ito pong public hearing ay isa sa mga prosesong pinagdadaanan ni project proponent so kaya po kami nandito ngayon kasama ang aming mga Review Committee members para po ipresent sa inyo ng project proponent ang nagging resulta ng kanilang pag-aaral at mapakinggan po ang issues ang concerns na gusto ninyong ipaabot sa amin at isali po sa report. So after po nun ng review, so dito sa project proponent kailangan po yung negative impacts with corresponding mitigating measures so ditto magdecide si EMB at Review Committee members kung bibigyan po ng Environmental Compliance Certificate si project proponent. So hindi po ibig sabihin nyan na tapos napo ang kasunduan ni project proponent at EMB, patuloy po silang magmomonitor, masusubmit po sila ng Compliance Monitoring Report at meron po itong Multi-Partite Monitoring Team so kung alam po ng iba na ang members nito ay ang Barangay Captain, Local Government Units, si Rural Health Units, so dito makikita ang inyong partisipasyon sa pagmomonitor sa proyekto. So kung meron po silang balak na baguhin sa proyekto or lakihan ung production capacity nila, muli po nilang pagdadaan ng buong process. So itong public hearing ay napaka importante po, dito ginagawa ang report at pag-aaral na ginawa ni project proponent at mapakinggan po ang issues and concerns nyo kung nasagot po ba ni project proponent ang negative impact at titingnan naming sa report na gagawin nila, so dapat magparticipate kayu sa open forum para po lahat ng issues and concerns ay masagot, so iniinvite ko po kayo mamaya na sana po ay maging active po kayo. So yung public hearing po, after po ng public hearing nato makikita po sa aming website, so kung hindi man po kayo nakapagsalita o meron pa kayung nakalimutan, patuloy po ang pagtanggap naming ng komento sa pamamagitan po ng pagtingin saming website at pagcomment po, so lahat po ng comment or issues na gusto nyong ipaabot ay maari nyo paring ipaabot basta magsulat lang po kayo ng komento sa aming website. So yung po ang masusing proseso, napakahaba ng proseso na pinagdadaanan ng isang proyekto bago po ito makapagsimula, so yun lang po. Maraming Salamat po.

Engr. Venice Montemayor
CEnSE Consultants

: Salamat Mam Therese. So before po magpresent ang proponent sa project description, so irecognize po nato na kaning public hearing ay fully documented ug naa tay Hearing Officer dire na si Atty. John Edward Ang, siya ang ating Presiding Hearing Officer. Before magpresent ang proponent, ato sang icomply ang request sa public scoping, akong ipresent ang video animation para ma-appreciate lang ng tanan kung unsa gyud ang project, kay sayun ra ma appreciate kung nay drawing drawing bitaw, anha na si Engr. Gerald para mag present sa full project description.

Video-Animation presentation

Mau ni siya ang billet, ang raw materials na gamitun para sa project kana siya imported gikan sa other countries, Asia, unya muagi na siya sa heating furnace, kana initun ra na siya, padulong didto sa rolling mill, arung ma change siya ug diameter arung mahimu bitaw ug deformed bars para sa construction materials. Naa si Engr. Gerald para I present ang whole project.

Engr. Gerald Cabizares
Resident Engineer, CPC

: Ah sige usbon nako maayong buntag labi na sa mga residente sa barangay Tutay, sa atong mga councilors, akong nasabtan na si kapitan medyo busy nasa syudad karun. Again, daghan salamat at least daghan ang taga Barangay Tutay ug labi natong taga Barangay Sacsac, naa pud diri, so maayung buntag, atong CENRO ug PENRO, so naa moy pangutana, basin pud namu, ug among invite ang among Chinese Personnel para makatubang siguro kung naam oy concerns sa among steel plant. Sige ako na magsugod:

Asa ang lokasyon sa steel plant: klaruhun nato na, ang lokasyon naa sa Barangay Sacsac portion ug labaw na gyud sulod ang Barangay Tutay, so ato lang gyud klaruhun so sulud lang gihapun cya sa Pinamungajan okay:

Ang Klase sa Project: Iron and Steel Mill, so kadtong gipakita ni Engr. Ganiha, so mau gyud ang tipikal na buhaton;

Unsa ka kadak-a ang Yuta: sulod sa 4.1256 hectares

Unsa ka Dako: So unsay kapasidad niya, so 2M kada tuig pero ato sag anam anamun ang proyekto, sugdan sa nato sa ginagmay, dili sad namu basta basta mahuman 2M Metric tons kada tuig na production kada tuig, so ato sag sugdan sa tig 500,000 MT hantod makuha gyud namu ang 2M, so nay 165,000 MT kada bulan.

Kinsa Tag-iya: Century Peak Steel Manufacturing Corporation
Address Opisina: 14th Floor Banco de Oro (Equitable Tower),
Paseo De Roxas, Makati City

Teknolohiya: Electric Heating Furnace so kinahanglan pud tag power from CEBECO para at least makakuha ta ug kuryente para makapa-andar sa atong planta

Tag-iya: Mao lang gihapon, ang tag-iya sa cement plant, si Wilfredo Keng, ang iyahang Executive Vice-President ang iyang anak si Patricia Keng ug ang Corporate Secretary si Katrina Keng

Ang project kanang rolling, shearing, barracks, quarters, ang amu lagi administrative sa cement ug rolling murag usa sag ani. Ang proyekto ay pribadong yuta, amu ng napalit ana ating ng gihisgutan ganiha na 4.1 hectares. So maro ra, Salamat kayo.

Engr. Venice Montemayor
CEnSE Consultants

: Salamat Sir, so ako lang discuss gaamy ang proseso pud namo sa pagprepare ning public hearing from the time na nagpost sa sa tarpaulin bitaw sa Barangay Scsac, sa Tutay, sa School, ana sa public market and other areas sukad ng November 15, 2019, ug nag submit ug invitations from November 18-19, 2019, ug

Publication sa Sunstar kadtong November 19, 2019 ug November 26, 2019, so naa me full documentation ana,

Sa alternatibo bitaw na area na tayuan ng proposed rolling mill, kay layo biytaw na siya sa peligro, kanang hazard prone area, kanang lindol, bulkan, daluyong, layu kayo siya sa community ug residente. Akon apud tawgun ang akong kauban diri na si Engr. Aldreck Madelo para magdiscuss sa resulta sa study na among gistudihan.

Engr. Aldreck Madelo
CEnSE Consultants

: Maayung hapon sa tanan, magpasalamat sa atong mga kauban diri labaw ng taga Barangay Sacsac ug Tutay kay for the last six months, piri lang ari diri (Audible). Dako man ang production dako pud kinahanglan ng tubig, recirculate arung ang tubig dili masayang ang tubig na gamitun para pagpabugnaw, so ang source sa tubig kay centralize man, murang swimming pool, pero ang pina source nay may tay Water District diri ditto ta mukuha but ang loses sa tubig or ang tubig lang na mawala kay tungod lang sa evaporation (Audible).

Sa Yuta, atong bantayan ang construction ba, before ka magtukod, imu man ng ilevel, patagun, pwde na nasa LGU pero ang kumpanya man ang magfacilitate kinahanglan imu pod nimu ireport sa concerned agency which is DENR-EMB.

Naa bay critical area diri, diba wala may, murag wala base sa among gistudihan layo cya sa mga identified critical areas. So mau ning mga types sa critical area.

1. Declared as Watershed – layo sa Tanon Strait mga 2 km
2. Areas set aside as aesthetic, potential tourist spots-Busak Fall 3km
3. Areas that constitute the habitat of any endangered or threatened species of indigenous Philippine wildlife (flora and fauna) -wala may na identify
4. Areas of unique historic, archaeological, geological, or scientific interests- Nearest is Kamangon Cave in Brgy., Lamac, Pinamungahan at approx. 10 km distant, identified by the Philippine Speleological Society (PSS) as site for scientific interest
5. Areas that are traditionally occupied by cultural communities or tribes- Not applicable
6. Areas frequently visited and/or hardhit by natural calamities (geologic hazards, floods, typhoons, volcanic activity, etc.)- Naay gamaysa baha
7. Areas with critical slope-Not Applicable
8. Areas classified as prime agricultural lands- Not Applicable
9. Recharge areas of aquifers-Not a recharge area
10. Water bodies characterized by one or any combination- Layo sa Tanon Strait
11. Mangrove areas characterized by one or any combination-Layo about 2km northwest
12. Coral reefs- layo kayo, wala diri sa project

Soil sampling arung nay basis sa foundation bitaw sa building

Ang mga tanum, kay karun wala naman makitan kay naapil na ang impact during sa cement plant. Pero sa una nay Lubi, Kamatigue, Mani-mani, Baho-baho, Kapayas, Tubatuba, Cogon, Balili, Makahiya Biyatilis, Alansuhan

Tubig – kinahanglan gyud ang tubig as cooling water, naa may rain water collection para mugamay ang gamit sa tubig, nay ibutang na wastewater treatment facility sa site, kung nay tay wastewater treatment, pasar jud ta sa standard. Mau ning sampling stations, ang results, ang taas niya kay fecal coliform, kay ang pikas side sa project site kay naa nag piggery, prior sa pagsugod sa project mau ning result. Unsa may implication ani, para mahibawan nato na wala pay nag sugod ang project mao na ni ang kundisyon sa tubig. Kung musaka gani ang resulta, naa piggery ug apil na nag project ning Century Peak (showing photos of actual sampling).

Para sa air, si Engr. Pahunang para sa Air.

Engr. Ronald Pahunang
CEnSE Consultants

: Ah mau buntag sa inyong tanan, ako hisgutan ang gihistugan n ani Engr. Aldreck tubig, yuta, tanum, hangin napud, ang assessment po magkuha ta ug baseline, ang baseline pasabot, before ta magsugd ug construction plan, magkuha ta ug sa hangin, ngano man ta mukuha ug sampling sa hangin para mahibaw-an nato, kung magoperate ang steel plant kung mutaas ug level kung mag operate na kita nyo so kinahanglan before mag start ang steel plant mag measure ta ug air quality para mahibaw-an ta unsa kevel sa hangin before mag start. So karun, nay may mga construction, mau ni mga stasyon sa hangin, mau ni atong proyeto, nay tay pitong stasyon atong gibutang palibot sa site kay ngano, ang hangin, kung panahon sa amihan ditto, sa habagat ditto. So unsa may resulta, sa mga stasyon, nay residential area sa Sacsac, nay tay technical coordinates, ang slides Makita asa Makita ang station. Naay PM10, particulate matter, less than 10, kanang musulod bas a imong lawas, madaot ba ang lung madugay, TSP (Total Suspended Particulates) mura syag alikabok, NO2 kung taas ang concentration mubaho sya, and SO2, colorless sya pero nay amoy sya, unsa ng mga resulta, ang naa sa ubos ang standard sa DENR, sa buot pasabot dili pwde ta musobra sa resulta, sa sa panahon sa construction ang proyekto mubo pa kayo ang, limpyo pa kayo ang hangin, ambot lang kung mag operate na. Nag kuha po ha ug heavy metals, kung mag operate cya pede pa mutaas, sa karung panahon pa limyo pa gyud. Nagsampling pud usap para sigurado, pasado lang gihapon. UNsa man epekto ani sa tao, pwde bitaw ng sundang, dili ta mugamit ug oil, dili ta gamit ug ug other fuel, so atong gamitun kay electric so wala tay epekto (Audible). So ang planta ng rolling wala guyd syang epekto tungod kay wala man tay fuel na gamitun sa rolling mill, kuryente mana gikan. Kinahanglan mag monitor pud pag nag operate na. I hope na discuss nako ang sa air, si Engr. Venice naman ang sa tao.

Engr. Venice Montemayor
CEnSE Consultants

: Salamat kaau sir, kani napud ang resulta para sa tao bitaw, ang pinakaimportante, unsa may demograpia bitaw sa Barangay

Sacsac ug sa Barangay Tutay, gikan mani sa impormasyon sa barangay.

Ang population karun latest sa of Barangays Sacsac ay 2,000 ug total Household na 600 ug Barangay Tutay ay 2,500 ug 700 ang updated na household of as October 2019

Ang Pinamungajan ay nay twenty-six (26) barangays na naay population of 65,955, as og 2015 PSA.

Trabaho ug Status: Base sa information nakuha sa Barangay Office. Barangay Sacsac ay naay 20% employment rate or 400 base sa 2,000 population as of October 2019 na mga nagtrabaho as laborers ug ang Barangay Tutay ay naay 25% employment rate or 625 base sa 2,500 population as of October 2019 na mga laborers ug primary works gaya ng government workers, etc.

Unsay Sources of Livelihood: Base sa resulta sa perception survey, kadaghan tao nagtrabaho as construction related works and government workers ug nay uban na livelihood kanang magtinda ug mag-araro. Unsa bitaw ang epekto ng project para sa tao, nay siya positibong epekto para sa employment, priority ang Barangay Sacsac ug Tutay. Mau ni sya ang resulta sa Public Scoping na among gi-apil sa among gisubmit na report sa EMB. So mau rato ang presentation nako sa people, so akong ihatag sa presiding officer para sa open forum, Atty. Jed Ang.

Atty. John Edward Ang
Hearing Officer

: Magandang umaga po sa inyong lahat, ako po si Atty. Jed Ang, so pasok po tayu agad sa open forum, pero bago tayo mag start ilatag ko lang po sa inyo ang panuntunan po natin para sa pagsasagawa ng open forum, so una po, Nakita po naman natin ang presentation ng proponent at ang kanilang consultant regarding sa apat na module po na tinatalakay nating regarding po sa lupa, sa tubig, sa hangin at sa tao. So sana po nakuha po nating ang mga impormasyong na present po nila para naman po sa pagtatanung natin, so ang questions po nating sana po tungkol sa pagsasagawa nila sa proyekto nila at anu po ang posibleng epekto nun possible sa mga presentations po lamang, so hindi nila masasagot ang mag tanong na hindi po nila kayang sagutin, pangalawa po, pag may mga tanung na kapareho po ng tanung, wag napo itanung un, ang layunin po ng EMB ay para po makuha ang mag issues and concerns po ninyo na maari pong hindi pa po nareresolba at matalakay po ang magiging position ng proponent. Sana po maging mahinaon po tayo sa pagtatanong, pwde po nating gamitin ang salitang English, tagalog or Cebuano, kasi po nirerecord nating sana po maging malinaw po ang pangtatanung natin para makuha po naming at mapick-up po naming sa pag-rereview, so maari napo tayu magsimula, magtaas lang po tayu ng kamay, for the record po magpakilala at anu pong organization kayo, sige po, pwede po tayu magtanung, kung nahihiya kayu pwede po isulat sa papel, yes sir simulant nyo po, pakilal po kau.

- Mr. Cloero Hubahid
Kagawad, Brgy. Tutay : Ang among concern kay ang mga bayranan sa yuta kay wala pa ang kumpanya nakabayad. Mga bayranan sa yuta sa Century Peak (The unpaid lot owners - payment of the land acquired)
- Engr. Gerald Cabizares
Resident Engineer : The reason for delay is due to the lacking or incomplete documents submitted by the lot owners. We have checklist of requirements before they can process the payment. Assuming complete documents, please give us time to at least two (2) weeks to process.
- Mr. Ambrosio Hubahid
Kagawad, Brgy. Tutay : Unsa ng adres kay kinahanglan apil and Barangay Tutay (The project location should include Barangay Tutay)
- Engr. Venice Montemayor
CEnSE Consultants : Ang among application ay sa Barangays Sacsac and Tutay.
- Elder Efren Ninal
Religious Sector,
Seventh Day Adventist : Kung mag-increase ug kapasiti kay tungod sa dako ang demand for example kanang 2M kada tuig mahimu ug 4M kada tuig, makaya ba ning mga facility ng polusyon ang pag-increase ng capacity?
- (If in case there is an increase in the production capacity due to demand from 2M MT/year to 4 MT/year, can the facilities accommodate the increase in the capacity)
- Unsa ng impact sa init kay masin musamot of init ang among lugar diri.
(How about impact on temperature, increase in heat due to hot temperature)
- Engr. Venice Montemayor
CEnSE Consultants : In case of increase in production capacity, new application subject to the same EIA process shall be undergone by the proponent as mentioned by the representative from EMB- Engr. Therese Gonzales.
- Engr. Ronald Pahunang
CEnSE Consultants : With regards to the increase in temperature, bale kani na project naay recuperating process, kuhaon niya ang init para maging efficient ang process wherein the heat is captured and maintained in the heating furnace with a small exhaust. This process will maintain its constant temperature to heat the billet. The exhaust will not pose any additional heat as this will mix with natural air.
- Francisco Bellones
Former Vice-Mayor
Of Pinamungajan : Kang ang project na smelting plant kay makadaot sa health, cancer sa health kay tungod sa toxic ang ipagawas na polusyon (Audible)

(The project can cause cancer health issue due to emission of toxic pollution)

Engr. Gerald Cabizares
Resident Engineer

: Kining Century Peak Corporation nagbuhat ni cya ug aktibidades muagi gyud ni cya ug patag, dili me basta bsta magbuhat ug activities kung walay pagtuo sa atong gobyerno. So ang concern pud ang ang taga EMB ug which kay gi-apply mani sa ilaha, so naa gyud na sila regulatos ug requirements na amo mang nasuwot, kaya ila mi gitagaan ug permiso sa particular area. Tanang agency amu gyud giagian.

Engr. Venice Montemayor
CEnSE Consultants

: The project is not a smelting plant, this is only a rolling mill project

Forester
DENR CENRO Argao

: This is addressed to Century Peak regarding the pier facilities which we noticed exceeded the area reflected in the MOA for SAPA. Correction shall be done in the renewal of the SAPA, also, where is the Bio-physical Assessment that you need to submit

Engr. Gerald Cabizares
Resident Engineer

: Will update sir and shall reflect in the renewal of the SAPA. Will comply with other requirements.

Atty. John Edward Ang
Hearing Officer

: Okay po, may iba pa po ba taung concerns, raise lang po wag taung mahiya

Mr. Jerome D. Alan
DOLE Region 7

: Of-course DOLE is concerned on employment- Pila ang estimate na job generated sa project ug what skills (What is the estimated number of employees and skills required for the proposed project?)

Engr. Venice Montemayor
CEnSE Consultants

: The number of workers is estimated at 600 during operation phase, and semi-skilled qualification. However, training shall be done also by the proponent.

Atty. Ang, Hearing Officer
Hearing Officer

: Okay po amy concerns po ba ng iba. Meron pa po ba, so kung wala na po, recap napo natin ang mga issues ang concerns para po sa mga natalakay na po natin.

1. Lupa -land acquisition para po am comply para magkaroon tau ng maayos na compensation
2. Address po ng project
3. Possibility na mag increase ng capacity
4. Health Issues sap ag operate ng planta
5. Alleged violation bsed sap ag increase ng area ng SAPA
6. Query regarding sa employment opportunities na available po.

So yan po ang summaries of issues ang concerns na natalakay sa araw na ito at maraming salamat po sa mga nagtanong at participants, so hindi naman po natatapos ang proyekto na ganito lang po, para malaman natin, i discuss po ni Engr. Arida po para

malaman kung anu po ang gagawin para sa mga issues ang concerns na maaring di po nabanggit sa araw na ito.

Engr. Carlo Vic Arida
EMB EIA

: Maraming salamat po sa pagpaunlak ng imbetasyon naming sa inyo, gaya po ng nasabi ng kasama ko kanina, ang magiging output po nito ay magiging part po ng decision making naming sa office kung issuhan po natin ng ECC or hindi ang proyekto, so gaya po ng nasabi ni Atty. Kanina ah, ang hearing na ito ay documented, meron ho tayung photos, invitation, napublished po natin sa news paper, napost din sa munisipyo, kung meron pa po pwde pa pong ipadala sa Environmental Management Bureau sa Banilad po, tapos meron din kaming website sa www.emb.gov.ph, pwde din po kaminhg tawag sa 029202241, nakalagay naman po sa invitation letters namin sa nyo so pwde nyo po kaming email. So muli ho, ah nagpapasalamat po kami sa inyo kahit po masama ang panahon naka attend po tayo.

Engr. Venice Montemayor
CEnSE Consultants

: So sa tanang mag bisita gikan sa Barangay Sacsac ug sa Barangay Tutay, ug other stakeholders, daghan kau salamat sa inyong tanan very important gyud ni sa among mga consultants na mahear ang issues ang concerns. Salamat. Ingat sa tanan,

PUBLIC HEARING PROGRAM

**ROLLING MILL PROJECT
 Century Peak Steel Manufacturing Corporation (CPSMC)**

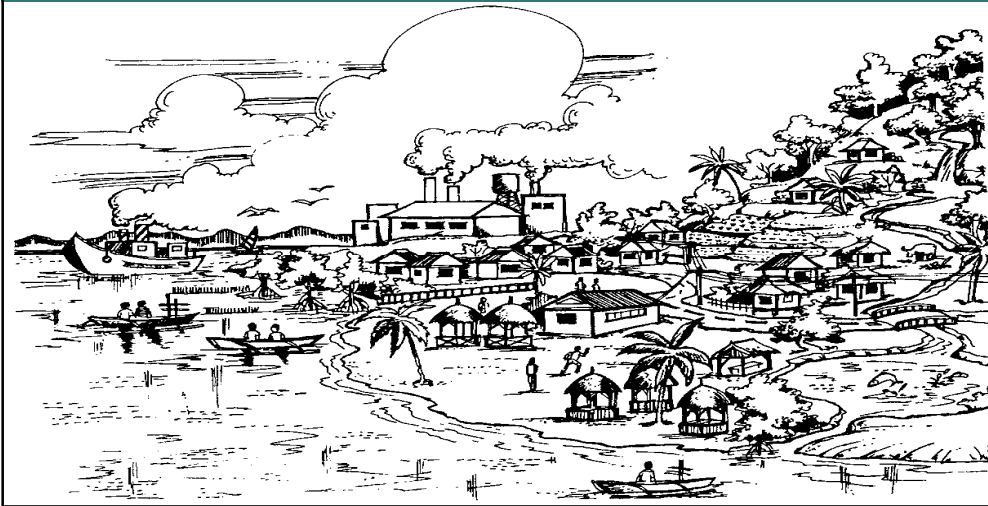

03 December 2019

Municipal Hall, Municipality of Pinamungajan,
 Province of Cebu

TIME	PROGRAM OF ACTIVITIES	PERSON RESPONSIBLE
7:30 – 9:00 AM	Registration	Proponent/Preparer
9:00 – 9:30 AM	Invocation	LGU
	National Anthem	LGU
	Opening Remarks	Engr. Gerald Cabizares – Operations Manager of Century Peak Steel Manufacturing Corporation
	Short Message from Provincial Governor of Cebu	Hon. Gwendolyn Garcia
	Short Message from Municipal Mayor of Pinamungajan	Hon. Glenn F. Baricuatro
	Briefing and Orientation on the purpose of the Public Hearing	EMB Central Office Engr. Carlo Vic Arida Engr. Mary Therese Gonzales
	Rules on the Conduct of Public Hearing	Public Hearing Officer Atty. John Edward Ang
9:30 – 10:00 AM	Presentation on the description of the Project including alternatives Presentation of the EIA Study process and results	Aldreck Madelo and Engr. Venice Montemayor CEnSE Technical Consultancy Services
10:00 – 12:NN	Open Forum	Hearing Officer Atty. John Edward Ang
12:00 – 12:45 PM	Lunch Break	
12:45 – 1:45 PM	Open Forum (Continuation)	
1:45 – 2:30 PM	Recapitulation of issues raised and the proponent's response	Hearing Officer Atty. John Edward Ang
	Next Steps	EMB

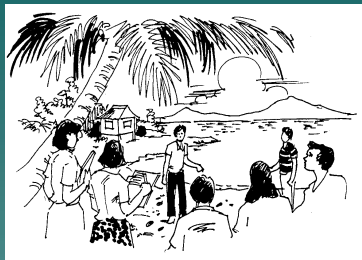

ANG PROSESO NG ENVIRONMENTAL IMPACT ASSESSMENT

BASE SA PD 1586 (DENR –EMB DAO 2003 -30)

1

ANO ang PROSESO ng EIA?

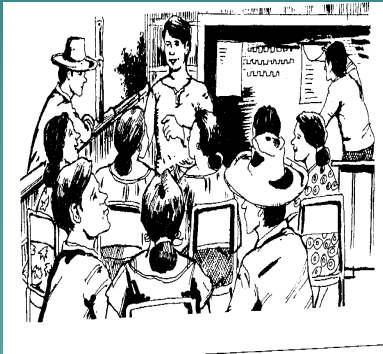

- ◆ Ang Environmental Impact Assessment ay isang proseso na binubuo ng sumusunod na gawain:
- ◆ Pagkolekta ng datos o impormasyon tungkol sa kapaligiran, kalikasan at sosyo-kultural
- ◆ Pag-susuri sa kalagayan ng kapaligiran, kalikasan at sosyo-kultural/ekonomikal base sa datos kung magkakaroon ng proyekto upang magawan ng paraan para maiwasan ang masamang epekto nito at pagbutihin/pagandahin ang mabuting epekto.

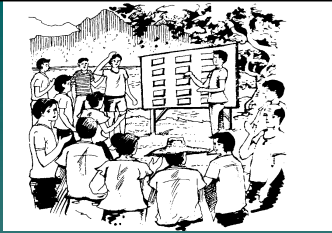

2

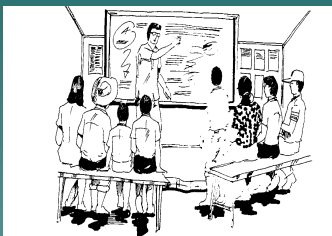

- ◆ Mahalaga ang pakikilahok ng mga taong maapektuhan ng proyekto mula sa simula ng pag-aaral, pag-paplano at pagsasagawa ng proyekto.
- ◆ Ang EIA ay isang proseso ng pag-aaral na nagiging basehan sa pagpaplano ng may ari ng proyekto upang maging basehan ng DENR kung ang proyekto ay makakalikasan at makatao.

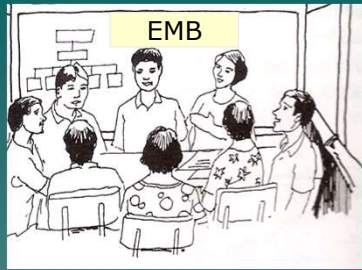

3

- ◆ Paghahanda ng dokumento o resulta ng pag-aaral na tinatawag na Environmental Impact Study (EIS)

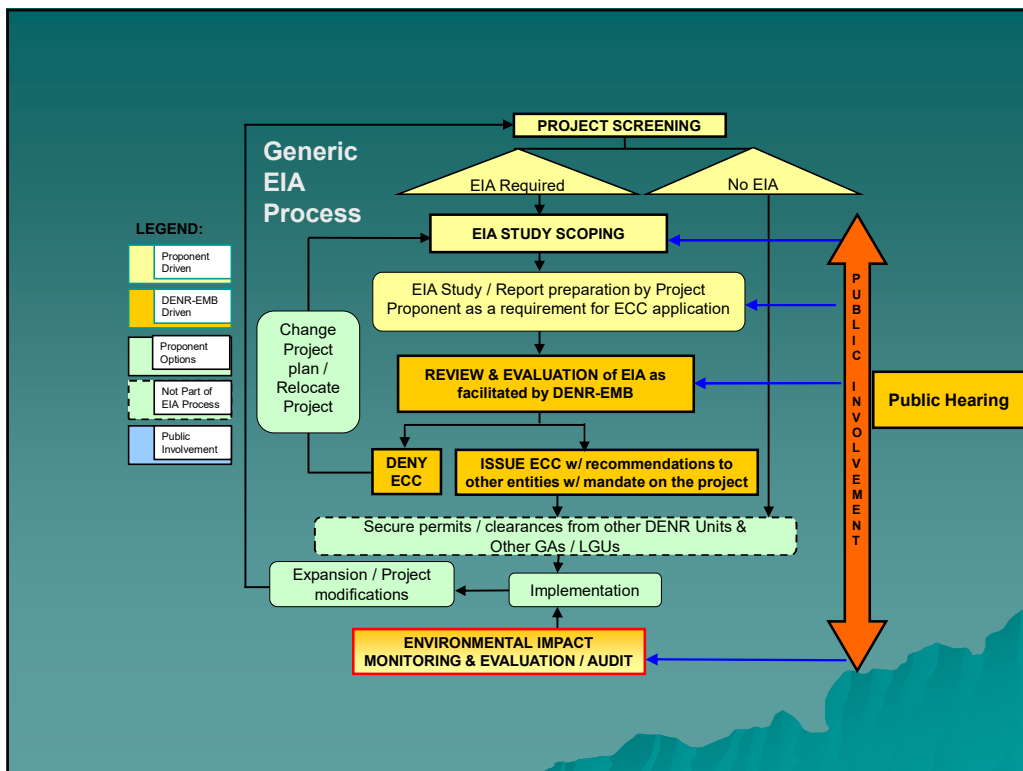

4

- ◆ Pag-rebyu ng Environmental Management Bureau (EMB) ng DENR
- ◆ Pag-aapruba ng DENR sa proyekto at pagbibigay ng Environmental Compliance Certificate (ECC)

5

6

Public Hearing

- ◆ Bahagi ng EIS system kung saan ang impormasyon/datus nakalap , mga mitigating measures ng proyekto ay pinapaalam sa mga stakeholders sa saklaw ng pagaaral

7

Layunin ng Public Hearing

- ◆ Matukoy at makalap ang mga isyu, suhestyon at rekomendasyon ukol sa proyekto
- ◆ upang itaguyod ang epektibong pakikilahok ng publiko at tiyakin ang pagtitiwala sa proseso ng EIA pati na rin ang suporta para sa ipinanukalang proyekto

8

SALAMAT PO!!!

NOTICE OF PUBLIC HEARING

WHAT : PUBLIC HEARING FOR THE PROPOSED
ROLLING MILL PROJECT
WHEN : 03 DECEMBER 2019 (TUESDAY) 9:00AM
WHERE : MUNICIPAL HALL, MUNICIPALITY OF PINAMUNGAJAN,
PROVINCE OF CEBU

A PROJECT OF
CENTURY PEAK STEEL MANUFACTURING CORPORATION (CPSMC)

1

ROLLING MILL PROJECT

Barangays Sacsac and Tutay,
Municipality of Pinamungajan,
Province of Cebu

MGA RESULTA, EPEKTO, PLANO UNSA PAG-AYO UG PAG-MONITOR

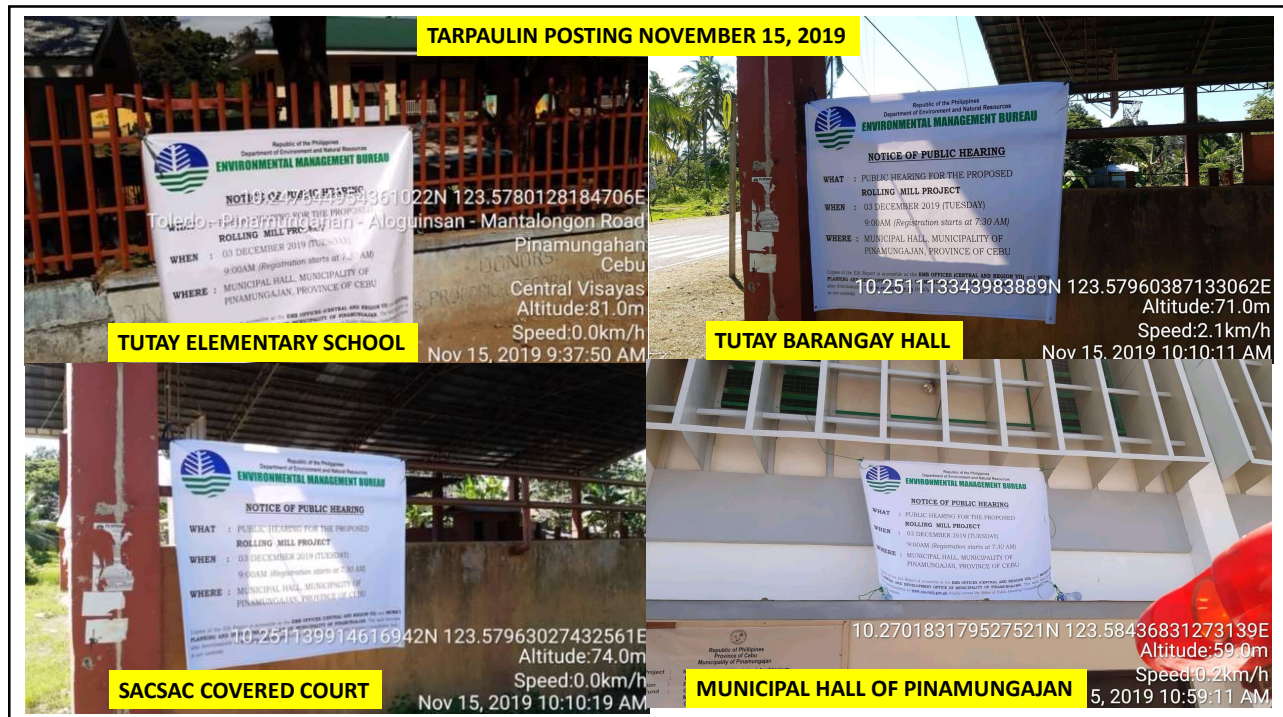

A PROJECT OF
CENTURY PEAK STEEL MANUFACTURING CORPORATION (CPSMC)

2

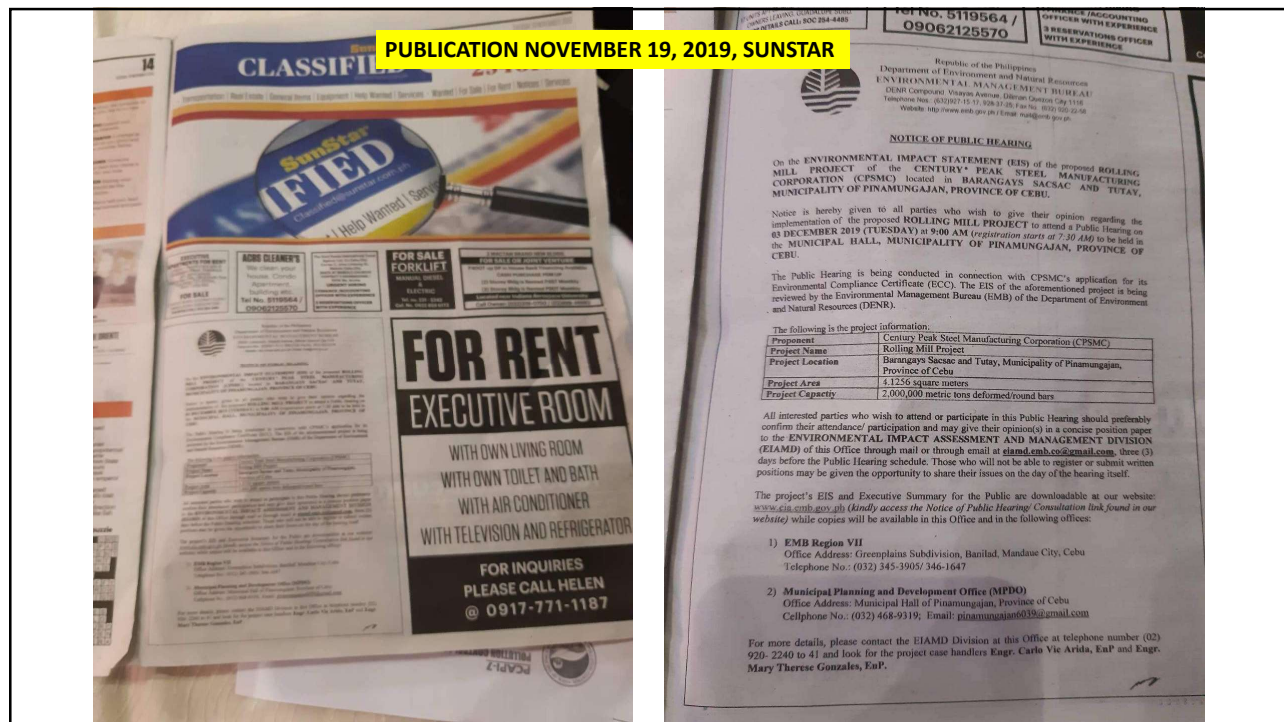

**MGA GI-PREPARA PARA PAG HATAG UG IMPORMASYON
PARA SA PUBLIC HEARING**

1. **NOVEMBER 11, 2019** - POSTING SA EMB WEBSITE ANG SUMMARY SA STUDY
- COMPLIANT SA 20 DAYS PRIOR TO SCHEDULED PUBLIC HEARING
2. **NOVEMBER 15, 2019** – POSTING OF TARPAULIN SA MGA BARANGAY
3. **NOVEMBER 19 AT 26, 2019** – NA PUBLISHED SA SUNSTAR NEWSPAPER ANG ANNOUNCEMENT
3. **NOVEMBER 18-29, 2019** – NAGDISTRIBUTE AT NAGBIGAY NG MGA IMBETASYON

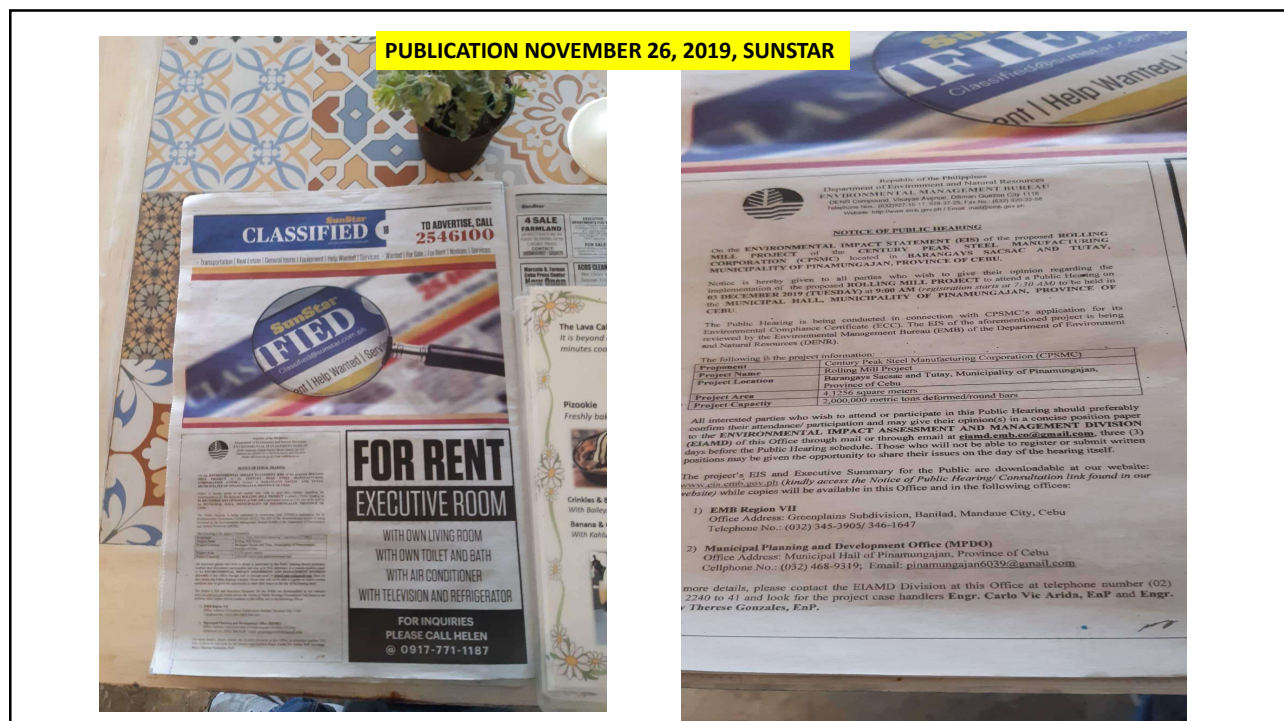

3

7

PAGSULAY SA PROYEKTO

IMPORMASYON UKOL SA PROYEKTO

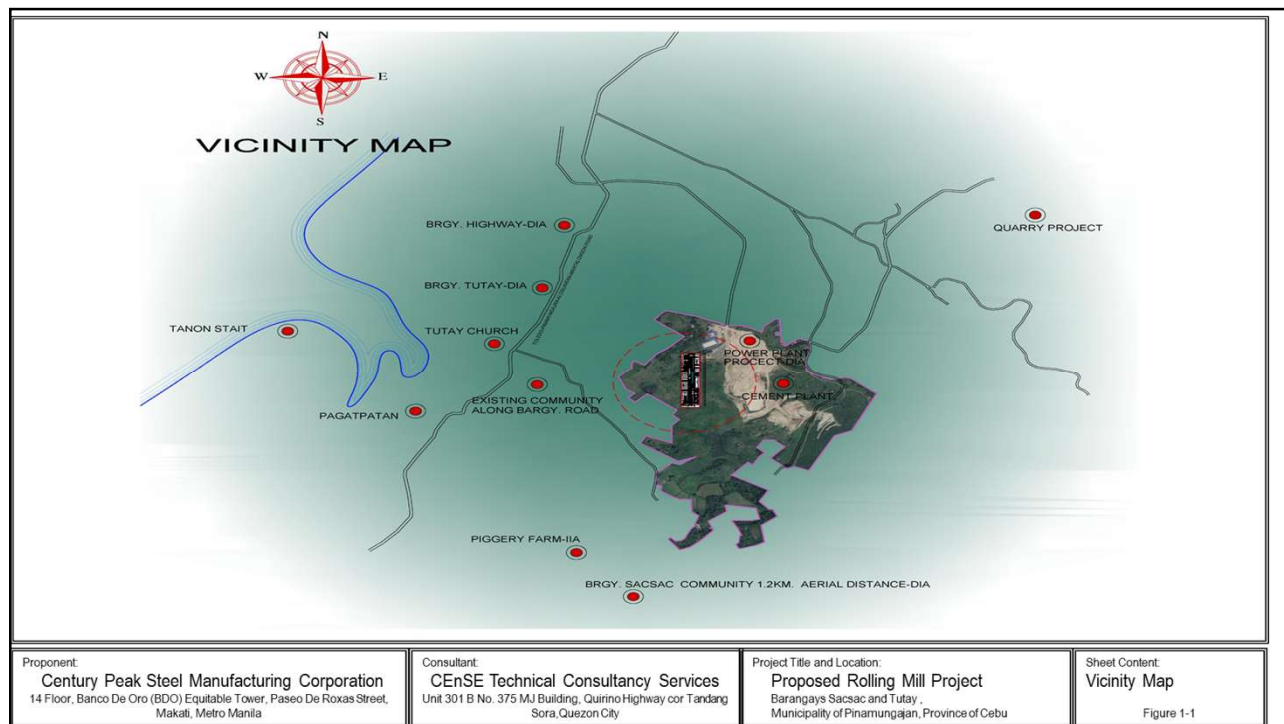

Pangalan ng Proyekto : ROLLING MILL PROJECT

Lokasyon ng Proyekto : Barangays Sacsac and Tutay, Municipality of Pinamungajan, Province of Cebu

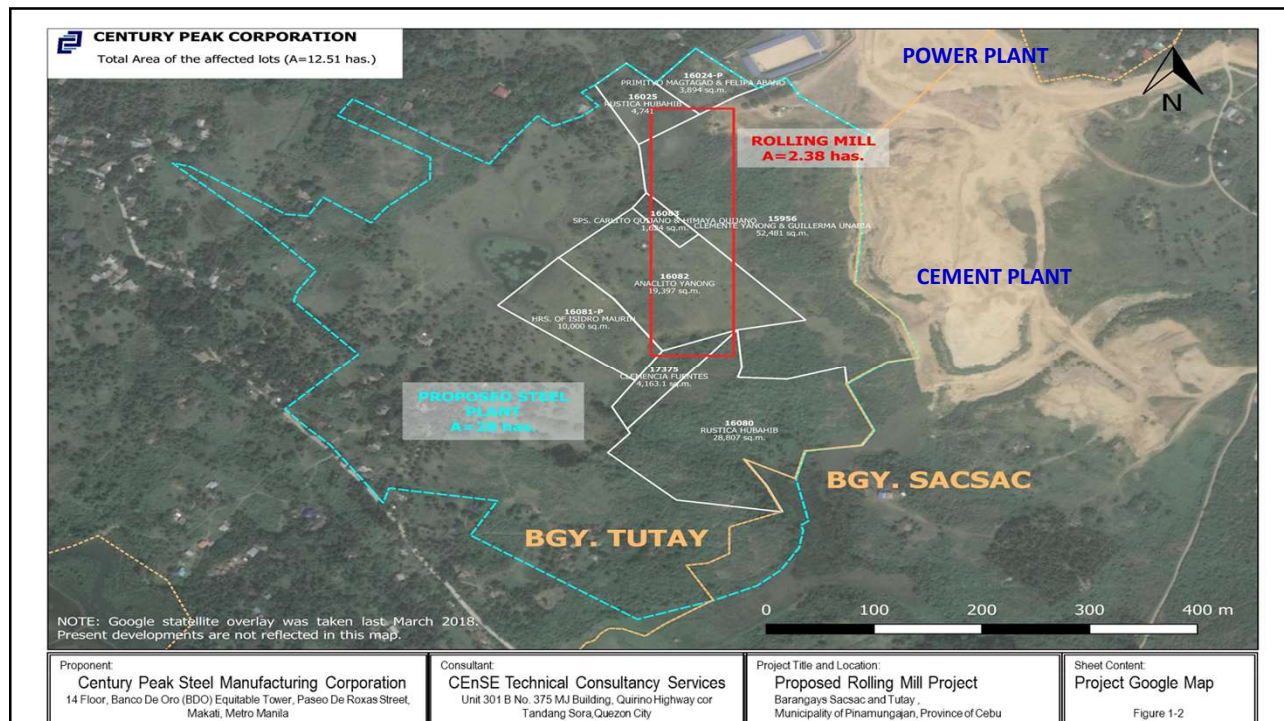

Uri ng Proyekto : Rolling Mill aron Mahimong usa ka Asero

BAHIN NG PROYEKTO:
 Ang proyekto magbutang ug Heating furnace, Rolling machine at Shearing machine, Quarters / Barracks, Office Building, Control Room, Transformer, Warehouses (Raw Materyal at Tapos na Mga Produkto), Air Pollution Control Device (Usok Stack at Exhaust), Pang tunhaw ug Tubig sa Water Pond. Paradahan at Buffer Zone na may Tinuig na Produksyon na 2,000,000 Metric Tons na naay 4.1256 hectares na yuta.

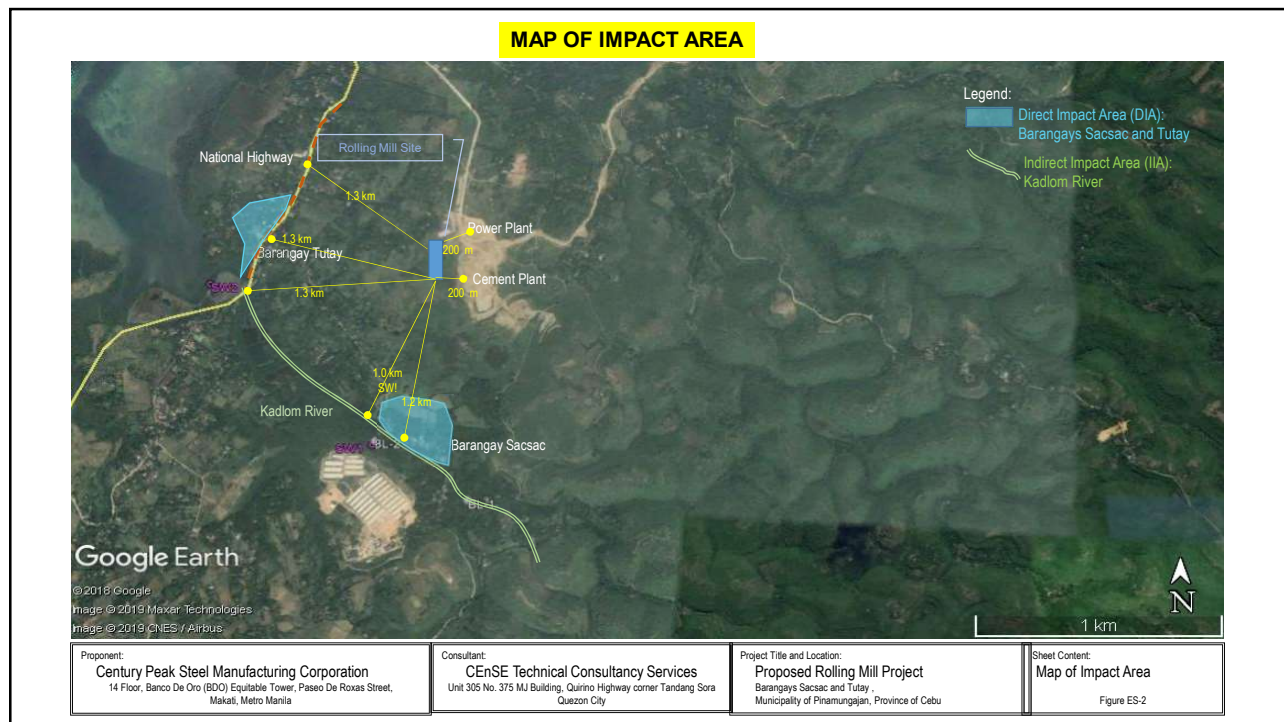

8

9

10

11

A. KATINGBANAN SA PAGTUON

DAKO SA PROYEKTO

Ang proyekto ay diha ibutang sa pribado (private) na yuta na 4.1256 ektarya kadak-a at nay tinuig na kapasidad ng produksyon na 2,000,000 Metric Tons.

ALTERNATIBONG PROSESO/TEKNOLOHIYA

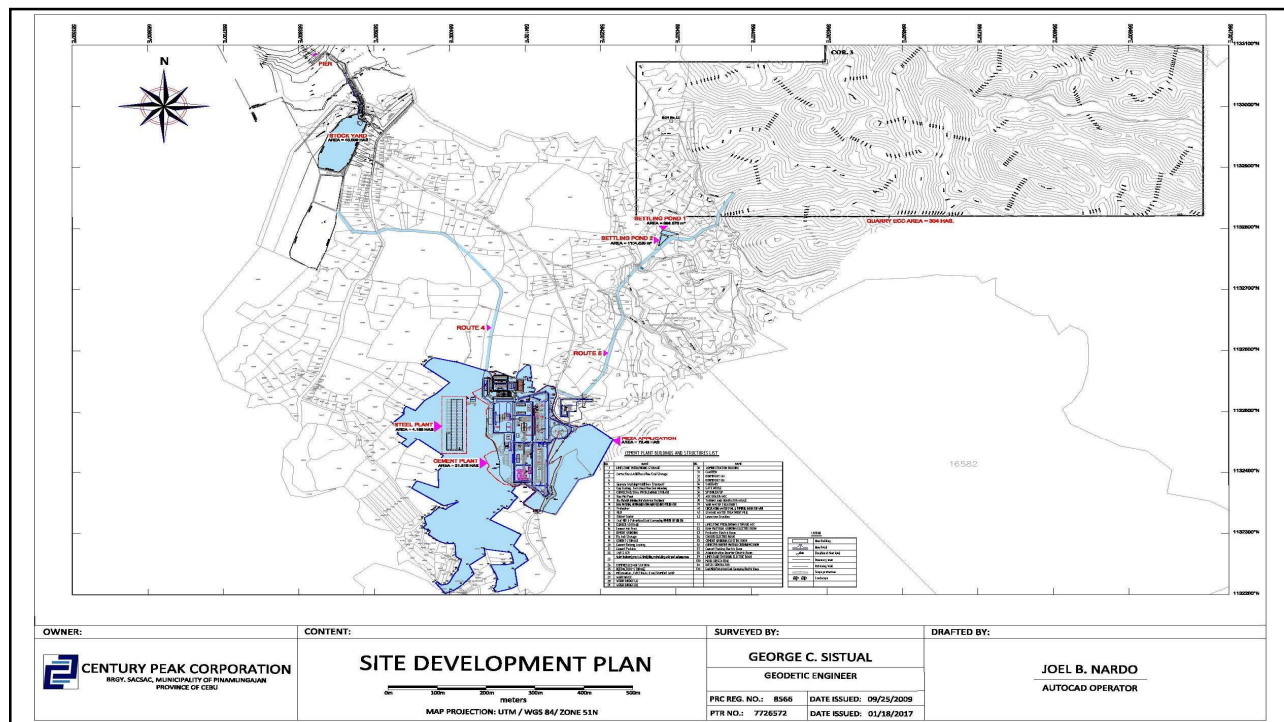

Asa na Lugar (Siting):

- Ang site ay layo sa bisang-unsang na peligro ingon ng baha, pagkaguba sa yuta, lindol, layo sa bulkan, daluyong ug at walang nay lain na lokasyon ng gipilian kay tupad mani siya sa ubang industrial na mga proyekto ng semento, power at bakal

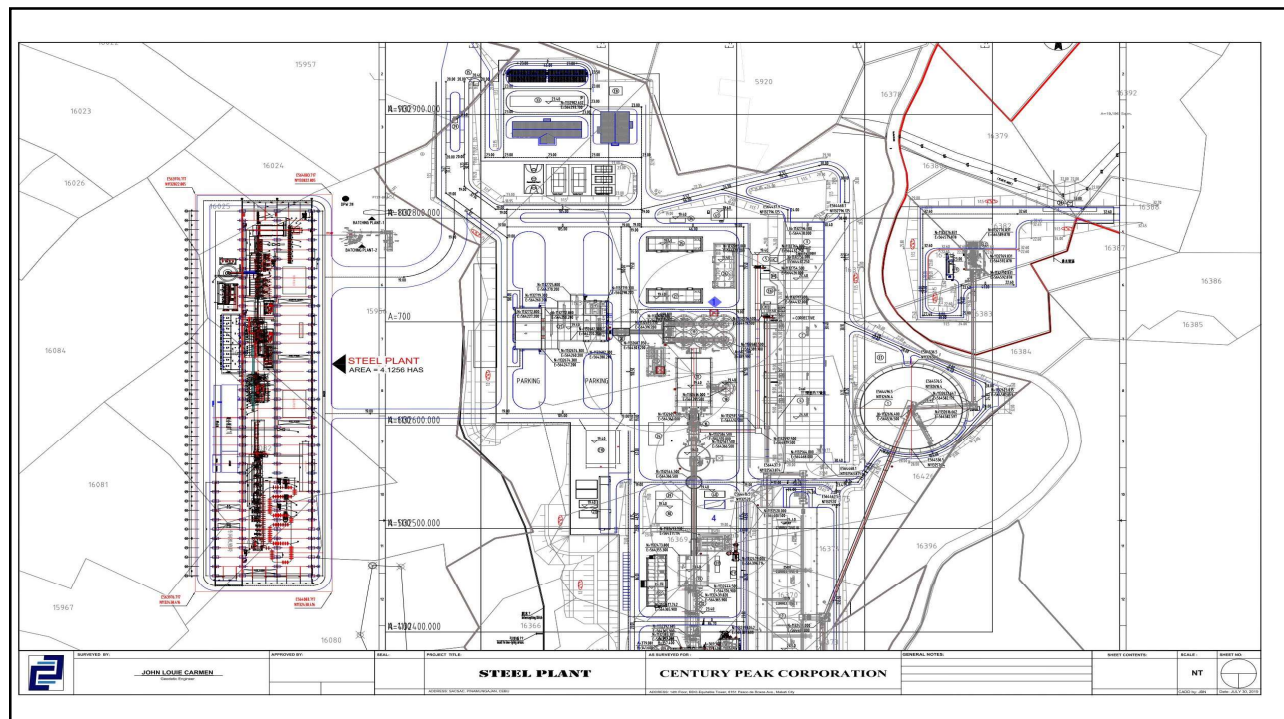

Unsa Gipilian na Disenyo Ug Teknolohiya:

- Ang teknolohiya ay kanang gamay or menos na paggamit sa kuryente, ug ang epekto sa gastos sa kuryente ug wala kayo makaapekto sa polusyon ng hangin.
- Ang flue gas o usok sa pag proseso ng pag-init ng bakal (billet) ay muagi sa recuperating system at ang smoke stack ay muagi sa heat exchanger.
- Gamay na gastos sa pag-install, gastos sa pag operate o pagpapatakbo;
- Kay ang teknolohiya ay dry process, ang proseso ng recirculation ng zero-discharge sa panahon ng proseso, pero kinahanglan ug daghan ug tubig para sa pagcontrol ng init ng mga makina, ug sa paghulma ng bakal, ang tag-iya kay mgabutang ug cool water system

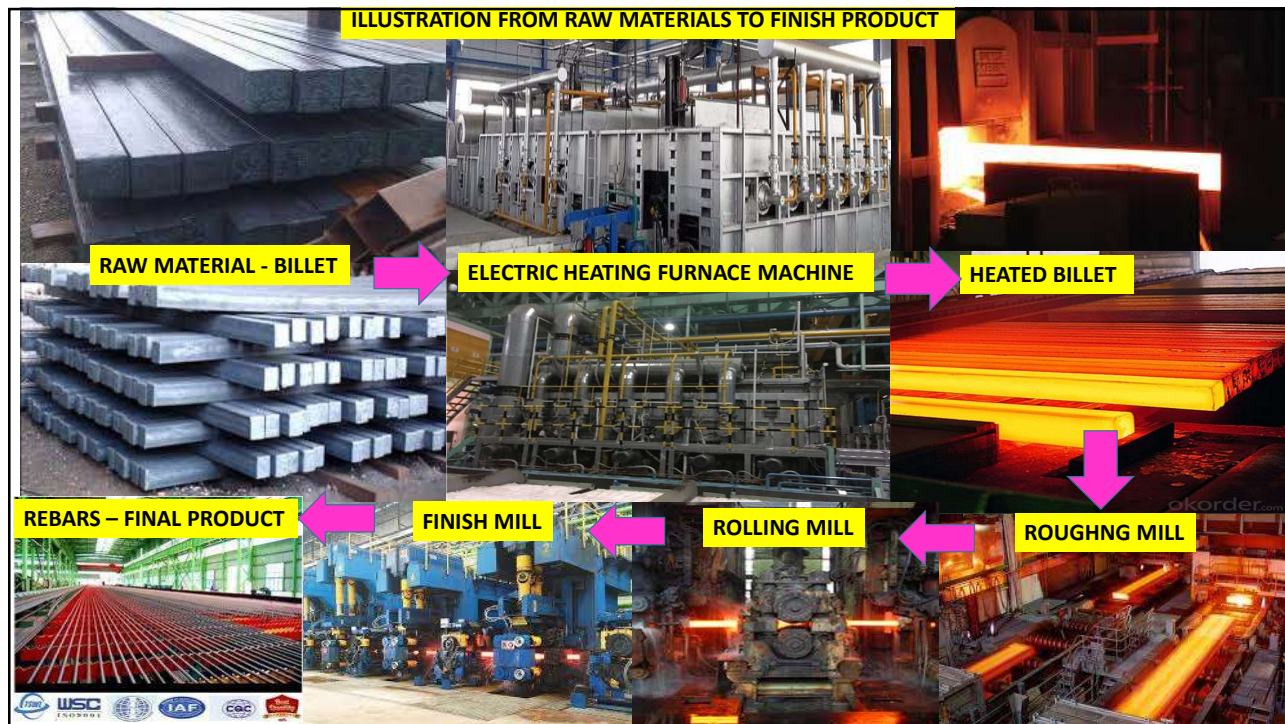

12

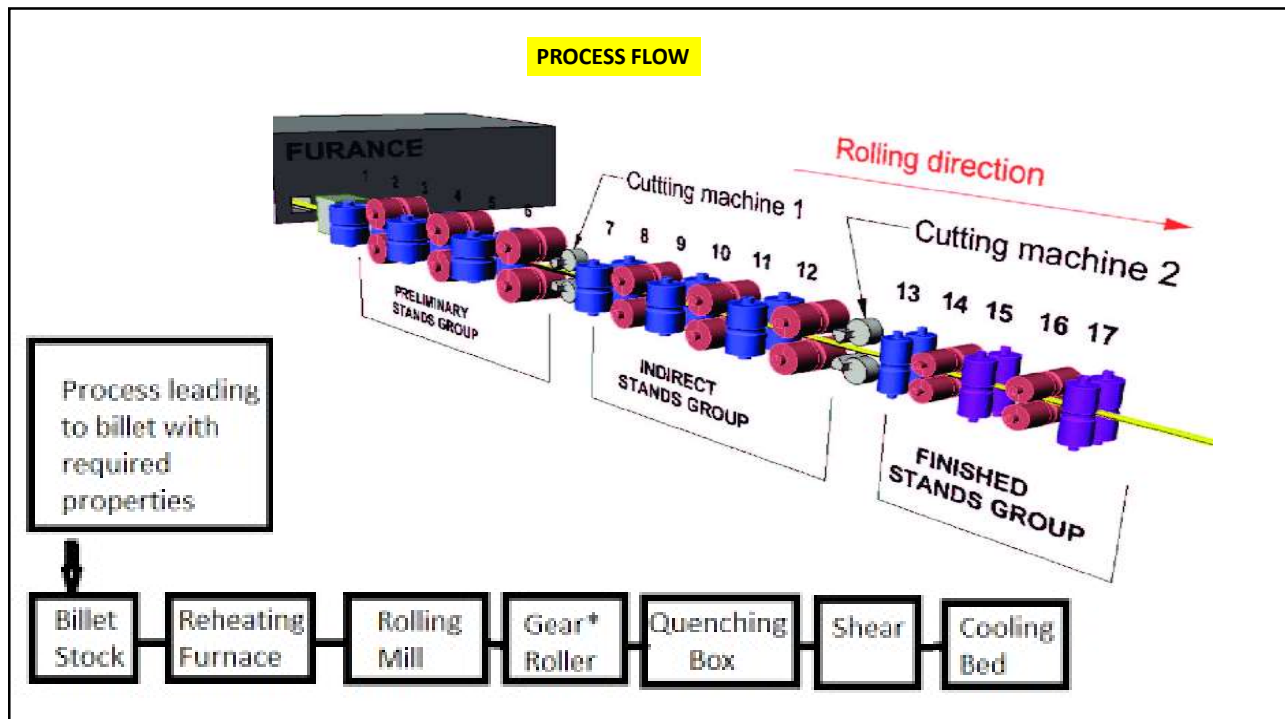

13

14

15

16

A. MGA BAHIN SA PROYEKTO

Ang proyekto ay magbutang ug Heating furnace, Rolling machine at Shearing machine na may Tinuigang Production ng 2,000,000 Metric Tons anha ibutang sa 4.1256 hectares

B. UBANG BAHIN NG PROYEKTO UG UTILIDAD

Machine, Quarters / Barracks, Office Building, Control Room, Transformer, Warehouses (Raw Materyal at Tapos na Mga Produkto).

C. MGA BAHIN SA PAGCONTROLL NG POLUSYON

Air Pollution Control Device (Usok Stack at Exhaust), Paglamig na Water Pond. Paradahan at Buffer Zone,

Solid Waste Management Facility or MRF, Hazardous Waste Management Facility at Sewage Treatment Plant (STP) at magiging common sa lahat ng proyekto ng Century Peak.

17

MGA KAPAGNUHAAN MATERIALES**Gamit sa Tubig**

Anha sa Pinamungajan Water District para sa domestic na gamit ug sa operasyon, ug pagkuha or puy-an gikan sa ulan arung gamitin sa pagtugnaw ng tubig gikan sa pond ng koleksyon ng tubig.

Gamit ng Kuryente

Anha sa Cebu Electric Cooperative (CEBECO)

Kung magwad-an ung kuryente, ang proyekto ay mugamit ng 500 KVA standby genset para maygamit na kuryente. Ang standby genset ay mugamit ug krudo.

ALTERNATIBONG GIGIKANAN

Naa ang proyekto sa Industrial Zone, ug naa sa sulod sa kadaghan project ng Century Peak Corporation. Ang importante kay gamay ang konsumo ng Heating furnace sa pagka epektibo, gamay ug gastos ug dili kayo saba sa proyekto ug ang proseso ng pag-recuperating para sa mas kaunting pagkonsumo ng enerhiya.

18

**Unsa mga Resulta, Posibleng Epekto Ug
Unsaon Pag-Ayo**

**Para sa Yuta
(Land)**

19

Unsa Resulta, Epekto Ug Unsaong Pag-ayong Buhaton sa Tag-iya

UNSA EPEKTO	PROJECT PHASES	UNSA GIBUHAT SA PAG-AYO	RESULTA HUMAN BUHATON ANG PAG-AYO
LUPA			
Gamit sa Yuta Ug Klasipikasyon			
Pareha sa Paggamit ng Yuta	Pre-Konstruksyon	Nakakuha ng Municipal Resolution	Giparehas ug ayon sa gamit ng lupa at klasipikasyon ng Munisipalidad
Kontaminasyon at aesthetics dahil sa henerasyon ng Solid at Mapanganib na Basura na dulot ng hindi tamang pamamahala	Konstruksyon Operasyon Pag-abandona	Ang wastong pagpapatupad ng RA 9003 "Ecological Solid Waste Management Act of 2000" at RA 6969 "Toxic Substances at Mapanganib at Nuclear Waste Control Act No. 6969 of 1990	Bawasan or mugamay ang dami ng solidong basura. Maayo ug paghimo ug segregation, butangan ug label na at ihiwalay ang mga makadaot ug delikado na basura.
Encroachment sa Protected Area (NIPAS) ug uban pang Mga ECA Category ug Hazard Prone	Konstruksyon Operasyon Pag-abandona	Layo sa gideklarang protected area ug layo sa hazard area	Walay conflict sa bisag unsa na gi identify na Environmental Critical Area (ECA)

20

Types of ECAs within the vicinity of the project site				
No.	ECA Category	Technical Description of ECA Category based on DAO 2003-30	Presence within the Project Site	Description (in aerial km)
1	Areas declared by law as national parks, watershed reserves, wildlife preserves, and other sanctuaries	The laws referred to by this provision are Presidential Decree No. 705, as amended, otherwise called as the Revised Forestry Code, Republic Act 7586 or the NIPAS Act, and other issuances including proclamations, executive orders, local ordinances, and international commitments and declarations.	Proximal to the project site.	Tañon Strait Protected Seascape under NIPAS Proclamation 1234 s. 1998 / E-NIPAS (RA-11038) (approx. 2 km distance) Guadalupe Mabugnao Mainit Hot Spring National Park under NIPAS Republic Act 6429 s. 1972 (approx. 13 km distant)
2	Areas set aside as aesthetic, potential tourist spots	Aesthetic potential tourist spots declared and reserved by the DOT or other appropriate authorities for tourism development.	Not present within the project site.	Bugasak Falls in Brgy. Busay, Pinamungajan determined by Municipal Tourism Office (approx. 3 km distant) Kamangon Cave, Udloim Falls, and Hidden Valley Mountain Resort in Brgy. Lamac, Pinamungajan determined by Municipal Tourism Office (approx. 10 km distant) Class II: White Cave in Brgy. Camp-7, Minglanilla determined by BMB (approx. 20 km away from site)

21

Types of ECAs within the vicinity of the project site				
No.	ECA Category	Technical Description of ECA Category based on DAO 2003-30	Presence within the Project Site	Description (in aerial km)
3	Areas that constitute the habitat of any endangered or threatened species of indigenous Philippine wildlife (flora and fauna)	This refers to areas considered as wilderness areas and areas identified by the PAWB/BMB to be natural habitats of endangered or threatened, rare, and indeterminate species of flora and fauna, as defined by PAWB/BMB.		No Identified
4	Areas of unique historic, archaeological, geological, or scientific interests	This refers to areas that are more than 100 years old (now superseded by new law RA10066, reduced to 50 years old) and declared by the National Historical Institute, National Museum, or National Commission for Culture and the Arts, through national or local laws or ordinances as areas of cultural, historical, and scientific significance to the nation, (e.g., declared national historical landmarks, geological monuments, and paleontological and anthropological reservations).	Not present within the project site.	Nearest is Kamangon Cave in Brgy., Lamac, Pinamungahan at approx. 10 km distant, identified by the Philippine Speleological Society (PSS) as site for scientific interest.

22

Types of ECAs within the vicinity of the project site				
No.	ECA Category	Technical Description of ECA Category based on DAO 2003-30	Presence within the Project Site	Description (in aerial km)
5	Areas that are traditionally occupied by cultural communities or tribes	This refers to all ancestral lands of the National Cultural Communities in Section 1 of P.D. No. 410 and settlements designed, implemented, and maintained by the PANAMIN for national minorities based on NCIP, or (non-Muslim hill tribes referred to in Presidential Decree No. 719) as may be amended by R.A. 8371 or data. the Indigenous Peoples Rights Act of 1997 and its Implementing Rules and Regulations.	The project site is not located in any ancestral domain	Not applicable.
6	Areas frequently visited and/or hardhit by natural calamities (geologic hazards, floods, typhoons, volcanic activity, etc.)	The area shall be characterized if any of the following conditions exist: - Geologic hazard areas: This refers to all areas identified by the Mines Geosciences Bureau (MGB) as geologic hazard areas. - Flood-prone areas: - Areas frequently visited or hard-hit by typhoons: - Areas prone to volcanic activities/ earthquakes:	Present within the project site.	Moderately susceptible to flooding. Low risk to typhoon as determined by the Joint Typhoon Warning Center and the Manila Observatory. No risk from volcanic hazards; low to moderate risk from earthquake and related hazards.

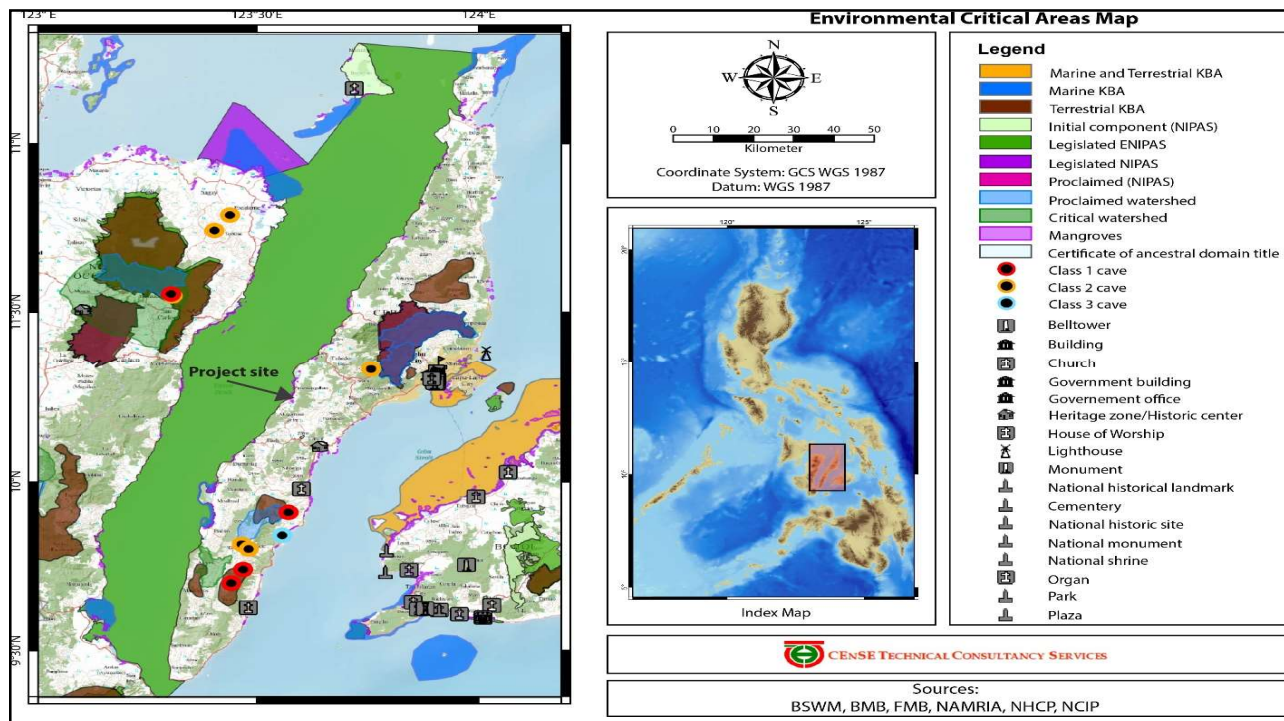

23

Types of ECAs within the vicinity of the project site				
No.	ECA Category	Technical Description of ECA Category based on DAO 2003-30	Presence within the Project Site	Description (in aerial km)
7	Areas with critical slope	This refers to all lands with slopes of 50% or more classified as geohazard by MGB. Such slope conditions favor their natural susceptibility to geohazards such as landslides.	Not present within the project site.	Not applicable
8	Areas classified as prime agricultural lands	Prime agricultural lands refer to lands that can be used for various or specific agricultural activities and can provide optimum sustainable yield with minimum inputs and development costs as determined by the Department of Agriculture	Not present within the project site.	Not applicable.
9	Recharge areas of aquifers	Refers to sources of water replenishment where rainwater or seepage actually enters the aquifers. Areas under this classification shall be limited to all local or non-national watersheds and geothermal reservations.	Not present within the project site.	The proposed project is not a recharge area of aquifers due to its location (near the shore).

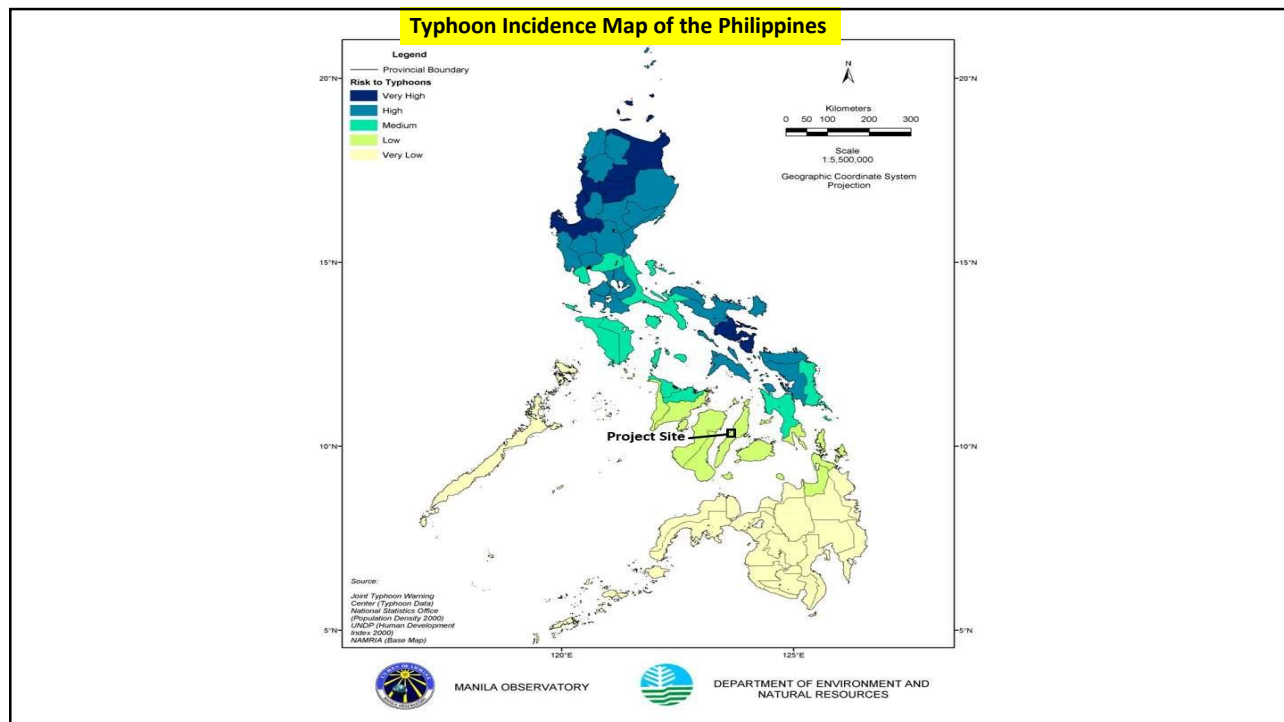

24

Types of ECAs within the vicinity of the project site				
No.	ECA Category	Technical Description of ECA Category based on DAO 2003-30	Presence within the Project Site	Description (in aerial km)
10	Water bodies characterized by one or any combination of the following: tapped for domestic purposes; within the controlled protected areas, including and/or protected areas declared by the appropriate authorities; which support wildlife and fishery activities.	Water bodies shall refer to waters that are tapped for domestic purposes or those which support wildlife and fishery activities within declared protected areas, including the buffer zones.	Proximal to the project site.	The waterbody near the site is Tanon Strait tapped for domestic purposes.
11	Mangrove areas characterized by one or any combination of the following conditions: with primary pristine and dense young growth; adjoining mouth of major river systems; near or adjacent to traditional productive fry or fishing grounds; areas which act as natural buffers against shore erosion, strong winds and storm floods; and areas on which people are dependent for their livelihood.	Mangrove areas shall be characterized by one or any combination of the following conditions: - With primary pristine and dense young growth - Adjoining mouth of major river systems; - Near or adjacent to traditional productive fry or fishing grounds; - Areas that act as natural buffers against shore erosion, strong winds and storm floods; and - Areas on which people are dependent for their livelihood, pursuant to and taking into consideration Republic Act 7161, which prohibits the cutting of mangrove species.	Proximal to the project site.	Nearest mangrove area is approx. 2 km northwest of site.
12	Coral reefs characterized by one or any combination of the following conditions: - With 50% and above live coralline cover; - Spawning and nursery grounds for fish; - Act as natural breakwater of coastlines	Characterized by one or any combination of the following conditions: - With 50% and above live coralline cover; spawning nursery grounds for fish; and act as natural breakwater of coastlines.	Proximal to the project site.	Refer to Hydrology Section.

Kanang Mga Tanum

Ang Site Karun na wala nay makitan ug vegetation

31

Kanang Mga Tanum

Base sa mga Unang Datus na Nakuha gikan sa mga unang project nila na cement ug power plant, ug kuha pud sa mga interview sa mga tao: Kanang lugara ay nay mga tanum na:

- A. Lubi
- B. Kamatigue
- C. Mani-mani, Baho-baho
- D. Kapayas
- E. Tubatuba
- F. Cogon
- G. Balili
- H. Makahiya
- I. Biyatilis
- J. Alansuhan

Ang mga tanum kay mga ordinary lang ug bisag Nawala na sila, ang proponent kay pwede pud magparticipate sa National Greening Program (NGP) – anha sila magtanum sa mga protected area na gi-identified pud ng atong gobyerno.

Unsaon Pag-Ayo**

**Para sa mga Tao
(People)**

47

Demograpia

Ang Pinamungajan ay nay twenty-six (26) barangays na naay population of 65,955, as og 2015 PSA.

Ang population sa Barangay Sacsac is 1,533 ug Barangay Tutay is 2,461, (*As of 2015 data*);

Ang population karun latest sa of Barangays Sacsac ay 2,000 ug total Household na 600 ug Barangay Tutay ay 2,500 ug 700 ang updated na household of as October 2019

Trabaho ug Status

Base sa information nakuha sa Barangay Office. Barangay Sacsac ay naay 20% employment rate or 400 base sa 2,000 population as of October 2019 na mga nagtrabaho as laborers ug ang Barangay Tutay ay naay 25% employment rate or 625 base sa 2,500 population as of October 2019 na mga laborers ug primary works gaya ng government workers, etc..

Unsay Sources of Livelihood

Base sa resulta sa perception survey, kadaghan tao nagtrabaho as construction related works and government workers ug nay uban na livelihood kanang magtinda ug mag-araro.

48

Unsa Resulta, Epekto Ug Unsaong Pag-ayong Buhaton sa Tag-iya

UNSA EPEKTO	PROJECT PHASES	UNSA GIBUHAT SA PAG-AYO	RESULTA HUMAN BUHATON ANG PAG-AYO
MGA TAO			
Health Issues			
Ang positibong epekto sa henerasyon trabaho kabuhayan	Konstruksyon Operasyon	Panguna para sa mga lokal na trabahante – equal sa paghatay ug pagdistribute sa employment para sa Barangays Sacsac at Tutay Makatabang sa mga programang pangkabuhayan ng mga LGU at ipatupad ang Social Development Plan (SDP) alinsunod sa plano ng LGU.	Mapaayo ang mga kinabuhi ng tao ug ang ilang-ekonomiyang buhay
Lupa	Pag Abandona	Pagtanggal ng mga pansamantalang pasilidad	Maayos ng kapaligiran
Monitoring	Operasyon	Isama sa MMT Monitoring	Transparency sa Operasyon

ISSUES/CONCERNS RAISED DURING PUBLIC SCOPING TO BE INCLUDED IN THE SCOPE OF THE EIS STUDY

EIA MODULE	Issues/Suggestions Raised by the Stakeholders	Sector or Representative Who Raised the Issue/Suggestion	Proponent's Response and Included in the EIS Report
1. Project Description	Supply chain The identified source of raw materials belong to the ASF This may cause contamination of the swine in our project	Ace Acedillo Excelsior Piggery Farm	Century Peak has a Port Facility that will be used to transport import products. The company shall see to it that it will adhere to all procedures and policies of PPA, Health and other concerned agencies in proper port operation.
2. Land	What are the wastes identified during operation?	Alan Pagapulaan Excelsior Piggery Farm- Consultant	The wastes identified during operations are Solid wastes that will be generated by the workers and employees and Hazardous wastes such as used oil, busted fluorescent lamps, etc. Mag comply sa RA 9003 ug RA 6969
3. Water	What are the chemicals that will be used during the operation? As this can contaminate the water in the area What is the source of water?	Pinamungajan Water District Alan Pagapulaan Excelsior Piggery Farm- Consultant	No chemicals that will be during the operation as this will affect the quality of steel. The proponent will buy billet as raw materials The project shall implement zero discharge thru re-use and recycling of water. The source of water for the project is the Local Water District for the domestic use, in the event that the Local Water cannot supply the water requirement, then the proponent may opt to use groundwater which shall secure Water Permit from NWRB.

50

ISSUES/CONCERNS RAISED DURING PUBLIC SCOPING TO BE INCLUDED IN THE SCOPE OF THE EIS STUDY			
EIA MODULE	Issues/Suggestions Raised by the Stakeholders	Sector or Representative Who Raised the Issue/Suggestion	Proponent's Response and Included in the EIS Report
4. Air	What is the Air Pollution Control Device to be used for the project	Alan Pagapulaan Excelsior Piggery Farm-Consultant Efren Linar –Barangay Tutay	Mag install ug Smoke Stack and Exhaust – implement recuperating process The proponent shall secure Permit to Operate prior to operation.
5. People	Clarification on the covering Barangay which should include Barangay Tutay	Barangay Chaimain Nortiza Barangay Tutay	The project address now is Barangays Sacsac and Barangay Tutay.
	Medical Assistance	BHW- Barangay Tutay	Part of the Social Development Program (SDP)
	Employment – Priority and what is the assurance	Kagawad Jerome – Barangay Tutay	This is part of the commitment of the Proponent. Monitor under Multi-Partite Monitoring Team (MMT) – ang stakeholders involve and barangay.
	Benefits of the former Landowner of the property- that the landowner should give priority for employment and benefits	Kagawad Jerome – Barangay Tutay and Ambrosio Hubahib	Priority for employment are the people from Pinamungajan
	Outreach Program, SDP and Livelihood		Part of the SDP.
