SECTION 1 INTRODUCTION

- ¹ **Reliance Energy Development Inc. (REDI)** intends to construct and operate a 300 MW LNG Combined Cycle Power Plant within the San Carlos City Ecozone in Barangays Punao and Palampas, San Carlos City, Negros Occidental. **Table 1** shows the details of the Project, Proponent and EIA preparer.
- ² **REDI** is a wholly owned subsidiary of SMC Global Power Holdings Corp. (SMC GPHC). SMC GPHC is one of the largest power companies in the Philippines with a diversified portfolio utilizing a mix of coal, natural gas, and hydroelectric plants. These power assets comprise of plants that are under Independent Power Producer Administrator (IPPAs) agreements with the Power Sector Assets and Liabilities Management Corp. and plants that are owned by/under joint-venture agreements with SMC GPHC and are classified as Independent Power Producers (IPPs). It has seven (7) operational power plants (3 - IPPAs; 1 - Joint Venture plant; 3 - IPPs) and one (1) greenfield power plant in the pipeline.

Table 1: Proposed Project, Proponent and EIA Preparer Details

Project Name	300 MW LNG Combined Cycle Power Plant
Project Location	Brgy. Punao and Brgy. Palampas, San Carlos City, Negros Occidental
Project Area	~ 49,000 sqm
Project Type	Thermal Power Plant
Project Size/Capacity	300 Megawatts
Project Proponent	Reliance Energy Development Inc Office Address: 155 EDSA, Brgy. Wack-wack Mandaluyong City Tel. No.: (02) 8702-4601 Authorized Representative: Mr. Rene R. Mendoza (Project Director)
EIA Preparer	LCI Envi Corporation Office Address: Unit 8L-M, Future Point Plaza 3, 111 Panay Avenue, South Triangle, Quezon City Tel. No.: (02) 8442-2830 / Fax No.: (02) 8961-9226 Authorized Representative: Engr. Jose Marie U. Lim (EIA Team Leader)

SECTION 2

IEC MEETING AND FOCUS GROUP DISCUSSION

2.1 RATIONALE AND OBJECTIVES

- ³ As stipulated in the Department of Environment and Natural Resources (DENR) Administrative Order No. 2017-15 (Guidelines on Public Participation under the Philippine Environmental Impact Statement System) or DAO 2017-15, at the onset of the environmental impact assessment (EIA) process, early involvement of stakeholders must be initiated through the conduct of information and education campaign (IEC) and focused group discussions (FGDs). Once social preparation activities are completed, scoping can then be performed to establish the scope of work and terms of reference for the EIA.
- ⁴ The following stakeholder groups were invited by the proponent for the IEC:
- **LGUs in areas where all project facilities are proposed to be constructed/situated and where all operations are proposed to be undertaken**
 - Municipality of San Carlos City
 - Barangay Punao LGU
 - Barangay Palampas LGU
 - Barangay Poblacion 1 LGU
 - Barangay Refugio LGU
 - **Interest groups (NGOs/POs) preferably those with mission/s specifically related to the type and impacts of the proposed undertaking**
 - Farmer's Organizations in Barangays Punao and Palampas
 - Fisherfolks in Barangays Punao and Palampas

2.2 SCHEDULE AND PARTICIPANTS

- ⁵ The following activities were conducted as part of the IEC of the proposed project. Basic project details were presented to the participants. The IEC material is included as **Annex 1** in this report. The participants were also asked if they have issues and concerns regarding the proposed project.
- Online IEC meeting on January 28, 2022 via Zoom.us
 - Focus group discussions (FGD) conducted with the Barangay Palampas LGU on February 15, 2022.
 - Focus group discussions (FGD) conducted with the Barangay Punao LGU on February 16, 2022.
 - Focus group discussions (FGD) conducted with the Barangay Poblacion 1 LGU on February 16, 2022.
 - Focus group discussions (FGD) conducted with the Barangay Refugio LGU on February 16, 2022.
- ⁶ The composition of the IEC participants is presented in **Table 2** while the attendance sheets are attached as **Annex 3**.

Table 2: Participants in the IEC activities

STAKEHOLDER GROUP/OFFICE/ORGANIZATION	TOTAL NO. OF REPRESENTATIVES
<ul style="list-style-type: none"> LGUs in areas where all project facilities are proposed to be constructed/situated and where all operations are proposed to be undertaken <ul style="list-style-type: none"> San Carlos City LGU Barangay Punao LGU Barangay Palampas LGU Barangay Poblacion 1 LGU Barangay Refugio LGU Reliance Energy Development Inc. (Proponent) LCI Envi Corporation (EIA Consultant) 	

2.3 HIGHLIGHTS

- ⁷ The photo-documentation of the IEC activity is provided in **Figure 1**. The issues and concerns raised by the participants during the open forum per stakeholder groups and the corresponding responses of the proponent and the EIA study team, are summarized in **Table 3**.
- ⁸ The recording of the online IEC meeting conducted is attached as Annex 5 of this report.

Figure 1: Photo Documentation of the Online IEC Meeting

SOURCE: Photos taken by LCI Study Team

Figure 2: Photo Documentation of the FGDs

Table 3: Matrix of Issues, Concerns, and Suggestions raised during IEC activities

ISSUES/CONCERNS/QUERIES	RAISED BY	RESPONSES
Online IEC Meeting (January 28, 2022)		
We already gave the city endorsement for this project. What other requirements do you need to proceed with the project?	Hon. Renato Y. Gustilo San Carlos City Mayor	We will already start with our application for the ECC of the proposed project. We will apply the ECC to EMB Central Office. We can attach the city endorsement in our EIS. Engr. Joma Lim (EIA Consultant)
FGD with Barangay Palampas (February 15, 2022)		
What help or assistance can the project provide to our barangay?	Hon. Danny M. Suan Barangay Captain, Barangay Palampas	SMC has different CSR programs that can also be implemented in your barangays since you are one of the host barangays. Like what was presented during our online IEC meeting, their programs include medical missions, school assistance and other environmental activities

ISSUES/CONCERNS/QUERIES	RAISED BY	RESPONSES
		such as tree planting. Also as provided in ER 1-94, your barangay can avail for the electrification fund from the proponent to fund different projects. Engr. Joma Lim (EIA Consultant)
FGD with Barangay Punao (February 16, 2022)		
The proposed project site is prone to flooding.	Hon. Sofronio U. Senador Barangay Captain, Barangay Punao	This is noted. We will include this in our EIS. Engr. Joma Lim (EIA Consultant)
There are informal settlers near the project site. Will you also conduct consultation meetings with them?	Hon. Sofronio U. Senador Barangay Captain, Barangay Punao	We may conduct FGDs with the nearby residents. They may also be invited during public scoping. Engr. Joma Lim (EIA Consultant)
Please prioritize hiring of workers from our barangays.	Hon. Sofronio U. Senador Barangay Captain, Barangay Punao	This is noted. We will include this in our EIS. Engr. Joma Lim (EIA Consultant)
How will your project affect the fisherfolks in our barangay?	Hon. Sofronio U. Senador Barangay Captain, Barangay Punao	The impacts of the project to the fisherfolks in the area will be included in the EIS. We will also conduct KII/FGD with the fisherfolks. Engr. Joma Lim (EIA Consultant)
FGD with Barangay Poblacion 1 (February 16, 2022)		
Will your project cause air pollution?	Hon. Joselito Lopez Barangay Captain, Barangay Poblacion 1	The powerplant will use LNG as fuel which is expected to generate minimal air emissions. However, the proponent will still install control facilities and will monitor the air emissions of the plant. Engr. Joma Lim (EIA Consultant)
Will you use coal as fuel?	Hon. Joselito Lopez Barangay Captain, Barangay Poblacion 1	The proposed project will use LNG. The initial plan was to use coal as fuel however, this will no longer push through due to some environmental concerns. Engr. Joma Lim (EIA Consultant)
How will you deliver LNG to your plant? And what is your source?	Hon. Joselito Lopez Barangay Captain, Barangay Poblacion 1	LNG will be delivered through barging. LNG will be imported from other countries. Engr. Joma Lim (EIA Consultant)
Once operational, will our electricity bill be lower?	Hon. Joselito Lopez Barangay Captain, Barangay Poblacion 1	The electricity that will be generated shall be delivered to the national grid.

ISSUES/CONCERNS/QUERIES	RAISED BY	RESPONSES
		Engr. Joma Lim (EIA Consultant)
FGD with Barangay Refugio (February 16, 2022)		
Will your project cause bad odor during operation?	Hon. Alfredo Layague, Jr. Barangay Captain, Barangay Refugio	The proposed project is not expected to cause bad odors. Engr. Joma Lim (EIA Consultant)
There are mangroves in the project site. What are your plans for the mangroves?	Mr. Jerson H. Amparo SB Member	Initial design of the project will not include removal of the mangroves in the project site. But we will still confirm this to the proponent. Engr. Joma Lim (EIA Consultant)
Will your project affect our fishermen?	Mr. Manuel Chavez SB Member	Yes, since there are project components that will be located in the Tanon Strait. The impact of the project to the fishermen will be included in our study. Engr. Joma Lim (EIA Consultant)
Wastewater discharge from your project may cause pollution in the Tanon Strait.	Hon. Alfredo Layague, Jr. Barangay Captain, Barangay Refugio	The project will have wastewater treatment facility to ensure compliance of the wastewater to DENR standards. Engr. Joma Lim (EIA Consultant)
The project site and its nearby communities are already prone to flooding. Your project may worsen the flooding specially in our barangay since we are near to your project site.	Mr. Manuel Chavez SB Member	This is noted and will be included in our study. Engr. Joma Lim (EIA Consultant)
Where will you deliver the electricity that will be generated from your plant? Will it be to our province?	Hon. Alfredo Layague, Jr. Barangay Captain, Barangay Refugio	The electricity will be supplied to the national grid. Engr. Joma Lim (EIA Consultant)

SECTION 3

INITIAL PERCEPTION SURVEY

3.1 OBJECTIVE

- ¹⁰ The initial perception survey was conducted in conjunction with the IEC activities for the proposed 300 MW LNG Combined Cycle Power Plant. The objective of the activity is to assess the preliminary knowledge and perception of the stakeholder representatives on the proposed project.

3.2 METHODOLOGY

- ¹¹ The respondents were asked to fill out the initial perception survey form, which was written in Tagalog. The initial perception survey form had two parts. The first part contained 10 questions on the respondent's profile, while the second part had 6 questions that aimed to gauge the awareness and gather the opinions of the respondent regarding the proposed project.

3.3 SUMMARY OF RESULTS

- ¹² A total of 32 respondents participated in the initial perception survey. The profile of the respondents is summarized in **Table 4**. The initial perception survey results are presented in **Table 5**. Sample filled out survey forms are attached in **Annex 4**.

Table 4: Profile Summary of the Initial Perception Survey Respondents

ITEM	RESULTS
Residence & Period of Residency	<ul style="list-style-type: none"> ▪ 81 percent of the respondents are residing in the barangay for more than 10 years ▪ 19 percent of the respondents are residing in the barangay for 5 to 10 years
Gender Distribution	<ul style="list-style-type: none"> ▪ 44 percent of the respondents were female, while 56 percent were male.
Civil Status	<ul style="list-style-type: none"> ▪ Majority (56%) of the respondents were married.
Religious Affiliation	<ul style="list-style-type: none"> ▪ Majority (78%) of the respondents were Roman Catholics.
Educational Attainment	<ul style="list-style-type: none"> ▪ 22 percent of the respondents answered elementary as their highest education attainment. ▪ 44 percent of the respondents answered highschool as their highest education attainment. ▪ 34 percent of the respondents answered college as their highest education attainment .
Source of Income/Livelihood	<ul style="list-style-type: none"> ▪ 19 percent of the respondents were Barangay Officials. ▪ 26 percent of the respondents were Government Employees. ▪ 10 percent of the respondents were private employee ▪ 3 percent of the respondents were laborer or contractors ▪ 6 percent of the respondents were tricycle or jeepney drivers ▪ 19 percent of the respondents were farmers ▪ 13 percent of the respondents were business owners
Average Monthly Income (PHP)	<ul style="list-style-type: none"> ▪ 48 percent answered that they were earning Php 0 to 5,000. ▪ 26 percent answered that they were earning between Php 5,001 to 10,000. ▪ 6 percent answered that they were earning between Php 10,001 to 15,000.

ITEM	RESULTS
	<ul style="list-style-type: none"> 3 percent answered that they were earning between Php 15,001 to 20,000. 16 percent answered that they were earning more than 20,000.

Table 5: Results Summary of the Initial Perception Survey on the Proposed Project

ITEM	RESULTS
Awareness about the proposed Project	<ul style="list-style-type: none"> 100 percent of the respondents were aware of the project. 80 percent of the respondents learned about the project through the barangay officials while 9 percent learned about the project through meeting conducted for the project. Another 9 percent heard the project from the proponent.
Opinion of the nature of the project	<ul style="list-style-type: none"> Around 97 percent of the respondents believed that the proposed project would be beneficial. 3 percent were unsure if the project will be beneficial nor detrimental to the community.
Potential positive effects of the project to the respondent, community, and environment	<ul style="list-style-type: none"> 59 percent answered that the proposed project could provide additional job opportunities to the people Around 23 percent said that it could increase business opportunities. 18 percent answered the proposed project will generate additional tax payment to the barangay
Potential negative effects of the project to the respondent, community, and environment	<ul style="list-style-type: none"> 43 percent of the respondents said that it could cause air pollution. 6 percent of the respondents said that it will generate noise. 23 percent of the respondents said that it could cause water pollution. 9 percent answered that the project will bring additional solid wastes. Another 9 percent thinks that the project may cause soil contamination 11 percent believed that the project may affect the water quality of nearby river
Message to the Proponent	<ul style="list-style-type: none"> 79 percent answered that the proponent must ensure that the project should not cause pollution to the environment 20 percent said that the proponent should provide additional projects and programs in the barangays.

Information and Education Campaign (IEC) Meeting

Proposed 300 MW LNG Combined Cycle Power Plant

Reliance Energy Development Inc.

Brgy. Punao and Brgy. Palampas, City of San Carlos

Dear Hon. Brgy. Chairman Senador:

Reliance Energy Development Inc. (the "Company"), a wholly owned subsidiary of SMC Global Power Holdings Corp., intends to construct and operate a 300-MW LNG Combined Cycle Power Plant in Brgys. Punao and Palampasin, San Carlos City, Negros Occidental (the "Project").

In line with this, we would like to invite you or your representative to an **Information and Education Campaign (IEC) Meeting** as part of the Environmental Compliance Certificate (ECC) application of the Project.

We will also be inviting 1 to 2 representatives from concerned stakeholder groups, such as civic service organizations (CSOs), people's organizations (POs) and non-government organizations (NGOs), in the barangay to participate in this social preparation activity.

The IEC meeting aims to provide an overview of the proposed Project and create an avenue for potential stakeholders to communicate their views and concerns regarding the Project. This activity is the first of the series of consultations that will be conducted as part of the Environmental Impact Assessment (EIA) for the Project.

The Company proposes that the IEC meeting be conducted in your office on **18 January 2022 (Tuesday)** from **9:00 AM to 11:00 AM**. We hope you can confirm if this schedule is acceptable so we can immediately inform the relevant stakeholders.

For questions and confirmation, you may contact Engr. Patricia Ann Go of the EIA Study Team at +63917-463-8582 or patricia.go@lci-envi.com.

Sincerely yours,

RENE R. MENDOZA

Authorized Representative
