Panimula tungkol sa Proyekto

Naglalayan ang **Advantage Concrete Industries Corp.** na idagdag ang mga sumusunod:

- **Pagpapalaki ng kiln capacity ng existing two lines.** Ang produkto ng mga *kiln* ng Lines 1 and 2 ay magiging **9,000 TPD** kada linya mula sa **5,000 TPD**.
- **Karagdagang two lines** na may kapasidad na **9,000 TPD** kada linya.
- **Pagpapalaki ng cement plant area** na magiging **120 hectares** mula sa **22 hectares**. Dahil ito sa pagtaas ng *clinker* at *cement capacity*.
- **Para masunod sa plano ng mga financial institutions o investors ng proponent.** Umaasa ang mga FI na may *clinker output* na **11.5 MMTPY** at *cement output* na hanggang **19.2 MMTPY**.

Mga Gamit ng Proyekto	
• Quarry Components • Limestone Crushing System • Clay Crusher • Cement Plant • Raw Material Storage • Limestone Storage • Additive Storage • Coal Storage • Stacker • Reclaimer • Feed bins for raw grinding • Raw Mill	• Clinker Silo • Coal Mill • Feed bins for cement grinding • Cement Mill • Cement Silo • Roto Packer • Bulk Loading Facility • Waste Heat Recovery

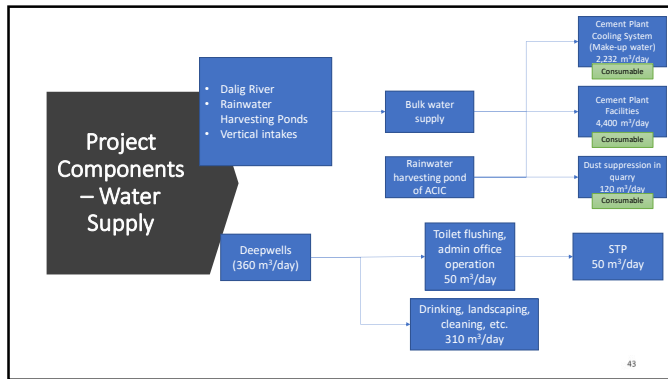

40

Mga Gamit ng Proyekto	
Power Source	• Total power requirement is 35 MW per line • Batangas Electric Cooperative • Proposed Alternative: in-house generation from co-generation facility via Waste Heat Recovery system.
Air pollution control	• Bag house filters • Establishment of buffer zone • Regular watering of quarry roads
Wastewater pollution control	• Siltation ponds, sediment traps, erosion barriers, and silt curtains • Wastewater treatment facility for domestic wastewater • Oil water separators • Oil spill management facilities

41

Mga Gamit ng Proyekto	
Support Facilities	
• Warehouses • Medical clinic • Fire station • Access roads • Power substation • Plant nursery • Explosive magazine • Guest House	• Administration building • Parking and truck marshalling areas • Water treatment facility • Water pumps and pipelines facilities • Staff and bunk houses • Motor pool and equipment maintenance facility • Solid and hazardous waste management facilities • Central Control Room (CCR)/Laboratory Building • Shops Area (Electrical, Machine, and Fabrication)

Pier Operation

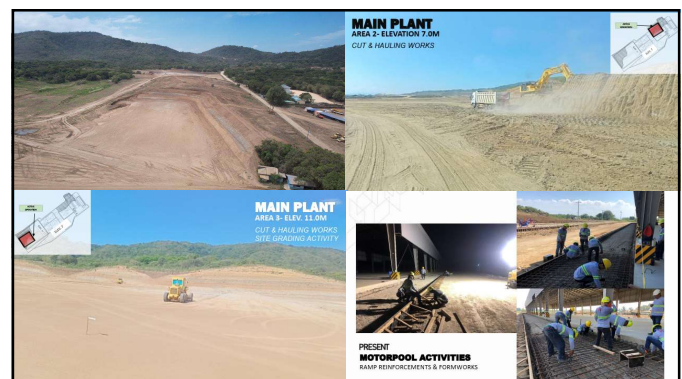

- 10,000 deadweight tons
- Concrete-structured with girders supported by reinforced concrete piles (20m x 30m)
- Support weight of:
 - Products of other locators
 - Cranes
 - Conveyor belts
 - Forklifts
 - Emergency facilities

Impacts	Mitigating/Enhancement Measure
Alakabok dahil sa pagawaan ng semento at pagmimina	- Pag-operate at pagpapanatili ng filter bags para sa gamit ng pagawaan ng semento. Pagdidilig ng mga kalye upang maiwasan ang alakabok Lahat ng imbakan ng produkto at materyales ay sarado upang hindi tangayin ng hangin
Pagtaas ng emissions tulad ng CO, PM, SO ₂ , NO _x , at heavy metals dahil sa mga gamit sa pagawaan ng semento at quarry	Tamang pagpapanatili ng mga gamit sa planta at quarry - Paglalatag ng Continuous Opacity Monitoring Systems (COMS) at Continuous Emission Monitoring System (CEMS) - Pagsasagawa ng source emission monitoring - Regular na pag-momonitor ng kalidad ng hangin - Pagpapalawig ng reforestation at rehabilitation bilang pagpapadami ng carbon sink
Pagkakaroon ng ingay dahil sa pagawaan ng semento at pagmimina	Tamang pagpapanatili ng mga gamit sa planta at quarry - Pagsasagawa ng noise monitoring Pagpapanatili ng puno at halaman sa paligid ng mga quarry areas - Pagsasagawa ng pagmimina sa umaga

ISSUES/CONCERNS/QUERIES	RAISED BY	RESPONSES
Please consider ways to mitigate the impacts of surface runoff which may affect our fishing grounds.	Hon. Mamerto Manalo, Barangay Captain, Brgy. Talibayog	- Siltation ponds will be provided in the cement plant and quarry areas to capture surface runoff - Drainage system in the cement plant and quarry areas will be constructed
We support this project because it will benefit the communities.	Hon. Ruel Medina, Barangay Captain, Brgy. Carlota	- Qualified local workers will be prioritized during hiring - Job counseling, job placement and skill training are being implemented by ACIC as part of CDP and SDP
Given that most of our constituents did not complete tertiary education, I am hopeful that we will be given the same opportunity to work in the facility.	Jolibert Obrador, Councilor, Brgy. Luya	The SDP in the EPRMP also included skills training such as heavy equipment operation, pipefitting, housekeeping, etc.
According to the applicants from our barangay, the proposed salaries for laborer and skilled worker did not meet the applicant's expectations during the interview.		The company will adhere to the labor code's minimum requirements.

86

ISSUES/CONCERNS/QUERIES	RAISED BY	RESPONSES
Conduct IEC in each barangay to discuss project benefits	Hon. Nelson Panganiban, Barangay Captain, Brgy. Luya	- FGDs will be conducted in each barangay by ACIC as part of their IEC program - FGD with fisherfolks in Brgy. Palikpikan was conducted on June 28, 2022
Project's potential adverse effects (dust).		The following mitigating measures will be implemented - Regular watering of quarry roads and areas - Impose speed limit to vehicles - Provision of buffer zones around quarry areas
Negative impacts on the sea and nearby vegetation which is the source of our livelihood (fishing and farming).	Virginia P. Dulay, Barangay Captain, Brgy. Encarnacion	Based on the FGD conducted with the fisherfolks, the fishing ground is far from the proposed project
Wastewater and surface runoff may affect the fishing community	Anali Lopez, Barangay Secretary, Brgy. Palikpikan	The following mitigating measures will be implemented to avoid the potential impacts of the proposed project to the coastal water and nearby agricultural areas: - Siltation ponds to capture surface runoff - Operation of STP to treat domestic wastewater - Regular watering of quarry roads to reduce dust emissions - Provision of buffer zone within quarry areas

87

ISSUES/CONCERNS/QUERIES	RAISED BY	RESPONSES
We also request for support from ACIC, especially for fisherfolks in the area.	Hon. Tessie Lopez, Barangay Chairwoman, Brgy. Palikpikan & Representative of Samahan ng mga Mangangisda sa Balayan	- Based on the FGD conducted with the fisherfolks, the fishing ground is far from the proposed project - Route of the pier will avoid the fishing structures - ACIC will coordinate with the barangay LGUs and fisherfolks for the schedule of the pier deliveries
During blasting, possible impacts might be vibration and dust.	Allan Villarín, Councilor, Brgy. Hukay	- ACIC shall announce to the barangays the schedule of blasting - Issuance of alarms and warning devices prior to and during blasting operations - Monitor vibration during blasting - Control blasting intensity to keep vibration within the safety limit
Proponent should inform the surrounding communities prior to blasting.		

88

89

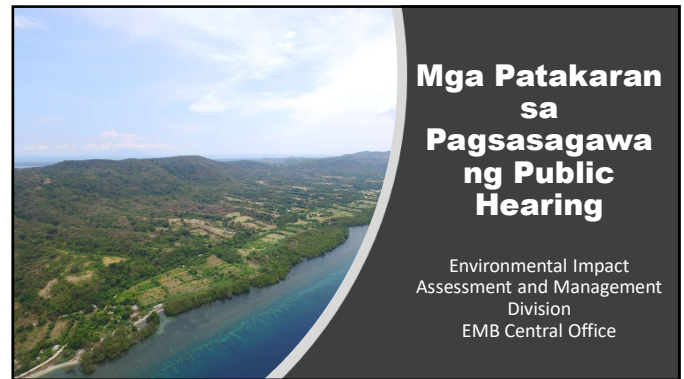

ISSUES/CONCERNS/QUERIES	RESPONSES
- Ang mga titulo ng mga relocatees ay hindi pa nabibigay. - Kailangan din sana ang mga titulo para mapa-semento ang mga kalye sa relocation sites. - Sana maayos ang access road mula Brgy. Encarnacion papunta sa baybayin ng dagat. - Pagkakaroon ng trabaho para sa mga apektadong residente. - Alikabok mula sa proyekto	- Kasalukuyang inaayos ng ACIC ang mga titulo. - Hindi parte ng kasalukuyang proyekto ng ACIC ang property dito. Isinasaalang-alang namin ang inyong isyu. - Sa kasalukuyan, madami nang lokal empleyado ang ACIC. - Itutuloy ang hiring ng mga lokal - Gumagamit ang ACIC ng mga water truck para mapigilan ang alikabok na galing sa lupa. - Maglalagay ng modernong mga baghouse filters at iba pang <i>mitigating measures</i> upang mapigilan ang pagkalat ng alikabok - Magsasagawa ng source monitoring at ambient air monitoring pag operational na ang cement plant.
Posibleng polusyon sa tubig	Maglalagay ng ilang mga siltation pond upang mapigilan ang pagdaloy ng maduming tubig mula sa planta papunta sa karagatan ng Balayan.

90

Impacts	Mitigating/Enhancement Measure
Pagkakaroon ng safety and health risks para sa mga trabahador	- Ang mga trabahador ay sumasalalim sa safety training. - Bimbigyan ng nararapat na personal protective equipment (PPE) ang mga trabahador
Mga trabaho para sa lokal	- Ayon sa datos, karamihan ng mga trabahador sa ACIC ay taga Calatagan at Batangas - Patuloy na nakikipag ugrey ang ACIC at kanilang mga kontratista sa lokal na gobyerno ng Calatagan para sa pangangailangan ng trabahador.
Increased occupational health and safety risks because of explosives use	- Malayo sa mga residente ang lalagyan ng mga explosives - Pagsunod sa blasting procedure - Pagsigurado na may angkop na pagsasanay ang gagamit ng explosives
Generation of benefits from the project	- Karagdagang trabaho para sa mga taga Calatagan at Batangas Livelihood para sa mga lokal - Kita sa buwis - Pagdami ng social services bunga ng CDP at SDMP

Mga Patakaran sa Pagsasagawa ng Public Hearing

Environmental Impact Assessment and Management Division
EMB Central Office

92

Mga Patakaran sa Pagsasagawa ng Public Hearing

- Ang public hearing ay gagawin sa Tagalog. Gayunpaman, maaari pa ring gamitin ang lengguwahe kung saan kayo mas kumportable.
- Ang sinumang may gustong sabihin sa open forum ay dapat itaas ang kanyang kamay upang mapayagang magsalita ng hearing officer. Ang mga komento at suhestyon ay maaari ding isulat sa ipapamahaging papel at ibigay sa tauhan ng DENR.
- Gamitin ang mikropono sa pagsasalita sapagkat ang mga pangyayari ay itinatala.
- Kung magsalita sa unang pagakataon, sabihin ang pangalan, opisina/organisasyon na iyong nirerepresenta at ang iyong posisyon.

93

Mga Patakaran sa Pagsasagawa ng Public Hearing

- Ang mga magsalita ay dapat bigyan ng kaukulang pansin ang nakalaang oras

Project Proponent – 10 minuto para ipaliwanag ang proyekto
EIA Consultant/PP – 15-20 minuto para ipaliwanag ang mga natuklasan sa kanilang pag-aaral
Stakeholders/Concerned citizen – 2 minuto bawat isa

(ang sinumang gustong magsalita ng mas matagal upang ipresenta ang mga importanteng impormasyon gayundin ang mga nangangailangan ng mga gamit tulad ng projector ay dapat magsabi sa hearing officer sa pamamagitan ng EMB personnel bago magsimula ang open forum)

- Lahat ng presentasyon at katanungan ay dapat maikli, malinaw at direkto. Iwasan ang paggawa ng mahahabang pagsasalita upang magamit ng husto ang partisipasyon ng publiko at upang makamit ang objektib ng public hearing.

94

Mga Patakaran sa Pagsasagawa ng Public Hearing

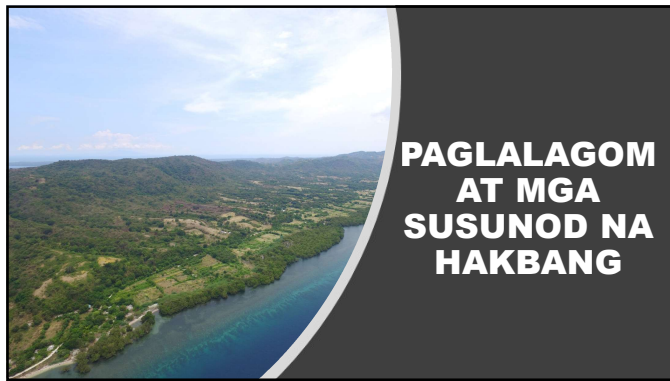

- Ang mga komento ay dapat gawin bilang kinatawan ng interes ng publiko at hindi pansarili ng sa gayon ay nakapokus ang lahat sa isyung pinag-uusapan.
- Makingin sa taong nagsasalita at iwasan ang paggawa ng anumang nakakabulabog. Ano man ang nararamdaman tungkol sa sinasabi ng taong nagsasalita ay dapat itong ipagtimpi at hintayin ang pagkakataong makapagsalita. Irespeto ang opinion ng iba at ang hindi pagsang-ayon ay dapat isatinig ng maayos.
- Ang hearing officer ay may karapatang palabasin ang indibidwal o grupo na patuloy na nakakagulo sa ginagawang hearing kung hindi pa rin ito tumigil matapos bigyan ng tatlong babala ng Hearing Officer.
- Kung maari ay tapusin ang Public Hearing at huwag munang umalis.

PUBLIC HEARING

<START OF TRANSCRIPT>

PH OFFICER: Ang sino mang may gustong sabihin sa open forum ay dapat itaas ang kaniyang kamay upang mapayagang magsalita ng hearing officer. Ang mga komento at suhestiyon ay maaari ding isulat sa pamamag... ipamamahaging papel at ibigay sa tauhan ng DENR. So, kung sino pong tataas ang kamay yun pong tatawagin ko hindi pwedeng sabay-sabay ano, hindi tayo magkakaintindihan. Ikatlo, gamitin ang mikropono sa pagsasalita sapagkat ang mga pangyayari ay itinatala, yun po ay ni-nonote po namin. Ika-apat, kung magsasalita sa unang pagkakataon, sabihin ang pangalan, opisina, organisasyon o inyong nirerepresenta, at ang inyong posisyon. Ano po maliwanag po yun. <Dead air> Okay, ikalima, ang mga magsasalita ay dapat bigyan ng kaukulang pansin ang nakalaang oras. Ano po, ako po ang magsasabi kung ano na... kasi minsan nagiging komplikado habang humahaba ang tanong nagiging komplikado, so ako po ang magsasabi kung i-cut po natin yung katanungan, and then yung project proponent po, sampung minuto para ipaliwanag ang proyekto, ang EIA consultant fifteen to twenty mini... minuto para ipaliwanag ang mga natuklasan sa kanilang pag-aaral, which is ginawa na kanina. Okay, stakeholders, concern citizen, dalawang minuto bawat isa, pwede kayong magtanong. Ang sino mang gustong magsalita nang mas matagal upang i-presenta ang mga importanteng impormasyon, gayundin ang mga nangangailangan ng mga gamit tulad ng projector ay dapat magsabi sa hearing officer, sa pamamagitan ng EMB personnel bago magsimula ang open forum. Okay, so kung sino mang may gustong i-presenta sabihin niyo po sa akin. Ika-anim, lahat ng presentasyon at

katanungan ay dapat maikli, malinaw, at direkto. Iwasan ang paggawa ng mahahabang pagsasalita upang magamit nang husto ang partisipasyon ng publiko at upang makamit ang objective ng public hearing. Ika-pito, ang mga komento ay dapat gawin bilang kinatawan ng interes ng publiko at hindi pansarili lang, nang sagayon ay naka-focus ang lahat sa isyung pinag-uusapan, tungkol lang sa proyekto. Ika-walo, makinig sa taong nagsasalita at iwasan ang paggawa ng anumang nakakabulabog o yung mga ingay, ano man ang nararamdaman tungkol sa sinasabi ng taong nagsasalita ay dapat itong ipagtimpi at hintayin ang pagkakataong makapagsalita. I-respeto ang opinyon ng iba at ang hindi pag sang-ayon ay dapat isa... isa tinig nang maayos. Ano pa, walang sigawan. Okay, ika...ika-siyam, ang hearing officer ay may karapatang palabasin ang indibidwal o grupo na patuloy na nakakagulo sa ginagawang hearing kung hindi pa rin ito tumigil matapos bigyan ng tatlong babala ng hearing officer. Okay, so ika-sampu, kung maaari tapusin ang public hearing at huwag munang umalis. Okay, yun lang po. So, malinaw po yung ating patakaran, ano po, so, pwede pong ingles pwedeng tagalog nasa sainyo po yan kung saan kayo komportable. So ngayon, umpisahan na po natin ang ating open forum. Uhhh... mangyaring itaas po lamang ang kamay kung sino po yung gustong magtanong at may lalapit po sainyo para ibigay po yung mikropono. Okay, sino po yung unang magtatanong? <Dead air> Hindi po... hindi po nakatingin si mayor.

PUBLIC: Ahhh... Isang pong magandang umaga sa...

PH OFFICER: Uhhh... sandali lang po ma'am, paki i-state po nung pangalan, saan po kayong barangay, at ano po ba kayo barangay konsehal or... okay po.

TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS

Proposed Cement Plant and Quarry Operation Expansion Project

Venue: Barangay Carlota Covered Court Calatagan, Batangas|Date:13 July 2023

PUBLIC: Ahhh... ako po si Julieta Celis po... barangay... sa barangay Real po, at ako po ay isa pong pangulo ng magsasaka sa barangay Real Farmers Association, at ahhh... okay po opo. Ako po eh ah... ang aking pong concern... sa ang akin pong katanungan sainyo po ay, ahh bilang pangulo po ng magsasaka, so ano po kayang magiging kaligtasan ng isang mag-uuhm... kami po ay... maggugulay po lahat ang aming mga hawak at sila po ay sa ngayon ay mga pang... mga gulay. So, ano po kaya ang magiging paraan para makaligtas ang kanilang mga pananim?

PH OFFICER: Okay ah, ang sasagot po nito ay ang grupo ng proponent. Sino pong sasagot sa grupo ng proponent? Ang katanungan ay tungkol po sa guluyan nila. Paano daw po magiging ligtas.

EIA PREPARER: Ah maraming salamat po ano. Nabanggit ko po kanina diba yung epekto nung alikabok.

PUBLIC: Opo.

EIA PREPARER: Sa mga guluyan,

PUBLIC: Opo.

EIA PREPARER: May nagtanong na po sa amin niyan dati. Ahh taga... mga taga Palikpikan.

PUBLIC: Opo.

EIA PREPARER: Yun po ito yung ginagawang kalsada. So, napansin daw nila yung mga tanim nila because of the... dahil po dun sa ginawang kalsada maalikabok, so parang hindi po nagbubulaklak no... hindi po natutuloy yung pag grow no. So, inaamin po namin, natural po yun at kung tayo po ay ma-eexpose sa alikabok. Tinitigan ko po yung lugar ninyo sa Real. Dito po sa mapa, in relation dun sa mga gagalawin na...

na area, medyo may kalayuan po kayo no, hindi po siya ganun kalapit no. Kung makikita niyo rin naman po sa mapa no. Kase nga po itong lugar natin sa Carlota ay napapkalayo na po dun sa area, pero ganun pa rin... ganun pa man din no. Ummm... dalawang source po siguro ma'am ano. Number one, during construction, syempre pag construction kung mapapansin niyo po may mga tinatapyas tayong... nakita niyo po kanina ma'am no may mga binubutas po tayong mga side tapos may mga <inaudible> talaga pong maalikabok yun. Pero dahil po sa kalayuan ng... ng project... ehh ng project dun sa area niyo minimal naman po yung magiging epekto no, hindi ho namin nakikita na maapektuhan yung mga taga Real. Pero baka kase lumapit tayo dito sa shale quarry later pa po yun no, hindi pa po ngayon. Pag natayo na po yung planta, pag nagbukas po tayo posible po no... na mayroong mga uhhh... alikabok na mangyari, pero depende po yan kung saan kayong lugar. Napansin niyo po pag may bundok... like ito po no... yung activity po natin sa likod ng bundok. So, kung meron po man yang alikabok, mapipigil na po nung pagpunta dito sainyo. So ganun po din ang tinitignan namin, dun sa area po ninyo, baka ho maprotektahan tayo dahil mas mataas po yung lugar ninyo kaysa dun sa pagmiminahan po natin ng quarry. Pero sa totoo po may epekto, para ho mag ano rin kayo no dahil, totoong may epekto lalo na pag nag alikabok. So, yung po ang ip-prevent no, sa construction hangga't maaari, yung sinabi po namin kanina diligan, magdilig para hindi maano. Pagdating po dun sa cement plant operation, meron po tayo lahat baghouse filter, so huwag po kayong mangamba na masyado pong maalikabok yung planta kase sila mismo, gaya ng sinabi ko kanina dapat pinipigilan nila yung alikabok dahil produkto na po nila yun, semento na po nila yun, kaya

silang dapat maglagay ng baghouse filter, higupin, para hindi po makarating sainyo.

PUBLIC: Salamat po sir.

EIA PREPARER: Take note po namin yung concern niyo sa barangay Real. Salamat po.

PH OFFICER: Okay, maraming salamat. So, maliwanag naman po no, nasagot po yung katanangan ano, hindi po masyadong maaapektuhan at meron silang gagawing mitigation para hindi kayo maapektuhan, ano po. So, next question po. <Dead air> Wag po kayong mag-alala hindi po nakatingin si mayor. Next question. <Dead air> Meron po ba kayong katanangan dun po sa iprenesinta o yung mga agam-agam. Itanong niyo na po ngayon, wala pong maling tanong, wala. May mali lang sagot, hindi joke. Sige po wala na pong tanong? Ibig sabihin na solusyunan naman, dun sa ano scoping pa lang, ano satisfied sila dun sa mga mitigation na iprenesinta. Yes, ma'am. <Dead air> Paki state po nung pangalan, anong barangay, at yun pong posisyon niyo sa barangay.

PUBLIC: Ako po si Virginia... Ay magandang umaga po pala sainyong lahat. Ako po si Virginia Dulay, Barangay Chairman ng barangay Encarnacion. Ang magtatanong lang po ako ma'am, bilang kapitan ang hangad ko po ay ang kasigurunan ng aking barangay, ang kaligtasan nila, at ang higit sa lahat bilang kapitan ehh... magtatanong po ako na talaga po bang yang gagawin nila ay makakas... gaano kasigurado na maliligtas ang ba... ang mga barangay lalo pa't ang gaya namin na malapit po sa mga dagat.

PH OFFICER: Opo, so salamat po kapitana.

PUBLIC: Salamat din po.

PH OFFICER: So, tinatawagan po naming ang proponent. Paano daw po masisigurado yung kaligtasan po ng taga barangay Encarnacion sa inyong i-implement na proyekto. <Dead air>

EIA PREPARER: Sorry po, ako po ulit. Kapitana maraming salamat po sa tanong ninyo. Alam niyo po ang pinakamagandang. Ahh... ano ba 'to, para mapawi yung inyong pangamba. Napakaganda po sana nung pinakita naming mapa kanina, can we just show po ulit. Kase po importanteng maintindihan din po natin yung relation dun sa project nasaan po tayo. Yun po yung isang magpapakampante sa atin no. Kase po pag naintindihan ninyo ngayon na dun pa lang pala sila magtatrabaho, dun lang sila gagawa, mas kilala niyo po yung lugar ninyo, makikita niyo po na maaaring hindi po kayo maapektuhan no. Hindi ko po sinasabi na yung barangay niyo po ay hindi maapektuhan kase po pumasok po kayo dun sa limestone, pero yung mga pangisdaan for example, tama po ba kapitana nandun po kayo sa kabilang banda no... sa kabilang side, tama po ba? Kung ma... ah, Pat can you show yung ano (*Present the map of Barangay Encarnacion*) yan po yung barangay Encarnacion, pero napakalaki po ng barangay niyo kapitana, di po ba? Yung nandun po sa taas na bundukan, yun lang po ang magagalaw no, yung medyo nandun po sa gilid. Yung karamihan po ng kabahayan ninyo no, yung mga.. mga nandito po sa kabilang... kabilang bahagi, so medyo mataas po yan, yun po yung ating terrain eh, slope pababa po kayo, tapos yung bundok, tapos po yung pababa, yun po yung project natin. So, kung meron po tayong gagalawin sa taas, ang magkakaroon po ng epekto sainyo kapitana yung area lang po na malapit dito sainyo. So, maganda pong makita niyo po ito, siguro po sa mga susunod po nating konsultasyon kay kapitan pwede nating ibigay ito kase dun lang po tayo gagalaw kapitana, dito po sa baba,

wala po tayong magagalaw no. So, yun po siguro yung magpakampante sainyo na medyo malayo po yung aking project. Kayo po ay nandito kase napakalaki nung barangay ninyo no, magmula po sa dagat, paakyat, meron pong portion ho talaga na magagalaw sainyo. So, kung meron pong mga maaapektuhan mangilan-ngilang bahay po siguro doon sa area na yun, ahh kailangan po talagang kausapin no dahil po pag nag start na po sila dyan eh primary po alikabok, ahh yun pong ating ma... ma... ma... mararamdaman. So, ano po no maganda pong nakikita niyo po yung mapa para nakikita niyo po kung nasaan kayo in relation dun sa project natin po. Salamat po.

PUBLIC: Salamat din po.

PH OFFICER: Maraming salamat po. Bukod po dun, may dagdag pa po kapitana no? Ito pong project na pinipresent tinatawag po natin na Environmentally Critical Project at ito po ay magbubuo, nirerequire po yung proyekto na magbuo po sila ng Multipartite Monitoring Team, na kung saan sila po yung ahh kumbaga arm ng ano po, ng EMB para i-monitor po yung compliance nila sa ECC at tsaka Environmental Management Plan ano po. So, in case po na may problema nandyan po ang Multipartite Monitoring Team or pwede niyo rin pong i-direkta sa amin, kung ano man pong ahh... hindi magandang pangyayari dun sa inyong lugar. Okay, next, next po sir.

PUBLIC: Uhh... ehem... isang magandang umaga po sa ating lahat. Ahh ako po si Nelson Panganiban, Barangay Captain ng barangay Hukay. Ahh ang akin pong...

PH OFFICER: Paki... paki ulit po sir. Sorry po hindi ko nakuha pangalan.

TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS

Venue: Barangay Carlota Covered Court Calatagan, Batangas|Date:13 July 2023

PUBLIC: Ako po si Nelson Panganiban po... ahh, barang ahh... barangay captain ng barangay Hukay. Ahh ang akin pong hilingin ako'y puno ng eh... unang-una, sa mga kabarangay ko, na hindi naman po related dun sa diniscuss natin. Ang amin pong laha ahh... kalahati ng populasyon namin sa barangay Hukay, ay ang dadaanan o dinadaan sa ngayon po ay pag-aari po ng Advantage. Kaya po ang tanong sa akin ng aking mga kabarangay, karamihan po, kung pag daw ba ay kinuha ng Advantage yung kanilang property, ay kung kami ba ay hindi bibigyan ng right-of-way, yun po ang aming hinihiling dahil nga yun nga pong sabi ko kalahati po ng barangay Hukay na populasyon doon dadaan sa pag-aari po ng Advantage. Kaya po, ahh yun po ang unang-unang hinihiling sakín ng mga kabarangay para agad malaman namin. kase unang-una pag yun ho sinaraduhan wala na po kaming dadaanan. Kung magaling po kung may... helicopter kami o ano man po. Ay ayun lang aming hinihiling sa Advantage <inaudible>.

PH OFFICER: Opo, so ang hinihingi niyo po yung right-of-way.

PUBLIC: Opo ma'am.

PH OFFICER: Ah sir engineer.

PUBLIC: Yun lamang po at maraming salamat PO.

PH OFFICER: Right-of-way po. Right-of-way po sir, sino pong sasagot? Attorney Mikee Rosal.

PROPONENT: Salamat po ma'am, ahh magandang umaga po sa inyong lahat, sa mga taga barangay po ng... ahh Calatagan, na sakop po nitong aming proyekto na cement plant. Ummm.. ikaw talaga Kap.. matagal na pong isinulat sa amin ni Capt. Nelson yung right-of-way na gusto nila, na

TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS

i-open namin. A-ahh, ayun po sa batas, ayun po sa batas, tayo po ah, kayo po ay, kami pala, ay obligated na magbigay po sa inyo ng daan, pero dapat babayaran niyo. Hindi, hindi under the law kase po talagang binabayaran po yun, wala pong ahh, wala pong libre. Kahit nga po ang ating gobyerno ang makiraan sa ating mga lupa na pag-aari natin na pribado ay binabayaran din po yun ng gobyerno. Oo, sa pamamagitan ng expropriation. So, yung sainyo po right-of-way yan po ay pwede ring expropriation, pwede rin naman po na tayo na lamang ang mag-usap, kung ayaw na nating ipadaan sa korte pa. Uhm hindi pa po namin nadedesisyunan kung saan ba talaga yung dapat na mga daan-daan, parang hanggang ngayon po ay nandun pa tayo sa stage nang pag-aaral. Ahh pero wag po kayong mag-alala Capt. lahat naman po ng ginagawa po ng Asturias o Advantage na ngayon ay para po dito sa bayan ng Calatagan para po makapagbigay tayo ng kagaanan ng buhay ng mga tao dito kaya po ito ay napiling lugar na puntahan ng ahh <inaudible> para makatulong po siya sa mga taga rito. So, hindi po magiging problema yung problema niyo, sosolusyunan po yan sigurado ng Advantage. Marami pong salamat.

PUBLIC: Ahh ma'am...ahh, ngayon pa lang po ay kami po ay nagpapasalamat na at may isasagot ako sa nagtatanong sa akin. Kase karamihan po ng talagang maaapektuham, talagang lalapit sa akin kung papaano daw ang mangyayari sa amin. Yun lang po ma'am at maraming salamat po.

PH OFFICER: Okay po, so ipapakita po natin yung mapa, pero bago po yan ahh... pwede po sigurong i-consider na part ng Social Development Program nung company ano po, yung probiso ng ano ng right-of-way. So, papakita po yung mapa para makita natin saan po ba yung sinasabi niyong daan.

TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS

Venue: Barangay Carlota Covered Court Calatagan, Batangas|Date:13 July 2023

EIA PREPARER: Okay po, Capt. ipakita ko lang po no, para ho sa benefit nung mga hindi po taga dito no, lalo na yung mga bisita po natin. Ang barangay Hukay po is nandito po sa baba, so baba no... tulad din po kayo ng uhm, Encarnacion, medyo malaki rin kase yung lote niyo na nasasakupan. Naaalala niyo po dati, nung dati dati pa nung may maliit po tayong kalsada na lagusan magmula sa Baha, Talibayog, Palikpikan, palabas na po ng Balayan. So, ito po yung tinitignan natin Capt. no, so kung yung access na pinag-uusapan namin, ito yung pinag-aaralan yung sinabi ni attorney, kase nga po dito yung ating lugar, pagpapunta po dun sa lugar sa kabila eh napakalayo niyo na rin naman po no. So, kung ano po yung magiging access, pag-usapan po natin ito, isama naming sa report namin yung inyo pong concern. Salamat po.

PH OFFICER: Thank you very much. So, ano po satisfied? Okay, so meron pa pong katanungan? Yes, ma'am. <Dead air>

PUBLIC: Magandang umaga po sa ating lahat. Ako po si Lani Catapang, ako po ang Barangay Secretary ng barangay Palikpikan ano po. Uhm tanong ko lang po uhm, ano po kaya yung kasiguraduhan ng mga mamamayan naming sa barangay Palikpikan na hindi po maapektuhan yung kanilang ahh pangngisda. Kasi 90% po ng aming mga mamamayan ay ang main source of income po ay pangngisda, ano po. Kasi po uhm, nung lumipat na po yung mga taga Gapas sa amin, sitio Gapas, Talibayong, sa ngayon po ay hirap na hirap na po doon sa pinag ahh... babarahan ng bangka ano po. So, tinatanong lang po yung seguridad po talaga na hindi po maapektuhan ang pangngisda ng mga mamamayan namin sa barangay Palikpikan. Maraming salamat po.

PH OFFICER: Salamat po. Yun po ay naipaliwanag na kanina, pero i-refresh po natin, tawagin po natin si Engr.<Dead air>

EIA PREPARER: Mapa po ulit ano, yun yung aming basehan ng ano no, para ho sa kaalaman ng ating mga bisita, ang barangay Palikpikan po ay nandoon sa taas, sa taas pa po. No hin... dati po kami po ay, sino ba yung kasama natin dito? Kasi pag pumupunta tayo sa site, natural na galing ng Balayan, dyan po tayo dumadaan sa inyo ano sa Palikpikan hanggang makarating. Yung pong concern ng mga taga-Palikpikan, hindi lang po ng mga taga-Palikpikan, kasi karamihan po ng mga taga-Baha at Talibayog, ay nandoon na rin po sa ibang bahay sa Palikpikan. Yung concern na baka ho daw hindi sila makapangisda, yung binabanggit nyo po, kaya po kami nagkaroon ng FGD, dalawang beses na po no, kinausap natin yung mga fisherfolk, dahil po inaalam namin kung doon sa may pier, kasi yun lang naman po ang structure na mag..kung sakali po ay magpipigil sa inyo na puntahan. Nakita nyo po yung mapa ma'am, magmula po doon sa Palikpikan libreng-libre ho kayo maka... makapangisda dito po sa tapat. Can you ano Pat pa-zoom... zoom in, zoom out, zoom out. Yun po, so yung nakikita nyo pong pula, yun lang po yung pier, sa lahat po ng project component natin, yan lang po ang nasa dagat. So kung merong pong hindi ma-aaccess yung mga mangingisda, ay doon lang sa area na 'yan. Kaya po sabi namin, hindi kayo makakapunta doon dahil po malalaking barko po yung dadaan. Sa operation na po ito ma'am ha, may mga barko po, and during construction, may mga construction po tayong pagpipiloto... ay pagpilot no, so medyo hindi po talaga makakaraan doon. Doon lang po sa area na 'yan, pero bukod po dyan, wala po tayong ibang structure na ilalagay, malayang-malaya po yung ano... mga mangingisda na makapalaot. Isa pa sa reason kung bakit namin

TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS

Venue: Barangay Carlota Covered Court Calatagan, Batangas|Date:13 July 2023

kinausap dahil nga yung concern ninyo, naparating nyo po sa amin kasi yung... yung epekto sa mangrove 'no, kaya po natin, kasi importante po sa inyo yan no. Kaya sinabi namin sa kanila, sa Advantage, yung kahalagahan po nung corridor na yon kasi ho may mga nangingisda pa nga po doon sa area na iyon. Yung kasiguruhan po, nakita nyo po sa mapa, wala pong haharang dun sa area nyo sa Palikpikan, basta po kayo 'no, outside of the MPSA, in fact, nasa Balayan na po yung Palikpikan, so malayo na po talaga kayo dun sa area, so hindi po, so sa tingin po namin, hindi po makakaapekto sa inyo. Salamat po.

PH OFFICER: Okay thank you po. Next question meron pa po? <Dead air> Meron pa pong katanungan? Kung wala na po, meron pong nagpapatanong. Wala na po, wala na? Yes ma'am, baka yun namang itatanong ko, sige ma'am kayo na po. Yes ma'am, attorney.

PUBLIC: Good morning po. Attorney Liezel E. De Mesa po ng DENR PENRO Batangas. So ang una pong tanong namin ay, doon po sa pagtatayuan ng pier,ahh... meron po bang na-conduct na study as doon sa kung mayroong mga corals na madadaan doon po sa part na yon, and second po, ahh... correct us po kung mali kami, base po sa record namin, yun pong MPSA na pinaguusapan natin, na hawak po ninyo ay currently expired po, expired. So, gusto po namin malaman ano po yung status ng renewal ninyo kasi kung atin pong... kung atin pong sa simpleng pag-uusap, hindi pwedeng magkaroon ng kahit anong gawain sa loob ng MPSA dahil ito po ay expired. So gusto lang po naming malaman, kung ano pong status ng renewal ninyo para po doon. Salamat po.

TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS

Proposed Cement Plant and Quarry Operation Expansion Project

Venue: Barangay Carlota Covered Court Calatagan, Batangas|Date:13 July 2023

PH OFFICER: Maraming salamat po, attorney. So dalawa po yung katanungan, una yung marine biota assessment at ang ikalawa yun pong MPSA. So sino pong sasagot sa ibang proponent. <Dead air>

EIA PREPARER: Maraming salamat attorney. Unang-una po, ahh nag-expire pero na-extend. Kasi po hindi po kami gagalaw kung hindi po siya extended. So na-extend po siya for another 10 years, matagal din ho yung negotiation doon. So hanggang 2032 pa po yung extension sa ngayon po 'no. Kung ano po, bigyan nalang po namin kayo ng copy din, opo so, na-extend po siya, nag-expire siya ng 2022 'no so na-extend po siya ng 2030... hanggang 2032. Yung pangalawang tanong po ninyo, on the... meron po tayong coastal resource map, ma-acknowledge po namin, kitang-kita, hindi naman natin itatanggi, kung sakali binura namin dapat ano, so napakaraming mangrove doon sa area 'no, so marami pong mangroves dun sa area. Acknowledged po namin 'yon kaya nga po dun sa mga kalsada na tinatayo, hangga't maaari damihan yung siltation pond, yun po yung aming recommendation para ho di dumaosdos yung lupa dun sa mangroves, ganoon po 'yon. Pangalawa po, nag... ahh yung area na gagalawin, doon lang po sa tapat ng pier, yung nakita kanina, meron pong... kailangan po kasi natin ng access attorney, in fact ang ginawa po ng Advantage, tinignan dun sa mapa, kung saan yung may puwang na, kasi doon kami papasok. Pero yung puwang na iyon, medyo makipot pa po 'no, so, kailangan pa pong laparan. Nag-attempt na po kami mag-file ng balling out permit for the mangrove, nagkaroon lang po ng issue kasi hinanapan po ho kami ng FLAg sa tenurial instrument. So, yun po yung ginagawa po ngayon ng Advantage. Wala pa pong gagalawin dun sa area hangga't hindi po napa-finalize yung FLAg at yung paggawa po, pagsecure nung

ating earth-balling po 'no, yung tawag don, yes ma'am opo, so dun po kami pumapasok. Salamat po.

PH OFFICER: Attorney nasagot po? Okay, so nasagot naman daw po, satisfied na siya. Next, si ano, si... from ano, from, CENRO Calaca.

PUBLIC: Good morning po sa lahat. Hindi... ako po'y empleyado ng gobyerno, pero ako po'y taga-Calatagan. So tatlo po yung aking sasabihin, isang nagtatanong ako, isang opinyon ko kasi po ako po'y matagal na dito sa Calatagan <inaudible>. Kung ano pong iniisip nila, agam-agam nila, ay ganoon din po ang aking naiisip. Ang tanong ko po, meron pa po kayong ibang ganitong proyekto o quarry sa ibang lugar na malapit sa dagat din, baka meron sa Pangasinan. So, ang opinyon po, matagal na po kasing agam-agam 'yan dito eh, ang tagal ko na rin dito naninira... baka pwede po yung mga nasa barangay na nandito rin na umaattend ng mga ganyang ganitong public consultation ma-expose din sila doon diba po? Makita nila yung actual, yung nag-ooperate sila, malapit doon sa dagat, makausap nila yung mga mangingisda, kung anong nangyayari sa kanila, na magiging mangyayari rin dito sa atin. Yun lang po.

PH OFFICER: Engineer, baka pwede daw ma.. kumbaga ma-expose sila sa ano.. parang field exposure.

EIA PREPARER: Kami po ay nagpupulong-pulong kasi sa dami po ng project, inaalam ko kung ano ang nasa tabing dagat. Uhm sa ngayon po, wala pong parehong-pareho na cement and quarry na nasa tabi ng dagat. Marami silang planta sa grupo po 'no, pamilyar naman po kayo sir sa grupo 'no. Marami po silang planta na nasa tabi ng dagat pero ang pinakamalapit po sa semento ay yung nasa Sta. Cruz, Davao del Sur.

TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS

Proposed Cement Plant and Quarry Operation Expansion Project

Venue: Barangay Carlota Covered Court Calatagan, Batangas|Date:13 July 2023

Yun po ay grinding plant ng semento. So, ang mangyayari po doon idedeliver yung clinker dun sa planta, dudurugin yung clinker, ibabag yung semento at ilalabas, ginagawa na po yon, sa Sta. Cruz, Davao. So isa po 'yon, bukod po doon wala na ho ata akong maibigay, pero yun po yung pinakamalapit sir. Ayan ho yung pinakamalapit in terms of pareho ng process.

PH OFFICER: Okay po. Meron po kasi sa Mabini, Batangas pero stop operation sila ngayon, stopped ang operation nila. De, kasi ang kanilang gusto, exposure lang naman para makita nila yung actual operation, kung paano ina-address yung ano discharges ninyo 'no. Okay next question, yes ma'am.

PUBLIC: Follow-up question lang ano po ma'am. So, okay po yung sa pangingisda kanina ano po, ang talagang problema po ngayon namin doon ay hindi lang po naintindihan yung question kanina is yung barahan po ng mga bangka, kasi katulad nga po ng nasabi ninyo kanina, na from Baha, Talibayog na-relocate na po sa lugar namin. So, yung may mga bangka po dati, nandudoon na po is ang naging problem nga po pagka may bagyo dahil lumayo po sila sa tabing-dagat hindi nila alam sira na pala yung bangka nila sa sobrang layo ano po, so yung po yung problema yung barahan po talaga ng bangka.

PH OFFICER: Yung parang taguan ng bangka...

PUBLIC: Parking po... parking

PH OFFICER: Parking, opo. Attorney yung parking daw po ng bangka, yung concern nila.

TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS

Proposed Cement Plant and Quarry Operation Expansion Project

Venue: Barangay Carlota Covered Court Calatagan, Batangas|Date:13 July 2023

PROPONENT: Ikaw ha... ikaw... ikaw ma'am ha, alam na alam mo naman yung sagot diyan eh. Yun kasi pong mga taga Baha, Talibayog, uhmm wala na doon sa area, alam nyo naman yon so, yung mga bangka at uhh... mga bangka nila na galing sa Baha, Talibayog, most of them binenta po nila, tapos ang ginawa naman namin, ipinamigay namin doon sa mga hindi pa ever nagkakaroon ng sariling bangka. Ang sabi lang namin, eh bahala na kayo kung saan nyo ipa-park yan or kung malapit lang yung nilipatan nyo, kasi kanya-kanya pong lipat doon eh, kung saan nila gusto. Binigyan namin sila ng kalayaan mamili, uhm meron po kaming dinesignate na parking area ng mga bangka, pansamantala doon sa tapat po ng Magsino property, area po ng Palikpikan... diba kapitana. Kaya lang baka nalalayuan po sila doon, so sabi ko, edi doon kayo sa malapit sa inyong nilipatan. Marami po sa kanila nasa Baranggay 4 ng Balayan ano po, diba ma'am? Ngayon uhm... aminado naman po kami na... ang pinaguusapan kasi po natin dito is Calatagan, ngayon yung Calatagan talaga ay yun yung MPSA o yun po yung cement plant. Yung sinasabi naman ng mga taga-Barangay Palikpikan, yun po yung mga pinapamili ng grupo namin ngayon kasalukuyan sa Balayan, iba naman pong project iyon, that is our food... integrated food complex. So, kaya po nagkakaproblema siguro kasi naaalis din yung mga bangka na nandito sa baybayin ng Palikpikan. Iyon po, pero ibang project naman po iyon at yun po para sa kaalaman na rin ng mga taga-Calatagan, meron po kaming uhh... proyekto nina Mayor JR Fronda doon sa mga mangingisda ng Balayan, in fact malaki po yung proyekto namin para sa mangingisda ng Balayan doon sa area ng Palikpikan kung saan doon po namin halos inilagay lahat ng mga lumilipat from... uhh yung mga huling lumipat from Talibayog at saka yung mga lumilipat galing Palikpikan, pinagsasama-sama po

namin doon kasi doon yung magiging area naman namin para po sa mga mangingisda. Kasi alam na alam naman po natin yung Palikpikan, sentro po yun ng pangisdaan. Ayan, okay na ba ma'am? Salamat po.

PH OFFICER: Okay, may katanungan pa po?

PUBLIC: Magandang umaga po sa atin lahat, ma'am at sir. Ako po si Nanay Leoncia Maglaya, pangulo po ng Senior Citizen sa Barangay Palikpikan po ulit. So, ang concern ko lang po..

PH OFFICER: Ma'am excuse po.

PUBLIC: Syempre po, sa mga nakatatanda.

PH OFFICER: Ma'am sandali po, ma'am pwede po paki ulit nung pangalan.

PUBLIC: Leoncia Maglaya po.

PH OFFICER: Leoncia Maglaya. From barangay...

PUBLIC: Barangay Palikpikan

PH OFFICER: Yes ma'am.

PUBLIC: Ako po ay Senior president po ng aming barangay, so ang concern ko lang po ay ang tungkol po sa kalusugan ng aming mga... mga mamamayan na nagsisitanda na, syempre kung sa ngayon po, hindi pa ramdam yung epekto alikabok or kung ano man po na nagmumula sa inyo pong proyekto. So, ang aking lang pong concern doon, kung sakali po na dumating na po yung panahon na may operation kayo, hindi naman po maiiwasan na madala ng hangin yung mga alikabo ano po, ang akin lang pong concern ay yung tungkol sa kalusugan, just in case po na maapektuhan po. So

TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS

Proposed Cement Plant and Quarry Operation Expansion Project

Venue: Barangay Carlota Covered Court Calatagan, Batangas|Date:13 July 2023

yung lang po ang aking katanungan yun pong assurance po sa kalusugan mula po sa Advantage. Salamat.

PH OFFICER: Okay tungkol po sa kalusugan ano po? So, yun pong company, yun pong company ano po 'yan. Yung <inaudible> ECC i-momonitor po nila yung kalidad ng hangin quarterly para ito po ay sisiguraduhing hindi po makakaapekto sa mga constituents po ng barangay Palikpikan ano po. Bukod doon, may nasabi po ako kanina na meron pong Multipartite Monitoring Team na itatayo o i-oorganize at sila po... baka miyembro nga po kayo non eh kasi kayo ang barangay Chairman.. ahh pangulo, pwede siyang member kasi member siya ng ano, ng senior citizens. Pwede kayong maging miyembro doon, so isa po kayo sa magbabantay ano po, opo so nasagot po ba yung katanungan nyo? In case po na may maging halimbawa po, may maging problema, meron po tayong tinatawag na... na i-oorgani... i-dedeposit po na Environmental Guarantee Fund, ngayon po ay intended na kung halimbawang makaapekto sa health, makaapekto sa kabuhayan, yun po ang gagamitin para po i-assist kung ano man po yung negative impact ng project sa inyo. So ayun po.

PUBLIC: Maraming Salamat po ma'am

PH OFFICER: Okay ma'am, sige po. Next, ma'am.. yes ma'am.

PUBLIC: Magandang umaga po sa ating lahat from Barangay Palikpikan po Barangay Captain.

PH OFFICER: So, Barangay Captain ng Palikpikan

PUBLIC: Opo so, eto po naman ay naitanong ko na sa... sa tauhan ng ating Advance. So, siguro lang hindi pa napapaabot kay Attorney dahil hindi pa po ako nakakapagsend ng letter. Kasi po yung ginagawang daan, doon

TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS

Proposed Cement Plant and Quarry Operation Expansion Project

Venue: Barangay Carlota Covered Court Calatagan, Batangas|Date:13 July 2023

po siguro po alam naman po natin lahat na ang daan ay doon simula sa Barangay Tanggol hanggang doon sa Baha. So, nabisita po namin itong nalagyan ng kanal, attorney yun pong nalagyan ng kanal, nakita po namin na ang maraming buhos ng tubig na magmumula doon sa daan sa kanal ay sa amin, sa Barangay Palikpikan.. sa ilog ng Barangay Palikpikan at nakita rin po namin, kasi nagbisita po ang barangay officials dahil magtatag-ulan po talagang kami ay nag aala-ala. Mas malaki pa po yung imburnal... anong tawag doon... imburnal ng sa itaas kesa doon sa imburnal ng aming tulay na dadaanan. So, ang ala-ala po namin ay masyadong babahain ang dadaanan naming tulay, at wala pa po noon, ay masyado na iyong binabaha, edi lalo pa po ngayon, kaya po nagaala-ala ang mga tao at mga barangay officials. Ang sa amin po ay paki... paki-check natin... kami naman po ay hindi tumututol sa projects ano po, kami po ay hindi nag-aagainst sa project ng Advantage, so kaya lang po ay pag-aralan po natin mabuti, paki-check po, kasi tinignan po namin ay mukhang babaha ang Barangay Palikpikan at maaapektuhan ang kabahayan dahil po ng maliit, maliit yung aming ipinagawang tulay, maliit yung dadaanan nung ng pinaka... imburnal, mas malaki yung nasa sa itaas na sanlaan, at nakita po namin ang buhos ng tubig ay doon sa aming Barangay Palikpikan, sa ilog, ay maliit po ang imburnal ng aming ilog, at maliit po ang aming ilog. So kami po ay nakikiusap sa pangunguna ni Attorney sa kaniyang... sa kanilang mga engineer na tingnan mabuti, pag-aralang mabuti. Kawawa po naman ang mga kabahayan sa tabi ng ilog ng Barangay Palikpikan, babahain po sigurado pag nag-uulan. Maraming maraming salamat po.

PH OFFICER: Okay salamat po Kapitana. So, sino po yung gustong sumagot pagdating po doon sa drainage?

TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS

Proposed Cement Plant and Quarry Operation Expansion Project

Venue: Barangay Carlota Covered Court Calatagan, Batangas|Date:13 July 2023

PROPONENT: Maraming salamat po Kapitana, ako na po sasagot no, in behalf of the company. Kasi tinignan din po namin yung area nayo ano, ang una namin naging problema noon dati is yung alikabok dahil nga doon sa kalsada ano. So ngayon po naiintindihan namin yung situation doon sa road project, pero ito pong ano, ini-improve po natin yung flow, kasi ang gusto po natin mapalabas agad yung tubig sa dagat ano. Iyon po yung ating channel improvement project, so yung nakikita niyo pong malalaking... malalaking... tan... uhmm culvert, ang purpose po 'nun, kaya po sila malalaki ay para makapag daloy ng mas malaking tubig ano. So siguro po pag usapan po ng engineer ng Advantage, maikwento po sa inyo kung ano yung design kung bakit po ganon kalalaki. Kasi nga po naman 'pag nakita niyo ang laki, parang ang laki nito bakit parang ang laki ng mga culvert na nandoon. Pero actually po ang intensyon po natin is maipalabas yung tubig na nanggagaling po sa itaas para hindi po kayo babahain. Iyon po yung ating dapat gawin ano, so magset nalang po kami ng... siguro ng meeting with the... with the Advantage para po maayos yung situation na iyon. <Dead air>. Okay, note po namin, sinigundahan po ni Mayor yung inyong concern dahil nga po nagkaroon tayo ng bottleneck doon sa dulo. So ayun po yung pag-aaralan po ulit ng Advantage ano, so pag usapan po naming ulit sa inyo.

PUBLIC: Opo, kasi tama po namang malaki yung imburnal niyo doon, pero dapat po mapalaki rin yung dadaanan doon sa amin, ano po? Kasi maliit po yung dinadaan sa amin kaya po binaha... binaha po talaga ang aming kabahayan.

PH OFFICER: Noted po. Tinignan po nila, pag-aaralan po nila iyong area na iyan ano po. Sinigundahan na po ni Mayor.

PUBLIC: Maraming salamat po.

PH OFFICER: Okay po. So next question, meron pa po? Representative po from CENRO may tanong kayo? Yes ma'am.

PUBLIC: Attorney Ma'am Mikee, may itatanong po lang ulit ako. Gawa po nung sa amin po, yung ginagawa na ho ngayong kwan doon sa... sa... aplaya dun sa may tubigan... yung binabakuran sa may tabing dagat. Nagtatanong po sila sa akin, kapitana lagi niyong sinasabi yung daan na padagat, papaano po ang punduhan namin? Ay kako hindi naman natin napapagusapan ang tungkol sa punduhan. Lagi po nilang itinatanong na kung saan daw... kung bibigyan niyo... kung sakop niyo ang dagat, saan sila magpu-punduhan mga mangingisda? Mga bangka?

PH OFFICER: Kapitana alin po ba iyan, yung kay Ernita property?

PUBLIC: Opo, yung binabakuran na pong tubig...

PH OFFICER: Kapitana hindi po iyan parte nito, hindi po iyan kasali sa pinaguusapan natin. Ibang area po 'yan. So tayo nalang po mag usap, kasi magugulo po eh.

PUBLIC: Kaya po naman ako'y nagtatanong ma'am, ay pinaguusapan narin yung tungkol sa punduhan kaya po ako ay nagtanong na rin.

PH OFFICER: Opo, eh kasi mayroon pong taga-DENR tayo rito na ang focus lang po is Cement plant atsaka Quarry operations natin expansion project, iba po yang area na yan kapitana.

PUBLIC: Salamat po.

PH OFFICER: Salamat po. So tapos na po yung query ni kapitana, next po. Yes sir?

Venue: Barangay Carlota Covered Court Calatagan, Batangas|Date:13 July 2023

Legal Officer: Ah good morning, ako po si Attorney Delas Alas, legal officer po ng munisipyo ng Calatagan. Actually, ang gusto lamang pong malaman ng aming mga kababayan na taga-Calatagan, eh paano po ba ninyo mapoprotektahan ang mga kalapit na barangay na Carlota, Encarnacion, Hukay, kung sakali pong magsisimula na ang inyong operasyon, yung kanila pong kabuhayan pano po natin mapoprotektahan? Yung kanilang kalusugan baka po ganon? At yung kanilang mga daan na baka po masakop na, ayon po kasi ang kanilang nasasabi sa akin sa akin pong pakikipagtalastasan sa kanila. Ano po ang kanilang assurance, ngayong kanilang kabuhayan, kalusugan, at mga daan para makapunta sa kanilang hanapbuhay ay masisigurado po namin, ninyo po. Marami pong salamat.

PH OFFICER: Okay po, so maraming salamat po attorney sa inyong katanungan. So although kanina napresent na po yung mga mitigation, yun pong pagdating po sa people aspect and also the health, people aspect, and physical noong pagdating po sa kalsada. Siguro engineer baka gusto niyo pong magdagdag para po baka hindi po masyadong na ano po... na-pick up po ni sir.

EIA PREPARER: Ang hiram sagutin nung tanong, dahil wala pa po yung project. Kasi lahat po ng mga assurance natin, yung mga mitigating measures no na nasabi ni ma'am nakalista po lahat 'yan. Kung papaano mababawasan yung epekto sa mga karatig na lugar, napakita naman po namin sa inyo kanina sa planta palang, magkakaroon po sila ng mga baghouse filter para hindi po masyadong maalikabok. So andami pong mga mitigating measures, pero syempre kung tatanungin niyo po yung assurance, iyan po ay magkaka-kitaan lang kapag nandiyan na po yung project. At gaya po nung sinabi kanina nung kasama natin sa DENR, meron po tayong Multipartite Monitoring Team, ito po ay

pinangungunahan ng local government unit kasama po ang of course ang munisipyo ng Calatagan at ang mga barangay na naapektuhan. Iyon po ang pinakamabisang paraan para masigurado natin, na yung mga kino-commit po ng kompanya ngayon ay magagawa 'pag iyan po ay ini-implement na. So I think, kung magiging instrumental po kayo ano para mapalakas kung monitoring na gagawin ng munisipyo ng Calatagan, kasama ng mga barangay Captain po natin, ay ma-aassure po yung mga kasama natin na talagang ginagawa po nila yung kanilang mga naipangako ano dun sa ano. Medyo mahirap po kasi sir kasi future ano po 'tayo ano ang tinitingnan, so ayun po yung sa MMT po natin.

PH OFFICER: Sa SDP... SDP, oo. So ang magiging head naman po niyan si Mayor, oh baka kayo pa po attorney ang i-assign ni Mayor ano po so kayo ang magiging head ng Multipartite Monitoring Team. Mayor, kayo po ang head ng Multipartite Monitoring Team, ngayon kung ayaw ni Mayor ay baka si attorney or si MEMRO ano po. So may dagdag po na information si sir Mark Abing tungkol po dito sa katanungan niyo.

PROPONENT: Ah ganto po yun, 'pag ka na-issue na po yung ECC, yung sa concern ni sir, adherence lang po sa ECC conditions po ang sundan nila, kasi planning tool naman po yung ECC eh. So nandun na po yung mga guidelines po ano para ma-mitigate kung ano po yung epekto po nung project sa environment. Opo.

PH OFFICER: Okay, so Attorney okay na po? Okay na po sir. May katanungan pa po? Kasi kapag hindi kayo nagtanong si Mayor ang magtatanong. Eh pag si Mayor ang nagtanong aabutin tayo ng alas-singko.

PUBLIC: Magandang umaga po, ako po ay si Julien Gomez na ngayon po ay nasa Real, dati po ako ay nasa Carlota.

PH OFFICER: Sir ano pong pangalan?

PUBLIC: Julien Gomez.

PH OFFICER: Julien Gomez, ng barangay?

PUBLIC: Real po ngayon. Pero ako po'y may lupa sa Carlota, kaya po ako'y nag-kwan din sa inyo ay ang aking problema sa daan. Ngayon po, nai-kwan ko na po kay Kapitan, tapos ay nagpunta na rin po ako kay Mayor. Na kung bakit naman pinasara yung daan ko eh hindi po naman nabibili ang aking lupa. Pero ngayon po ma'am paki- <inaudible>. Ngayon nandito po ang daan ko sa Encarnacion, dito po ako dadaan eh ang mga security na ay 'eto na, sa labas pa ng daan ko. Eh ako ay ilang beses nang humarang doon <inaudible>.

PH OFFICER: Bali ang sinasabi niyo pong daan ay access papunta sa inyong lupa?

PUBLIC: Oho, doon po sa Encarnacion paahon.

PH OFFICER: Okay, so sino po ang sasagot doon? Mayroon daw po siyang lupa sa Carlota ay isinara na daw po yung access papunta sa kaniyang lupa. Iyon po yung kaniyang kwestyon.

PROPONENT: Iyon po ba yung dahil pinaluwagan yung daan? Nasarahan po kayo?

PUBLIC: Opo, tinambakan po sadya eh. Nung tambakan pa ay noong kapistahan pa ng Carlota.

PROPONENT: Ahh... baka ano... bakit hindi niyo po pinaalis yung ano?

TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS

Venue: Barangay Carlota Covered Court Calatagan, Batangas|Date:13 July 2023

PUBLIC: Alam niyo po, plano kong alisin iyon. Basta ako'y nakakuha ng tao kaya kong ipaalis, ngayon kailangan din po na malaman ninyo. Malaman ng Kapitan at malaman ninyo.

PROPONENT: Pero nakakadaan po kayo sa ngayon?

PUBLIC: Hindi nga ho makalampas ang sasakyan ko.

PROPONENT: Dahil po hinarangan talaga nang sadya?

PUBLIC: Ang kaya po lang dumaan ay single na motor.

PROPONENT: Aayusin daw po kaagad.

PUBLIC: Oo eh talagang kwan. Iyong lupa na iyon, ipagbibili ko rin iyon kaya nga lang hindi pa tama, doon sa presyo ay hindi pa tama. Dahil ang bibilhin ko doon... ang ibibili ko ay lote, ngayon ho sa syam kong anak, saan tatayo ang mga anak ko? Duon sa isang libong square meter lang po na ipagbibili, kaya nga ako ay naghahantay na itataas-taas talaga.

PROPONENT: Kaya pala po isinara talaga para ipagbenta niyo talaga.

PUBLIC: Opo ipagbebenta ko rin ho iyon.

PROPONENT: Sige po ako kausapin niyo 'tay. Sige po. Salamat po.

PH OFFICER: Noted daw po. Okay, next question. Pagbilang ko ng tatlo, at wala nang nagtanong tapos na po ang open forum.

PUBLIC: Magandang umaga po sa ating lahat. Ako po ang Kapitan ng Barangay Talibayog. Sa akin po, napakaganda ng..

PH OFFICER: Sir anong pong pangalan niyo po?

TRANSCRIPT OF THE PUBLIC HEARING PROCEEDINGS

Proposed Cement Plant and Quarry Operation Expansion Project

Venue: Barangay Carlota Covered Court Calatagan, Batangas|Date:13 July 2023

PUBLIC: Mamerto Manalo po. Kapitan po ng Barangay Talibayog. Sa akin po naman, napakaganda po nung mga paliwanag niyo tungkol dito sa itatayo nating proyekto. Dito po sa dagat, sa kalikasan, masunod po lamang iyon ay talaga pong napakaganda. Safety po tayo lahat pati mga magtatrabaho natin. Ang sa akin lamang, <inaudible> ko po ang sinabi ni kapitana ng Palikpikan, na ayun pong ilog ay batid ko po na sadya pong napakadelikado nung mga bahayan. Dahil nung dati po, galing po sa Barangay Luya yung pinanggagalingan noon papuntang Palikpikan tapos ngayon po nadagdagan pa ng galing sa Barangay Dalig kaya lalo na pong napakadelikado ng mga kabahayan doon. Tapos ang tanong ko po, ay yung amin pong bagong residente ngayon, Attorney Mikee, tanong ko lang po kung gaano katibay yung aming tinitirhan ngayon. Iyon po ang gusto po naming marinig, kung gaano po kami katibay sa bago naming tinitirhan ngayon sa bagong Palikpikan uhh... Barangay Palikpikan. 'Yun lang po.

PH OFFICER: Yung ano po doon po sa relocation site na mayroong itinayong bahay? Gaano daw po katibay? Engineer... ahh attorney gaano daw po katibay yung kanilang nilipatan?

PROPONENT: Kapt., gano ba katibay yung ano pagmamahal mo sa kin Kapt.

PUBLIC: Ay ganun po.

PROPONENT: Matagal na po kasi kaming magkasama ni Kapt.

PUBLIC: Opo. Opo.

PROPONENT: So alam na alam mo naman Kapt. na nakapagbigay na po tayo ng mga titulo doon sa iba na matagal nang nakalipat kasi kayo bagong lipat pa lang. Kase yung pinanggalingan niyo ay kabibili pa rin lang ano. So hindi pa po tayo tapos ng pagpapalipat doon sa inyong napiling

lipatan. Dahil doon nga po natin balak ilagay yung Palikpikan Village nitong Advantage. Malaki po iyan, kasi lahat ng nandito sa salvage zone, sa kabilang ano... lahat ng nasa salvage zone po ang proposal po natin kay Mayor JR Fronda ng Balayan ay ilipat po lahat doon sa inyong pinaglipatan. Para po maganda po yung ating beach area po doon, atsaka hindi narin po problema nina Mayor na pag ganitong ulan ay naglilikas po sila ng mga tao papunta dito sa upland o aalisin nila yung mga nasa salvage zone. So medyo marami-rami pa po yung nasa salvage zone na ililipat natin, pag nalipat po natin dito ay di mai-issue na po namin sa inyo ang inyong mga titulo. Alam na alam naman po ninyo na marami na tayong na-issue po na titulo. So hindi na po talaga kayo mapapa-alis doon kasi sobrang dami niyo na doon. Ilan na ba yung nakatira doon? Andami na pong bahay, iyon na po talaga yung relocation site natin at yung harap po noon ay yung gagawin nating pier para sa mga mangingisda, at doon po yung ating mga parking ng boats yung concern ni ma'am kanina. Iyon po yung sinasabi ko sa inyo na malaking proyekto ng Advantage atsaka ng uhhh... bayan ng Balayan para sa mga mangingisda.

PUBLIC: Salamat po, at para po pagdating ko ay maibahagi ko po sa aking mga kabarangay iyong ating pinagusapan yung sinabi niyo. Maraming salamat po.

PROPONENT: Salamat po.

PH OFFICER: Okay meron pa po bang katanungan? Bibilang na po ako. One. Yes ma'am, habol. Si Kapitana. <Dead air>

PUBLIC: May itatanong lang po ako, kasi po ang aming relocatees from Barangay Talibayog na doon na relocate sa Bagong Silang, attorney, ay nag-aalala din po sila dahil meron po silang bali-balita na nakukuha

na sila raw po ay posible na mai-relocate ulit. So bilang sakop na po naming mamamayan attorney, ay 'di syempre po nandun na ang aming concern sa kanila. So nais po naming maitanong, tulad ng tanong ni Kapitan Manalo na kung sila ba ay ganun narin ka-stable sa kanilang tinatayuan.

PH OFFICER: Okay po, so sasagutin po kayo ni attorney.

PROPONENT: Opo naman Kapitana, ikaw talaga gusto mo pang i-announce natin sa mga taga Calatagan eh no. Tayo na lang sana mag usap. Ano po. Yung mga resettlement sites po na nagawa na natin, marami na pong nakatira don. Pero yun resettlement site na po talaga yon, ang talaga lang po na inalis natin yung mga tao, inilipat talaga natin ay yung mga nasa Calatagan po diba. Saka yung nasa may baybaying dagat, ngayon wala namang dagat po yung sinasabi niyong Bagong Silang, so talaga pong doon na po talaga po iyon. Relocation... resettlement area talaga po iyon.

PUBLIC: Thank you po attorney. Gusto lang po namin masigurado.

PROPONENT: Dahil may lote kayo don kapitana?

PUBLIC: Wala po.

PROPONENT: Meron. <inaudible> Yes po resettlement site talaga po 'yon.

PUBLIC: Thank you po attorney. Thank you.

PROPONENT: Salamat po Kapitana.

PH OFFICER: Okay so sa palagay ko wala na pong katanungan. Bibilang na po ako. One. Two. And three. Tapos na po ang ating open forum. Marami pong salamat sa inyong partisipasyon.

(The PH OFFICER closed the open forum.)
