

NOTICE OF PUBLIC HEARING

On the **ENVIRONMENTAL IMPACT STATEMENT (EIS)** of the proposed **ONE SKY ALUMINUM RECYCLING AND MANUFACTURING PLANT PROJECT** of **ONE SKY ALUMINUM EXTRUSION CORPORATION** to be located in **NDC INDUSTRIAL PARK, MANABAK ROAD, BRGY. SAN PEDRO, SAN SIMON, PAMPANGA**.

Notice is hereby given to all parties who wish to give their opinion regarding the implementation of the proposed **ONE SKY ALUMINUM RECYCLING AND MANUFACTURING PLANT PROJECT** to attend the Public Hearing on:

Date	Time	Venue
07 March 2025 (Friday)	9:00 AM (Registration starts at 8:30AM)	Mary Ville Resort & Function Hall, Purok I, Brgy. San Isidro, San Simon, Pampanga

This Public Hearing is being conducted in connection with the review of the Environmental Impact Statement (EIS) of the aforementioned project by the Environmental Management Bureau (EMB) of the Department of Environment and Natural Resources (DENR).

The following is the project information:

Project Name	One Sky Aluminum Recycling and Manufacturing Plant Project
Project Location	NDC Industrial Park, Manabak Road, Brgy. San Pedro, San Simon, Pampanga
Project Type	Smelting Plant (Aluminum Recycling & Manufacturing)
Project Area	102,519 square meters
Project Capacity	145 tons/ day or 49,445 tons/year
Project Rationale	<p>One Sky Aluminum Extrusion Corp. seeks to provide an environment-friendly and sustainable supply of aluminum products to cater to this growing demand. The project’s end goals are to mainly support the Philippines towards becoming self-sufficient in the production of high-quality aluminum products and eventually enter the huge US market through Philippine-made aluminum products exportation. This will help significantly reduce or even possibly eliminate the country's reliance on importation while ensuring competitive pricing in both local and international markets.</p> <p>The facility will generate jobs in its operations, maintenance, administration, and management. By increasing employment, the project will boost the purchasing power of the local population, stimulate local companies, and contribute to Pampanga's overall economic health. The local government of San Simon and Pampanga shall also benefit from supplementary taxes. The construction of the project shall also support the national industrial development program and can reduce the country’s dependency to imported aluminum products.</p> <p>The facility shall support the sustainable development agenda and the circular economy as the project will recycle scrap aluminum into high-quality aluminum products.</p>
