RESOLUTION NO. 57

Series of 2021

REVIEW ACTION ON THE SUBMITTED BARANGAY UACON RESOLUTION NO. 12 SERIES OF 2021 ENDORSING THE AMENDMENT OF THE MINERAL PRODUCTION SHARING AGREEMENT (MPSA) NO. 191-2004-111 OF ZAMBALES DIVERSIFIED METALS CORPORATION AND RESOLUTION NO. 13 SERIES OF 2021 EXPRESSING SUPPORT AND MANIFEST NO OBJECTION ON THE RESPONSIBLE MINING DEVELOPMENT OF YINGLONG STEEL CORPORATION WITHIN THE JURISDICTION OF BARANGAY UACON IN THIS MUNICIPALITY

WHEREAS, the Sangguniang Bayan of Candelaria is in receipt of Barangay Resolution of the Sangguniang Barangay of Uacon, Candelaria, Zambales for review;

WHEREAS, after due deliberation and approval by majority of all members present and in compliance with R.A 7942 Philippine Mining Act and other applicable laws and issuances and upon motion of ABC Liga President Alvin Mana, be it-

RESOLVE, as it is hereby resolved, to Approve and Adopt Barangay Uacon Resolution No. 12 and 13 dated September 20, 2021, this Municipality

RESOLVED FURTHER to provide copies of this resolution to the Office of the Mayor Napoleon E. Edquid, Barangay Captain Daniel Esteron and Council, Zambales Diversified Metals Corporation, Yinglong Steel Corporation, DENR, MGB, DILG and all other stakeholders for their information and guidance.

ADOPTED, this 13th day of October, 2021.

X X

WE HEREBY CERTIFY to the correctness of the foregoing resolution which was duly adopted by the Sangguniang Bayan during its regular session held on October 13, 2021.

RESOLUTION NO. 12
Series of 2021

RESOLUTION APPROVING THE ENDORSEMENT OF THE AMENDMENT OF THE MINERAL PRODUCTION SHARING AGREEMENT (MPSA) NO. 191-2004-III OF ZAMBALES DIVERSIFIED METALS CORPORATION TO INCLUDE THE 82,3923 HECTARES SITUATED WITHIN THE JURISDICTION OF BARANGAY UACON, CANDELARIA, ZAMBALES

WHEREAS, the representatives from Zambales Diversified Metals Corporation (ZDMC) appeared before this office and requested the Sangguniang Barangay of Uacon, Candelaria, Zambales, to favorably endorse the amendment of its MPSA NO. 191-2004-III to include the 82,3923 hectares of property in Barangay Uacon, Candelaria, Zambales which is pending before the Mines and Geosciences Bureau (MGB);

WHEREAS, the Sangguniang Barangay of Uacon, Candelaria, Zambales finds that the said applications in conformity with existing laws.

WHEREFORE, on motion of Barangay Kagawad Bernard E. Menor, Chairperson of Committee on Environment, approved and seconded by: Barangay Kagawad – Herbert E. Errazo, Cristina M. Lee, Eduardo C. Hermogino, Edlina C. Edquiba, Ronnie E. Elamparo, and SK Chairperson – Carlo M. Lorezo, be it -

RESOLVE, as it is hereby resolved, to favorably endorse the application of Zambales Diversified Metals Corporation for the amendment of MPSA No. 191-2004-III to include the 82.3923 hectares property within the jurisdiction of Barangay Uacon, Candelaria, Zambales, subject to strict compliance with Republic Act No. 7942 or the Philippine Mining Act, its implementing rules and regulations, all applicable laws and issuances.

RESOLVED FURTHER to furnish copy of this resolution to all concern for their information and guidance.

ADOPTED, this 20th day of September, 2021.

MEMORANDUM

FOR : **The Director**
Mines and Geosciences Bureau
North Avenue, Diliman, Quezon City

FROM : **The Regional Director**
This Office

SUBJECT : **Request of Zambales Diversified Metals Corporation for Area Expansion of its MPSA No. 191-2004-III by Including APSA000272 III-Amended 1**

DATE : **October 6, 2021**

Respectfully forwarded is the carpeta containing the documents pertaining to the above subject.

The antecedent facts of the matter are as follows:

1. On June 4, 1998, Crau Mineral Resources Corporation (CMRC) filed with this Office the application for Mineral Agreement denominated as MA-P-III-11-98 (APSA000272 III) covering 8,100 hectares located in the Municipalities of Sta. Cruz & Candelaria, Zambales for the exploration, development and utilization of metallurgical chromite, etc. deposited therein.
2. CMRC temporarily excluded the 4,334-hectare portion of the applied area without prejudice to its rights thereto pending final resolution by this Office of area conflicts encountered by the said portion with numerous prior mining claims/applications/rights
3. On May 22, 2004, APSA000272 III covering the amended area of 3,765.3853 hectares that had been evaluated as clear of area conflicts was approved under MPSA No. 191-2004-III.
4. The Full Declaration of Mining Project Feasibility (DMPF) for the said MPSA was approved on May 7, 2008 thereby authorizing the contractor to conduct development and mining of chromite, nickel, platinum and other associated mineral deposits existing within the Contract Area covering 3,765.3853 hectares, more or less, located in the Municipalities of Candelaria and Sta. Cruz, Zambales.
5. The MPSA No. 191-2004-III was transferred in the name of Zambales Diversified Metals Corporation pursuant to the Deed of Assignment

**"MINING SHALL BE PRO-PEOPLE AND PRO-ENVIRONMENT
IN SUSTAINING WEALTH CREATION AND IMPROVED QUALITY OF LIFE"**

executed by and between CMRC and ZDMC dated November 26, 2007 which was approved by the DENR on March 5, 2010.

6. Thru its Letter of Inclusion dated January 4, 2007, CMRC requested the inclusion of ten (10) Lots with an aggregate area of 2,489.39056 hectares out of the 4,334-hectare area it temporarily excluded from APSA000272 III and likewise requested thru letters dated March 8, 2012 and April 17, 2012, the revival of the application in its name.
7. On April 13, 2012, a Deed of Assignment of Preferential Rights (DOAPR) was entered into by and between CMRC and DMCI Mining Corporation (DMCIMC) wherein CMRC *"assigns all its rights, title, and interest over the mining tenement excluded from MPSA No. 191-2004-III dated 22 May 2004 which consists of four thousand three hundred thirty four (4,334) hectares of land"* to DMCIMC.
8. Per evaluation by this Office of the January 4, 2007 LOI of CMRC, out of the areas covered by Lots 3 to 10, only the one full meridional block portion of Lot 6 can be considered for inclusion while evaluation of Lots 1 and 2 has been withheld pending final action by the MGB/DENR on the request of Zambales Chromite Mining Co., Inc. for the amendment of the area covered by its MPSA No. 005-91-III which is among the mining tenements that have been conflicted by Lots 1 and 2. These findings were reflected in the letter dated September 2, 2013 of this Office to CMRC.
9. Thru Order of this Office dated December 7, 2020, the assignment of the full one meridional block portion of Lot 6 covered by the LOI dated January 4, 2007 of CMRC which is part of the 4,334-hectare area temporarily excluded from APSA000272 III subject of the DOAPR dated April 13, 2012 by and between CMRC and DMCI, was approved. Consequently, said portion of APSA000272 III was re-denominated as APSA000272 III-Amended 1 in the name of DMCIMC.
10. APSA000272 III-Amended 1 was then transferred in the name of ZDMC pursuant to the Deed of Assignment entered into by and between DMCIMC and ZDMC dated June 2, 2017 which was approved by this Office on February 4, 2021.

Hereunder are the evaluation of the subject request with respect to the requirements for MPSA amendment (area expansion)

Documentary Requirements	Remarks
Letter of Intent	Letter dated June 6, 2017 of ZDMC expressing its intent <i>"to include the Eighty-One Hectare (81 ha.) of land located in Uacon, Candelaria, Zambales in the contract area of [its] MPSA No. 191-2004-III"</i> , submitted to MGB-CO

MGB-registered Secretary's Certificate attesting that the company's President is the authorized representative of the company in connection with the application for consolidation	<p>Secretary's Certificate attesting to the authority of the Corporation's President, Mr. Cesar F. Simbulan, Jr., to do and perform any and all acts, as well as execute such documents and forms, which are deemed necessary for the expansion of the contract area under its MPSA No. 191-2004-III, registered in this Office on September 13, 2021</p> <p>Secretary's Certificate attesting to the authority of the Corporation's Vice-President for Operations, Mr. Ramon Manuel R. Briones, and/or Chief Finance Officer/SVP for HRA, Mr. Aldric G. Borlaza, and/or Vice-President for Legal, Permits and Compliance, Atty. Miracle Joy P. Sevilla, to do and perform any and all acts, as well as execute such documents and forms, which are deemed necessary for the expansion of the contract area under its MPSA No. 191-2004-III, registered in this Office on September 13, 2021</p>
Location Map/Sketch Plan of the amended MPSA contract area with the consolidated areas marked as separate parcels, using a 1:50,000 National Mapping and Resources Information Authority topographic map, with the corresponding geographical coordinates and hectarage, duly prepared, sealed and signed by a deputized Geodetic Engineer	Topographic map showing the Contract Area under MPSA No. 191-2004-III labeled as Lots 1 to 3 and the area covered by APSA000272 III – Amended 1 labeled as Lot 4 with an aggregate area of 3,847.9033 hectares, prepared signed, and sealed by deputized Geodetic Engineer, Joselito S. Adonis
Proof/s of payment of Amendment Fee pursuant to Section 1.1.7.a of DAO No. 2005-08 (Php20.00 per hectare or a fraction thereof but not less than Php25,000.00 per application)	Amendment fee in the amount of Php25,000.00 was paid under O.R. No. 9751012 dated October 5, 2021
Proof/s of payment of Conversion Fee of EP to MPSA pursuant to Section 1.1.5.a of DAO No. 2005-08 (Php100.00 per hectare or a fraction thereof but not less than Php50,000.00 per conversion)	N/A

Amended Environmental Compliance Certificate (ECC) to cover the entire area to be placed in operation	As relayed by the applicant, it may be complied with after approval of the MPSA amendment per advice to them by MGB-CO.
Revised Three (3)-Year Development and/or Utilization Work Program for the area covered by the consolidated MPSAs	-do-
Amended Environmental Protection and Enhancement Program and Final Mine Rehabilitation and/or Decommissioning Plan	-do-
Amended Social Development and Management Program	-do-
Care and Maintenance Program	-do-
Application for Order of Survey	Order of Survey was issued by this Office on August 6, 2021
Final Exploration Report, duly prepared, signed and sealed by a Competent Person pursuant to the pertinent provisions of DAO No. 2010-09 and validated by the Lands Geological Survey Division of MGB-CO	Final Exploration Report prepared by licensed Geologist and Competent Person (Registration No. 03-08-01), Arnulfo Pascual B. Santiago, was validated by the Geosciences Division of this Office on April 14-16, 2021. As validated, the area being applied for inclusion has an estimated Indicated Resource of 1,121,761 DMT nickel ore with a weighted average grade of 1.12% Ni and 24.64% Fe
MGB-registered Affidavit of Undertaking pursuant to DENR Memorandum Order No. 99-10	Affidavit of Undertaking registered in this Office on September 09, 2020 under OR No. 7915580
Certification by the Mines and Geosciences Bureau Regional Office concerned as to the compliance of the Contractor with the terms and conditions of the pertinent MPSAs including the level of implementation of the Work Programs and compliance with the reporting requirement and fiscal obligations	Certified True Copy of the Tenement, Safety and Health, Environmental Management, and Social Development Monitoring Checklists of MPSA No. 191-2004-III for CY 2019

Project approval/endorsement by majority of the <i>Sanggunian</i> concerned for the other consolidated areas	As relayed by the applicant, it may be complied with after approval of the MPSA amendment per advice to them by MGB-CO.
On the Processing of APSA000272III-Amended I	
Documentary/ Procedural Requirements	Remarks
Mandatory Acceptance Requirements	The mandatory acceptance requirements for applications for Mineral Agreements have been complied with under the original application (APSA000272III)
Area Status and Clearance <ul style="list-style-type: none"> Mines and Geosciences Bureau Regional Office No. III Department of Environment and Natural Resources Region III – Technical Services 	<p>The area applied for inclusion is part of the area subject of the Letter of Inclusion of CMRC under MA-P-III-98 (APSA000272 III) which was assigned to DMCIMC per Order of this Office dated December 7, 2020 and was later assigned by DMCIMC to ZDMC which was approved by this Office per Order dated February 4, 2021.</p> <p>It is also totally inside SAFDZ as per No-go Zone map from MGB-CO</p> <p>Note: <i>Per Certification dated September 28, 2020 of the Department of Agriculture Region III, there is no agricultural and related activity in the subject area and it is outside SAFDZ</i></p> <ul style="list-style-type: none"> Survey & Mapping Division The mining claim is covered by certain cadastral lots/surveys of Candelaria, Zambales Conservation and Development Division The applied area falls within Timberland and is outside NIPAS areas

<ul style="list-style-type: none"> Consolidated Sectoral Area Status and Clearance 	<p>DENR-RII Area Status and Verification issued on April 7, 2021 with comment that applicant should secure waiver or consent from private surface owner.</p> <p>Consolidated Area Status and Clearance was issued on April 14, 2021, subject to submission of favorable certification/ clearance from the DA re SAFDZ</p>
Payment of Clearance Fee	Paid in the amount of Php5,000.00 under O.R. No. 9750313

Municipality(ies)/City(ies)</p>	<p>Zambales Herald Newsweekly: published on May 7-13, 2021 per Affidavit duly sworn on May 26, 2021</p> <p>Philippine Daily Inquirer, Inc.: published on May 15, 2021 per Affidavit duly sworn on May 19, 2021</p> <p>MGB-RIII: posted from May 3, 2021 to May 17, 2021 per Certification dated July 9, 2021</p> <p>PENRO-Zambales: posted from May 7, 2021 to May 28, 2021 per Certification dated June 2, 2021</p> <p>CENRO-Masinloc: posted from May 12, 2021 to May 20, 2021 per Certification dated May 20, 2021</p> <p>Province of Zambales: posted from May 7, 2021 to May 21, 2021 per Certification dated May 31, 2021</p> <p>Municipality of Candelaria: posted from May 15, 2021 to May 29, 2021 per Certification dated June 2, 2021</p>

vi. Barangay(s)	Barangay of Uacon: posted from May 18, 2021 to May 23, 2021 per Certification dated June 3, 2021
c. Radio announced daily for 1 week in a local radio program	Zambales Mix FM Media Advertising System: advertised from May 19-26, 2021 per Certification dated May 27, 2021
Certification of the Panel of Arbitrators concerned as to any adverse claim/protest/opposition	Per Certification dated July 22, 2021 issued by the MGBIII Panel of Arbitrators, no protest, opposition nor adverse claim was filed/referred against APSA000272III- Amended 1
NCIP Certification or proof of land ownership, such as certified true copies of Original/Transfer Certificate of Title, among others	Certificate of Non-Overlap bearing Control No. RIII-CNO-29-03-0001 issued by the NCIP-RIII on March 29, 2021

Based on the foregoing, the MPSA 191-2004-III of ZDMC has met the criteria for the approval of MPSA area expansion as stated in the Memorandum for the Secretary dated October 7, 2019 of then Undersecretary for Climate Change Service and Mining Concerns and approved by the DENR Secretary, as follows:

1. The MPSA should be in the Operating Period;
2. The annexed area is in close proximity to, or within the same Region as the original MPSA;
3. The annexed area has the same target commodity as the original MPSA;
4. The annexed area has the available mineral resources/reserve as validated by the MGB Regional Office concerned; and
5. The annexed area has complied with the documentary and procedural requirements for an MPSA approval

For information, further evaluation, and consideration

Annex C: Permits/ Clearance and Certifications

1. Certification of no pending case

REPUBLIC OF THE PHILIPPINES)
Makati City) S.S.

AFFIDAVIT

I, **RAMON MANUEL R. BRIONES**, of legal age, Filipino, and with address at c/o Zambales Diversified Metals Corporation, 3/F DMCI Homes Corporate Center, 1321 Apolinario Street, Bangkal, Makati City, after having been duly sworn in accordance with law, hereby depose and state:

1. I am the Vice President for Operations of Zambales Diversified Metals Corporation (the "Corporation"), a corporation duly organized and existing under Philippine law, and with address at the 3/F DMCI Homes Corporate Center, 1321 Apolinario Street, Bangkal, Makati City.

2. As such Executive Officer of the Corporation, I am authorized to perform or cause the performance of acts, as well as to make declarations relative to the strategies, business plans, as well as status of the Corporation's activities/operations.

3. The Corporation has mining operations in the Municipalities of Sta. Cruz and Candelaria, Province of Zambales covered by (i) Mineral Production Sharing Agreement (MPSA) No. 191-2004-III, which was issued by the Mines and Geosciences Bureau ("MGB"); and, (ii) an Environmental Compliance Certificates (ECC) from the Environmental Management Bureau ("EMB") of the Department of Environment and Natural Resources ("DENR").

4. The Corporation has applied with the EMB Central Office for an amendment of its ECC No. 0910-003 and ECC No. 0708-070-215 to cover the inclusion of approximately 82.3923 hectares denominated as Lot 4 in its MPSA No. 191-2004-III;

5. As part of the requirements for the ECC amendment, the Corporation hereby declares that following court cases which were filed by or initiated against the Corporation, which remain pending, as at this date:

- i. ZDMC v. Department of Environment and Natural Resources, OP Case Nos. 17-D-072 and 17-D-087;
- ii. ZDMC v. Acoje Residents Association, et al., CA-G.R. SP No. 159907;
- iii. Indigenous Cultural Communities Indigenous Peoples v. Lepanto Consolidated Mining, et al., Civil Case No. R-MKT-20-02555;
- iv. Lando Maguindan, et al., v. ZDMC, et al., NLRC LAC No. 01-000132-21;
- v. Shangfil Mining and Trading Corp. v. DMCI Mining, ZDMC, and ZCMCI, Civil Case No. 508.

6. To the best of my knowledge and information, the Corporation has not received any recent environmental complaint nor has it been lately cited for any environmental law violation either by the DENR or any of its bureaus/agencies.

7. I am executing this Affidavit to attest to the truth of the foregoing and for whatever legal purpose it may serve.

FURTHER AFFIANT SAYETH NAUGHT.

WASTEWATER DISCHARGE PERMIT

Pursuant to Section 14, Article 2, of the RA 9275 otherwise known as the "Philippine Clean Water Act of 2004", this permit is hereby granted to **Dmci Mining Corporation** with office address at Zdmc, Motorpool Compound, Bolitoc, Santa Cruz, Zambales for its establishment:

Zambales Diversified Metals Corporation	Motorpool Compound Bolitoc SANTA CRUZ
TIN No. 006-861-813-000	

Permit Conditions

1. The permit holder shall discharge to **Maralunot Creek** leading to **Bolitoc Bay** for the period of one (1) year with effluent wastewater flow not exceeding **0.1 cubic meters per day** in conformity with DENR Department Administrative Order No. 2016-08 (Water Quality Guidelines and General Effluent Standards) and shall comply with the following Standards:

Significant Parameters	Standards	Significant Parameters	Standards
pH (Range)	6.0-9.5	Fecal Coliform	400 MPN/100 mL
Total Suspended Solids	100 mg/L	Ammonia as NH3-N	4 mg/L
Oil and Grease	5 mg/L	Nitrate as NO3-N	14 mg/L
BOD	50 mg/L	Phosphate	4 mg/L
Surfactants (MBAS)	15 mg/L		

2. The permit holder shall submit a quarterly Self-Monitoring Report to this Bureau (thru iis.emb.gov.ph/crs) in accordance with DENR Administrative Order No. 27 (Series of 2003). The deadline for the submission shall be fifteen (15) days after the end of each quarter. Further, sampling and analysis of effluent on the above parameters conducted by a Third Party Laboratory duly recognized by DENR-EMB shall form part of the submitted SMR.
3. The permit holder shall provide and maintain an accessible sampling port for its existing Wastewater Treatment Facility (WTF).
4. The permit holder shall allow the entry of authorized personnel of this Office to conduct an inspection and other related activity for compliance monitoring of subject establishment or facility.
5. The permit holder shall implement appropriate measure for effluent flow measurement.
6. An application for renewal of this permit shall be filed not less than thirty (30) days before the expiry date as indicated in this permit.
7. This permit shall be posted in a conspicuous location at the premises and shall be adequately framed or otherwise protected against damage.

This permit is valid up to Mar 31, 2022, unless revoked or suspended by this Office in writing.

Non-compliance with the above conditions and/or any pertinent provisions of RA 9275 otherwise knows as "Philippine Clean Water Act of 2004", a corresponding penalty in the amount of P10,000-P200,000 per violation shall be imposed.

WASTEWATER DISCHARGE PERMIT

Pursuant to Section 14, Article 2, of the RA 9275 otherwise known as the "Philippine Clean Water Act of 2004", this permit is hereby granted to **Dmci Mining Corporation** with office address at 3rd Floor, Dmci Corporate Center, A. Apolinario St., Brgy. Bangkal, Makati City, Bangkal, Makati City, Ncr, Fourth District for its establishment:

Zambales Diversified Metals Corporation	Sitio Acoje, Brgy. Lucapon South, Sta. Cruz,
TIN No. 006-861-813-00000	Zambales Lipay SANTA CRUZ

Permit Conditions

1. The permit holder shall discharge to **Lawis River**, for the period of one (1) year with **effluent wastewater flow (SP2)** not exceeding **13.7 cubic meters per day** in conformity with DENR Department Administrative Order No. 2016-08 (Water Quality Guidelines and General Effluent Standards) and shall comply with the following Standards:

Significant Parameters	Standards
Total Suspended Solids	100 mg/L

2. The permit holder shall submit a quarterly Self-Monitoring Report to this Bureau (thru iis.emb.gov.ph/crs) in accordance with DENR Administrative Order No. 27 (Series of 2003). The deadline of the submission shall be fifteen (15) days after the end of each quarter. Further, sampling and analysis of effluent on the above parameters conducted by a Third Party Laboratory duly recognized by EMB shall form part of the submitted SMR.
3. The permit holder shall provide and maintain an accessible effluent sampling port for its existing Wastewater Treatment Facility (WTF).
4. The permit holder shall properly maintain and operate the existing Wastewater Treatment Facility (WTF) with consisting of One (1) Unit Settling Pond and with a design capacity of 8165 cubic meters per day.
5. The permit holder shall allow the entry of authorized personnel of this Office to conduct the inspection and other related activity for compliance monitoring of the subject establishment or facility.
6. The permit holder shall install a flow metering device at the effluent discharge point.
7. An application for renewal of this permit shall be filed not less than thirty (30) days before the expiry date as indicated in this permit.
8. This permit shall be properly posted in a conspicuous location at the premises, and shall be adequately framed or otherwise protected against damage.

PERMIT TO OPERATE

Air Pollution Source and Control Installations

Pursuant to Rule XIX, Part VI, of the Implementing Rules and Regulations of the Clean Air Act (RA 8749), this Permit to Operate is hereby issued to:

ZAMBALES DIVERSIFIED METALS CORPORATION (formerly CRAU MINERAL RESOURCES CORPORATION)

for the emission, discharge or release of air pollutants from the following installations, processes or activities:

One (1) unit 24 KW "F.G. WILSON" Diesel Fired Standby Generator Set; one (1) unit 80 KW "AIRMAN" Standby Generator Set; two (2) units 36 KW "DENYO" Standby Generator Set; one (1) unit 80 KW "DENYO" Diesel Fired Standby Generator Set; one (1) unit 12 KW "KUBOTA" Diesel Fired Standby Generator Set; three (3) units 4.8 KW "TEREX" Standby Generator Set; six (6) units 4.8 "Doosan" Standby Generator Set; two (2) units 4.8 KW "KUBOTA" Standby Generator Set; one (1) unit 29.6 KW "HINO" Standby Generator Set; one (1) unit 26.4 KW "DEUTZ" Standby Generator Set; one (1) unit 64-80 KW "ISUZU/DENYO" Standby Generator Set; one (1) unit 30 KW "PERKINS" Standby Generator Set all equipped with housing and muffler/silencer leading to exhaust pipe; one (1) unit 14.92 KW "KUBOTA" Diesel Fired Water Pump with housing and two (2) units Vibrating Cupmill/Pulverizer with a capacity of 100-200 kgs per day provided with exhaust system.

at the establishment located at:

Sitio Acoje, Brgy. Lucapon South, Sta. Cruz, Zambales

and is issued subject to Condition Nos. 1 to 15 on the following two (2) pages.

Recommended by:

DENNIS O. CELESTIAL, ME, MM
Chief, Clearance and Permitting Division

Approved by:

WILSON L. TRAJECO, PME, Ph.D.
Regional Director

CONDITIONS:

1. This Permit is issued for the permittee to Operate Twenty-Two (22) Standby Generator Set which is exempted from emission test used as standby power supply in case of power interruption of the local electric cooperative and two pulverizer installed at the permittee's establishment identified on the previous page of the Permit.
2. This Permit is subject to payment of the following fee:

Fee	Amount (PhP)	Date	Official Receipt No.
Permit Fee	36,300.00	10-07-2019	2312566
Filing Fee	600.00	08-22-2019	2312234

3. Unless suspended or revoked by the Bureau, this Permit shall be valid as indicated by the issue and expiry dates on the Permit.
4. During the period of validity, this Bureau may modify the Permit by amending any existing condition or imposing any new or additional condition, subject to provisions of Rule XIX of the Implementing Rules and Regulations (IRRs) of Republic Act No. 8749.
5. An application for renewal of this Permit shall be filed not less than thirty (30) days before the expiry date indicated on the Permit.
6. The first page of the Permit shall be posted in a conspicuous location at the premises, and shall be adequately framed or otherwise protected against damage.
7. The operation of any installation at this establishment that produces, generates, captures, treats, reduces, controls, emits, releases or disperses air pollutants without a valid Permit to Operate, or violations of all other provisions in this Act and its Implementing Rules and Regulations, shall be subject to penalties of not less than ten thousand (10,000) pesos and not more than one hundred thousand (100,000) pesos, pursuant to Rule LVI of the Implementing Rules and Regulations of RA 8749.
8. Without limiting the generality of the previous condition, the permittee shall ensure that the emissions from the permitted installations or processes comply with the National Ambient Air Quality Standards for Source Specific Air Pollutants from Industrial Sources/Operations as specified in Rule XXVI of the IRR of RA 8749.
9. The installations, processes or activities at this establishment shall be operated, conducted and managed by the permittee, and the associated plant and equipment shall be maintained and operated by the permittee, so that emissions of air pollutants are kept to a practicable minimum and do not cause air pollution or have adverse effects on person.

Page 3 of 3

10. The permittee shall be responsible for ensuring that any emissions of air pollutants from the establishment, including fugitive or uncontrolled emissions or releases of air pollutants from abnormal or unexpected events, do not cause air pollution in the surround air environment or have adverse effects on persons in that environment.
11. The permittee shall submit quarterly Self-Monitoring Reports to this Bureau in accordance with DENR Administrative Order No. 27 (Series of 2003). The deadline of the submission of the SMR shall be fifteen (15) days after the end of each quarter.
12. The permittee shall at all times have an appointed or designated Pollution Control Officer (PCO) who shall be the day-to-day point of contact between the Bureau and the establishment. The permittee shall ensure that the PCO is familiar with the operations and activities undertaken at the establishment, relevant emission sources and air pollution control devices and equipment. The permittee shall give the PCO the necessary authority to take or to direct corrective action in the event of a malfunction, accident, breakdown or other abnormal event that results in excessive emissions or emissions that do not comply with relevant Permit conditions, emissions standards or ambient air quality standards.
13. The permittee shall report in writing to the Bureau any malfunction, accident, breakdown, leak, spill or other abnormal or unexpected event which results in emissions to atmosphere that do not comply with relevant Permit conditions, emissions standards or ambient air quality standards, or in any other abnormal or unexpected releases of air pollutants. The report shall indicate the nature of the incident or event, its impact on emissions or releases, remedy any air pollution problems that may have occurred, and minimize the probability of reoccurrence of the event or the release.
14. The permittee shall at all times allow authorized officers of the Department or the Bureau entry to the establishment and access to any part of the establishment to conduct inspections, gather information, test emissions or take samples. The permittee and its personnel shall not obstruct such officers in the performance of these functions, and shall furnish any information or materials requested by them that is reasonable for them to have. The permittee shall obey any lawful instruction or direction given by an authorized officer of the Department or the Bureau at all times.
15. The permittee shall not make any alterations or modifications to operations, activities, installations, process, plant or equipment at the establishment that might substantially change the nature or quantity of the associated emission without obtaining the approval of this Bureau, including the obtaining of any necessary Permit to Operate.

Non-compliance with or gross violation of any provision of RA 8749, its Implementing Rules and Regulations and/or these Permit conditions, shall be sufficient ground for the suspension or revocation of this Permit.

HAZARDOUS WASTE GENERATOR REGISTRATION CERTIFICATE

Pursuant to Chapter 3 of DENR Administrative Order (DAO) No. 2013-22, the Implementing Rules and Regulations of Republic Act (RA) 6969, this Certificate is issued to:

Name of Establishment : **ZAMBALES DIVERSIFIED METALS CORPORATION (ZDMC)**

Facility Address : SITIO ACOJE,, LUCAPON SOUTH, SANTA CRUZ, ZAMBALES

You are hereby assigned with the new *on-line registration na*

OL-GR-R3-71-011855

This certifies that the above-named Hazardous Wastes Generator generates the following types of wastes:

Waste Class	Waste Number
Used industrial oil including sludge	I101
Oil-contaminated Materials	I104
Lead compounds	D406
Mercury and mercury compounds	D407
Grease wastes	H802
Vegetable oil including sludge	I102
Containers previously containing toxic chemical substances	J201
Pathological or infectious wastes	M501
Waste electrical and electronic equipment (WEEE)	M506

1. The above-named HW Generator shall comply with all the requirements of R.A 6969, its Implementing Rules and Regulation of the Republic Act R.A 6969 and the Procedural Manual for Hazardous Wastes Management.
2. Submission of the duly notarized self monitoring report shall be made within fifteen (15) days after the end of every reporting period using prescribed format.
3. Please refer to this number whenever you make transactions with EMB on matters pertaining to RA 6969.

Annex D: Proponent's Response to Issues and Concerns

PUBLIC SCOPING MINUTES

Project Name	Sta. Cruz – Candelaria Mining Project	Project Location	Municipalities of Sta. Cruz and Candelaria, Province of Zambales
Proponent Name	Zambales Diversified Metals Corporation (ZDMC)	Proponent Address	3 rd Floor, DMCI Homes Corporate Center, 1321 Apolinario street, Bangkal, Makati City, 1233
Proponent Contact Person	Ramon Manuel R. Briones	Proponent Means of Contact	(02) 8823-7963 (02) 8831-6241
EIA Consultant	Argotek, Inc.	Consultant Address	Pasda Mansion Bldg., No. 77 Panay Ave., Diliman, Quezon City
EIA Consultant Contact person	Jay Richard R. Siasoco	Consultant Means of Contact	0915 540 0790
EMB/DENR Scoping Representatives	Mark Anthony Tuliao	Place of Public Scoping	Dawal Beach Resort, Candelaria, Zambales and Zoom Meeting 823 5146 6086
		Date of Public Scoping	26 May 2021

ISSUES / CONCERNS TO BE INCLUDED IN THE SCOPE OF THE EIA STUDY

EIA Module	Issues/Suggestions Raised by Stakeholder	Sector or Representative who Raised the Issue/Suggestion	Proponents Response
Project Description	Is the EIA study will cover the total MPSA area (3,847.78ha) or limited only to the expansion area (82.39ha)?	Atty. Gene Mislano of Tanggol Kalikasan	In the process of amending the existing ECCs, it will cover the existing MPSA area in order to check ZDMC 's compliance and also the expansion area to prove its capability through the process of EIA review. ZDMC will maintain its approved extraction/mining rate for nickel, chromite and associated metals.
	What is the type of mining method employed by ZDMC and will it result to flooding on low lying areas?	Atty. Gene Mislano of Tanggol Kalikasan	ZDMC adopts contour mining for its operation. Maximum of 60ha of active mining at any given time. Engineered system of settling ponds are in placed
			to mitigate the flooding scenario. Before opening other areas for stripping and extraction, mined out areas will undergo Temporary Revegetation Program or Progressive Rehabilitation Program.
	What is the type of chemicals used in the mining site and its effect on people, live stocks and crops downstream?	Bee Barrera of Concerned Citizens of Candelaria	We do extraction only. No chemicals used in mining operations. Even the fertilizers for rehabilitation are all organic.
	Are you aware of the resolution executed by Uacon Barangay Council against destructive mining and that 1,000+ petitioners against ZDMC expansion?	Bee Barrera of Concerned Citizens of Candelaria	ZDMC is aware of the said barangay resolution. Also, it is aware of the repeal on the Municipal ordinance issued by the LGU of Candelaria against destructive mining. ZDMC considers itself as a responsible mining company. On the signature campaign, ZDMC is not yet aware. It has a counter signature campaign for those who supports the company's continued operation, including the neighboring communities, host communities, scholars and other SDMP related undertaking.
Land	The mining areas in the more than 10years of ZDMC operation do not show sign of rehabilitation. Google maps from 2010-2020 do not show contraction of the mining areas but instead it is getting bigger and bigger every year. Isn't the MGB required to inspect the compliance of mining corporations according to DENR policies?	Vincent Manikan of Save Candelaria Movement	More than 179 million pesos was spent for the Annual Environment Protection and Enhancement Program of ZDMC. Within the MPSA, 15,236ha was planted with 16,927 native trees and established 27.5 ha biodiversity conservation area with 30,553 saplings. Outside the MPSA, 333.6ha

			<p>was planted with 311,934 native trees. Adopted 20 NGP sites and planted 11,110 seedlings and 1,500 bamboo culms.</p> <p>Rehabilitation activities in the 59.145 ha mined out areas include planting of 153,351 native trees, established 1ha research plot for ecological restoration and mandatory planting at a minimum 12 trees annually of all regular and project-based employees.</p> <p>Social Development and Management Program milestone of Php44 Million in 15 barangays within the Municipalities of Sta Cruz and Candelaria, Zambales</p> <p>The areas undergoing rehabilitation are planted with native and endemic trees that were recommended by experts from UPLB to be the most suitable species for the area. Unfortunately, these are slow growing species. Just 3-5 feet of development in 5 years. Thus, it is not that visible on Google earth and also the Google Earth satellite image are taken from a distance that cannot capture small details onsite. These areas are regularly monitored by MGB and can be visited for site inspection.</p>
	Will there be a CBFM/ISF area that might be affected by the expansion?	Cesar Estrada	There is none.
			PENRO Zambales Marife Castillo confirmed that based on the GIS, no issued CBFM within the area.
	<p>Is the topsoil stored and used during rehabilitation?</p> <p>While there's no rehabilitation done yet, what will happen when it rains? Would this cause flooding?</p>	<p>Bee Barrera of Concerned Citizens of Candelaria</p> <p>Atty. Gene Mislang of Tanggol Kalikasan</p>	<p>Topsoil is stockpiled near the mining site, secured with silt fence, and is utilized during rehabilitation.</p> <p>The topsoil is kept in with engineered settling ponds. In case it rains, enough containment structures are established in order not to cause siltation of the rivers or cause flooding. The capacity of the settling ponds is 1.1M cubic meter. Ever since, the settling ponds haven't overflowed yet.</p>
Water	Can ZDMC guarantee the residents of Candelaria that the flooding events due to overflow of Luis river during the typhoon Lando will not happen again?	CJ of Save Candelaria	<p>After typhoons Labuyo and Lando, the UP National Institute of Geological Science conducted a study to rectify and improve the settling ponds and silt mitigation system in mine site.</p> <p>ZDMC now has sufficient settling ponds that can accommodate a typhoon Labuyo type which has the highest recorded of precipitation of 0.6meter per day. It has a total storage of 1,112,000 cubic meter.</p> <p>Sediment flux study was also conducted on 2016 during the wet and dry season.</p>
	Does ZDMC have a rehabilitation program for shallowing water bodies?	CJ of Save Candelaria	The Annual Environment Protection and Enhancement Program of ZDMC includes desilting, construction of settling ponds and its maintenance.

Air	<p>Is there a baseline study of air, noise and water quality in Candelaria?</p> <p>What is your cyclone study baseline?</p>	Concerned Citizens of Candelaria	<p>Baseline study was conducted in the EIS of ZDMC. There is also a quarterly sampling and testing of air, noise and water quality.</p> <p>The basis for cyclone study – ZDMC for the purposes of Project Description submission refers to the 2008 EPRMP study submitted to EMB. After the technical scoping, it has to undergo updating, which will be done by Argotek.</p>
People	<p>How many employees does the ZDMC have? How about during rainy season?</p>	Bee Barrera of Concerned Citizens of Candelaria	<p>At full operation, ZDMC has 730 personnel and almost 90% of which are Zambales residents. If indirect employment will be considered, there are more than 1,000.</p> <p>Like other business, there is downtime in operation. But there are activities like office work and rehabilitation that are available even during rainy seasons.</p> <p>Key positions are currently occupied by Zambales based residents. ZDMC prides itself in developing local talents specially the scholars. They are encouraged to take mining related courses to absorb them after graduating and passing the board exam. Skilled workers and technical people are mostly locals of Zambales specifically Sta. Cruz and Candelaria.</p>
Others	<p>On ECC 0910-003, we didn't receive any notification, the residents of Candelaria, on public hearing regarding your mining</p>	Marlyn of Concerned Citizens of Candelaria	<p>Presumption is that public consultation was conducted since the ECC was issued. Before an ECC can be issued</p>

	<p>project. How did you come up with the endorsement and resolution from our LGU prior to the commencement of your project? We want to see a copy of the endorsement, resolution, and it had gone through public consultation and public hearing. MGB did not reply to my email.</p> <p>Did you acquire the ECC for the expansion from EMK/Rosina? The ECC 0910-003 you got it from Crau?</p> <p>On the ECC, Annex B. You are directed to secure an agro-industrial economic zone from PEZA. Did ZDMC complied with the Annex B?</p>		<p>it go through a process under the EIA system. ZDMC acquired the project in 2014. The ECC was approved in 2010. The trial heap leach was not the new management's initiative. It did not push through. The new management already applied for decommissioning and abandonment plan to cancel the ECC on the trial heap leach at EMB R3.</p> <p>The ECC for the commercial heap leach is part of this ECC amendment while that of the trial heap leach it is under the ECC issued by EMB3.</p> <p>Verification as to the availability of the endorsement on file since the same was secured by the previous owner. Then, we can email a copy to the concerned citizen.</p> <p>Based on the documentation, the two ECC, prior to the transfer, was under the name of Crau. On the question on the heap leach, Crau was the holder of MPSA. They enter into an agreement with Rusina, then Rusina gave the operating rights to ZDMC. But all were under Crau prior to transfer to ZDMC.</p> <p>Annex B of the ECC is a list of possible permits or documents to be complied with. Only the applicable items for the project are needed. ZDMC secured</p>
--	--	--	---

			<p>only what was applicable. Since the area is not under agro PEZA zone, it did not apply to ZDMC. The list in Annex 2, those are the ones ZDMC needs to comply if applicable. ZDMC to check the details under PEZA.</p> <p>EMB verified: Annex B is a planning tool, recommendation to the proponent, guide on they need to secure applicable to their projects. However, all ECC conditions must be complied by the proponent.</p> <p>MGB will discuss the issue with the review committee. Proponent will be asked to answer the email of Ms. Marlyn.</p>
	Isn't it that the ECC has a 10-year validity only? Did the ZDMC acquired the ECC in 2010?	Bee Barrera of Concerned Citizens of Candelaria	<p>EMB answered that once a project is implemented, ECC will be valid. ECC will only expire when project is not implemented within 5 years after the ECC was issued. Once the project was implemented, there is no expiration.</p>

111 Aguirre Street, Legazpi Village

Makati City

Subject : ECC Transfer of Ownership
(ECC Reference No. 0708-020-2150 and 0910-0003)

Dear Sir:

This refers to your request for the ECC transfer of ownership of Sta. Cruz Candelaria Mining Project from Crau Mineral Resources Corporation to Zambales Diversified Metals Corporation with ECC Reference No. 0708-020-2150 issued on February 10, 2010 and ECC Reference No. 0910-0003 issued on March 5, 2010.

Based on the documents submitted, your request is hereby granted.

All other conditions stated in the ECC shall remain in force unless amended/revoked in writing. Please be reminded however that you are hereby directed further to accomplish and submit to this Office semi-annual ECC Compliance Monitoring Report of your project every January and July of each year as specified under Sec. 9.2 of DAO 30 Series of 2003.

We hope that we have guided you accordingly.

Very truly yours,

ATTY. JUAN MIGUEL T. CUNA
OIC, Director

Annex F: Accountability Statement of Proponent

SWORN STATEMENT OF ACCOUNTABILITY OF THE PROPONENT

This is to certify that all information and commitments in this **Environmental Performance Report and Management Plan** for the **Zambales Diversified Metals Corporation – Sta. Cruz – Candelaria Mining Project** are accurate and complete to the best of our knowledge, and that an objective and thorough assessment of the Project was undertaken in accordance with the dictates of professional and reasonable judgement. Should I/we learn of any information which would make this **Environmental Performance Report and Management Plan** inaccurate, I shall immediately bring the said information to the attention of the DENR-EMB.

I hereby certify that no DENR-EMB personnel was directly involved in the preparation of this **Environmental Performance Report and Management Plan** other than to provide procedural and technical advice consistent with the guidelines in the DAO 03-30 and EMB MC 2014-005.

We hereby bind ourselves jointly and solidarity to answer any penalty that may be imposed arising from any misrepresentation or failure to state material information in this **Environmental Performance Report and Management Plan**.

In witness whereof, I hereby set my hand this ____ day of _____ at _____.

Ramon Manuel R. Briones

Chairman of the Board

Subject: **Environmental Compliance Certificate**

Dear Sir:

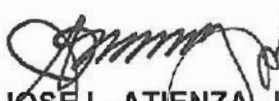

This refers to the Environmental Compliance Certificate (ECC) application for the proposed **Sta. Cruz-Candelaria Mining Project** to be located in Sta. Cruz and Candelaria, Zambales.

After satisfying the requirements in the said application and upon recommendation of the Environmental Management Bureau (EMB), this Department has decided to grant an ECC to the above-mentioned project.

With the issuance of this ECC, you are expected to implement the measures presented in the Environmental Impact Statement (EIS) Study, intended to protect and mitigate the project's adverse impacts on community health, welfare and the environment. Environmental considerations shall be incorporated in all phases and aspects of the project. You may proceed with project implementation after securing all the necessary permits from other pertinent government agencies. This Office will be monitoring the project periodically to ensure your compliance with stipulations cited in the attached ECC.

Please be guided accordingly.

Very truly yours,

JOSE L. ATIENZA, JR.
Secretary

ENVIRONMENTAL COMPLIANCE CERTIFICATE
(Issued under Presidential Decree 1586)
0708-020-2150

THIS IS TO CERTIFY THAT PROPONENT **CRAU MINERAL RESOURCES CORPORATION**, represented by its Chairman of the Board **Gil A. Maravilla**, is granted this Environmental Compliance Certificate (ECC), for the proposed **STA. CRUZ-CANDELARIA MINING PROJECT** located in **STA. CRUZ AND CANDELARIA, ZAMBALES**, by the Department of Environment and Natural Resources (DENR), through the Environmental Management Bureau (EMB).

SUBJECT to the conditions and restrictions set-out herein labeled as Annex A and EIARC recommendations as Annex B. This Certificate supersedes ECC Reference No. 03ZA-0704-14-122-303A dated 28 May 2007 issued by EMB Region III for the Nickel Mining Project of Crau Mineral Resources Corporation effective upon implementation of this project.

PROJECT DESCRIPTION

The Certificate covers the proposed Sta. Cruz-Candelaria Mining Project to be located within the contract area of 3,875 hectares in Sta. Cruz and Candelaria, Zambales, between the geographical coordinates longitude 120°03'30" East and latitude 15°42' North as stated in the Mineral Production Sharing Agreement (MPSA).

The projected annual production rate is 1 million Dry Metric Tons (DMT) of nickel laterite and associated metal ores.

Facilities shall include access roads and bridges, mine facilities, ore processing facility, waste and topsoil facility, silt/sedimentation ponds/dams and drainage facility, water supply and distribution system, power facilities, communications facility, housing facilities, offices and port.

This Certification is issued pursuant to the provision of Presidential Decree No. 1586 and in accordance to Department Administrative Order No. 2003-30. Non-compliance with any of the provisions of this Certificate shall be sufficient cause for the cancellation or suspension of this Certificate and/or imposition of a fine in an amount not to exceed Fifty Thousand Pesos (PhP 50,000.00) for every violation thereof. The Bureau, however, is not precluded from reevaluating, adding, removing, and correcting any deficiencies or errors that may be found after issuance of this Certificate.

Issued at DENR, Quezon City Philippines this

SERIES OF 2008

I. CONDITIONS**ENVIRONMENTAL MANAGEMENT PLAN**

The proponent shall ensure that all commitments, appropriate mitigating/enhancement measures and monitoring requirements especially those contained in the EIS, its modifications and additional information as approved by the EMB during the EIS review shall be instituted and strictly implemented throughout the project implementation, such as but not limited to:

1. Undertake Information, Education and Communication (IEC) Program to explain to all stakeholders the Environmental Management and Monitoring Plan (EMMP) embodied in its EIS and the conditions of this Certificate as well as an update of project status including any significant changes on the EMMP, results of MMT activities and over-all performance vis-a-vis this Certificate;
2. The proponent shall observe good vegetative practices and sound soil management throughout the project implementation. Particularly, the proponent shall strictly effect stabilization and erosion control of the affected side slopes of the roads and nearby gullies, creeks and river within the project site, as well as those of the silt ponds/traps;
3. Submit a Detailed Abandonment Plan to the EMB (CO and Region III) one (1) year prior to the project's abandonment. The plan shall include rehabilitation measures/clean-up, remediation of areas possibly contaminated with other substance and proposed alternative projects or land use in the area;

GENERAL CONDITIONS

4. The mining operations shall conform with the applicable provisions of the Toxic and Hazardous Waste Act of 1990 (R.A. 6969), Ecological and Solid Waste Management Act of 2000 (R.A. 9003), Clean Water Act of 2004 (R.A. 9275), & Clean Air Act of 1999 (R.A. 8749);
5. Comply with the environmental management and protection requirements of the pertinent provisions of the Philippine Mining Act of 1995 (R.A. 7942) and its implementing rules and regulations (DAO. No. 96-40, as amended), as well as the Memorandum of Agreement between the EMB and MGB executed on April 16, 1998. These include, among others:
 - 5.1 Submit, within thirty (30) days from receipt of this Certificate an Environmental Protection and Enhancement Program (EPEP), with the Final Mine Rehabilitation and/or Decommissioning Plan (FMR/DP) integrated thereto thru the MGB for approval of CLRF Steering Committee. The plan shall also include measures so as not to destroy any of the springs located within or near its mining premises and IEC Program as required in Condition No. 1 of this Certificate;
 - 5.2 Set-up a Contingent Liability and Rehabilitation Fund (CLRF) and Environmental Trust Fund (ETF). The CLRF shall consist of the Mine Rehabilitation Fund (MRF), the Mine Waste and Tailings Fees (MWTF) and the Final Mine Rehabilitation and Decommissioning Fund (FMRDF); and
 - 5.3 Establishment of an MRF Committee and its monitoring arm, Multi-partite Monitoring Team (MMT).
6. Establish, prior to project implementation, a Mine Environmental Protection and Enhancement Office (MEPEO) to competently handle the environment related aspects of the project in addition to the monitoring requirements as specified in the Environmental Management Plan (EMP)/Environmental Monitoring Plan (EMoP). The MEPEO shall:
 - 6.1 Implement a Social Development and Management Program (SDMP). The reports shall be submitted to MGB Region III on an annual basis;
 - 6.2 Monitor actual project impacts vis-à-vis the predicted impacts and management measures in the EIS;
 - 6.3 Submit all environmental reports to EMB (CO and Region III) semi-annually; and
 - 6.4 Ensure that monitoring and reporting are carried out as required.

II. RESTRICTIONS

7. The extraction method within the mining area shall be contour mining with no blasting involved. Ore processing shall be limited to solar drying and mechanical ore sizing and classification; and
8. In case of transfer of ownership of this project, these same conditions and restrictions shall apply and the transferee shall notify the EMB of such transfer within fifteen (15) days from transfer of ownership.

O.R. No. : 6831158
Processing Fee : PhP 6,000

Date : 9/03/2007

PROJECT ASSESSMENT PLANNING TOOL

For the assistance of the Proponent and government agencies concerned in the management of the project and for better coordination in mitigation on the impact of the project on its surrounding areas and to the environment.

By way of recommendation, the following have been taken notice of by the EIA Review Committee and are forwarding these recommendations to the parties and authorities concerned for proper appreciation and action. Further, these recommendations shall be strictly complied with.

A. RECOMMENDATIONS TO CONCERNED GOVERNMENT AGENCIES/LGUs	CONCERNED GOVERNMENT AGENCIES/ENTITIES
1. Compliance by the proponent with the following <ol style="list-style-type: none">Sanitation Code of the Philippines;Labor Code of the Philippines including occupational safety and safety standards for all mining activities and provide personal protective equipment for the workers; andBuilding Code of the Philippines.	DOH DOLE-Bureau of Working Condition/MGB Municipal Planning & Devt. Office/LGU Concerned
2. For the Land Management Bureau (LMB) and Forest Management Bureau (FMB) to review critical EIA findings, particularly those related to development of foreshore area and cutting of trees and consider such findings in the approval of the permit to be issued to the project.	LMB and FMB
B. ENVIRONMENTAL PLANNING RECOMMENDATIONS FOR THE PROPONENT	
3. Conduct research in using local appropriate species that can be used for rehabilitation purposes to approximate the original vegetation cover to have a successful rehabilitation of the area in coordination with the Forest Management Bureau (FMB).	
4. Formulate a program in developing alternative water supply for the municipality of Sta. Cruz and Candelaria in coordination with the LGU and NWRB to include among others, impact assessment of climate variability and change.	
5. Provide high-resolution imagery of project site to reflect current environmental conditions before mining and every five years thereafter.	
6. Host a website that will provide information on the physical, social, and economic impacts of the project, including compliance to its various commitments stipulated in the EIS and IEC program.	
7. Make dynamic indicative development plan of the mined-out area to be made available on the project website prior to project implementation.	

For dissemination and proper action of the parties concerned.

Subject: **Environmental Compliance Certificate**

Dear Sir:

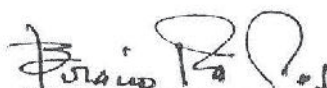

This refers to the Environmental Compliance Certificate (ECC) application for the proposed expansion of **Sta. Cruz-Candelaria Mining Project** located in Sta. Cruz and Candelaria, Zambales.

After satisfying the requirements in the said application and upon recommendation of the Environmental Management Bureau (EMB), this Department has decided to grant an ECC to the above-mentioned project.

With the issuance of this ECC, you are expected to implement the measures presented in the EPRMP intended to protect and mitigate the project's adverse impacts on community health, welfare and the environment. Environmental considerations shall be incorporated in all phases and aspects of the project. You may proceed with the project implementation *only* after securing all the necessary permits from pertinent *National and Local* Government agencies. This Office will be monitoring the project periodically to ensure your compliance with stipulations cited in the attached ECC.

Please be guided accordingly.

Very truly yours,

HORACIO C. RAMOS
Secretary

ENVIRONMENTAL COMPLIANCE CERTIFICATE
(Issued under Presidential Decree 1586)
ECC Ref. Code: 0910-0003

THIS IS TO CERTIFY THAT PROPONENT **CRAU MINERAL RESOURCES CORPORATION**, represented by its Vice President **Pablo R. Amistoso**, is granted this Environmental Compliance Certificate (ECC), for the proposed expansion of **STA. CRUZ-CANDELARIA MINING PROJECT (ACOJE LATERITE PROJECT)** located in **STA. CRUZ AND CANDELARIA, ZAMBALES**, by the Department of Environment and Natural Resources (DENR), through the Environmental Management Bureau (EMB).

SUBJECT to the conditions and restrictions set-out herein labeled as Annex A and Annex B.

PROJECT DESCRIPTION

This Certificate covers the extraction and processing of nickel laterite ore into mixed hydroxide product. The following are the major components of the proposed project:

1. **Mine operation** – Extraction of three million (3,000,000) DMT of nickel laterite ore per year by surface strip mining for ten years in 400 ha out of the 3,675 hectares of the Mineral Production Sharing Agreement, denominated as MPSA No. 191-2004-III, located within Brgy. Lucapon South, Municipality of Sta. Cruz, Zambales and Brgys. Uacon, Sinabacan, Malimanga, Malabon, Pamibian, Taposo, Pinagrealan, Yamot, Municipality of Candelaria, Zambales;
2. **Heap Leach Processing (HLP) plant** – Processing of 3 million DMT of nickel laterite ore, located at Sitio Acoje, Brgy. Lucapon South, Sta. Cruz, Zambales. It consists of the following facilities:
 - a. Agglomerator Drum;
 - b. Heap Leach Pads with forty (40) modules (leaching units) with approximately 63,000 m³ of ore per module;
 - c. Five (5) Process Ponds
 - i. Low Acid Pregnant Leach Solution (LA PLS) Pond;
 - ii. High Acid PLS (HA PLS) Pond;
 - iii. Raffinate Pond;
 - iv. Washing Solution Pond/Wash Water Pond; and
 - v. Emergency/Storage Pond

ECC 0910-0003

Sta. Cruz-Candelaria Mining Project (Acoje Laterite Project)
Crau Minerals Resources Corp.

Let's Go Green!

- d. Precipitation Plant for the recovery of metals such as nickel, cobalt, aluminum and chromium in the pregnant solution consisting of (i) Iron Removal Circuit, (ii) Nickel Precipitation Stage 1 Circuit, (iii) Nickel Precipitation Stage 2 Circuit, (iv) Magnesium Removal, and (v) Lime Slaking Facility.

The projected annual production rates from the processing plant will be 61,023 wet tons of first stage mixed hydroxide product comprising of 15,469 tons of nickel and 506 tons of cobalt and 55,531 wet tons of second stage mixed product comprising of 9,024 tons of nickel and 426 tons of cobalt.

3. Sulfuric Acid Plant (SAP) – to provide the 4,545 MT per day of 98.5% sulfuric acid requirement of the Heap Leach Processing plant, as well as to provide steam from the SAP's exothermic reactions for the 36-MW Power Plant.
4. Rehabilitation of the existing Transmission Lines to connect the acid plant power station to the TRANSCO 230-kVA line at the coast;
5. Rehabilitation of approximately 25-km mine access road from the coast in Brgy. Bolitoc to the MPSA area;
6. Water Storage Dam with a capacity of 1.7 Million m^3 covering an area of approximately 3.5 ha;
7. Storm Flow Pond with a capacity of 300,000 m^3 ;
8. 3-Year Waste Storage Facility with an approximate area of 30 ha;
9. Fuel Storage Facility consisting of 3 diesel storage tanks with a total capacity of 3,000 m^3 , two loading pumps and spillage containment; and
10. Solid Waste Management System, and Logistic yard.

This Certification is issued pursuant to the provisions of Presidential Decree No. 1586 and in accordance to DENR Administrative Order No. 2003-30. Non-compliance with any of the provisions of this Certificate shall be a sufficient cause for the cancellation of this Certificate and/or imposition of a fine in an amount not to exceed Fifty Thousand Pesos (Php 50,000.00) for every violation thereof. The EMB, however, is not precluded from reevaluating, adding, removing, and correcting any deficiencies or errors that may be found after issuance of this Certificate.

I. CONDITIONS

ENVIRONMENTAL MANAGEMENT

All commitments, appropriate mitigating/enhancement measures and monitoring requirements especially those contained in the EPRMP, its modifications and additional information as approved by the EMB during the EPRMP review shall be instituted to minimize any adverse impact of the project to the environment throughout the project implementation, including the following:

1. Continuous implementation of an Information, Education and Communication (IEC) Program to explain to all stakeholders, especially to its local residents, mitigating measures embodied in its EPRMP, the conditions stipulated in this Certificate and the environmental and safety measures in mining and processing operations for greater awareness, understanding and sustained acceptance of the project;
2. Observance of sound environmental practices including conservation of flora and fauna, proper land use, and sound soil management throughout the project implementation which includes, among others, the following:
 - a. Proper stockpiling and disposal of waste materials generated from the mining and plant sites, silt materials scooped-out from the settling ponds and other solid waste in permanent, stabilized areas away from any water body and drainage systems, and maintain them in safe and non-polluting conditions;
 - b. Construction of siltation ponds and check dams at the mining site, sediment traps, effective drainage system and vegetative buffers to prevent any sediments or sediment load pollutants and discharges into nearby water bodies;
 - c. Stabilization and erosion control of the affected side slopes of the roads and nearby creeks within the project site, rehabilitation area, as well as those of the siltation pond shall be immediately undertaken;
 - d. Stockpiling on designated suitable areas maintained at no more than three (3) meters high and stabilized by vegetation to protect it from erosion of topsoil and overburden;
 - e. Use of recovered top soil and overburden materials for re-soiling, rehabilitation or as soil cover on mined-out areas, waste dumps, and other disturbed areas;
 - f. Progressive rehabilitation/re-vegetation/reforestation using species originally found in the area to restore biodiversity; and
 - g. Implement a dust control system along the road system of the mine site to suppress the ambient suspended particulate matters generated by the movement of heavy equipment, service vehicles and hauling trucks;

GENERAL CONDITIONS

3. The mining, heap leach processing plant, sulfuric acid plant and power plant operations shall conform with the applicable provisions of the Toxic and Hazardous Waste Act of 1990 (R.A. 6969), Ecological and Solid Waste Management Act of 2000 (R.A. 9003), Clean Water Act of 2004 (R.A. 9275), & Clean Air Act of 1999 (R.A. 8749).

The following shall also be complied with:

- a. No forms of wastewater, silt laden run-off or other wastes shall be discharge into the river without undergoing adequate treatment and proponent shall

- ensure that it will comply to R.A. 9275 (Philippine Clean Water Act of 2004);
- b. Sulfuric acid plant, 36 MW Power Plant, Heap Leach Processing Plant, and Fuel storage facilities shall be provided with pollution control system to ensure compliance with pertinent environmental standards;
 - c. Submit to EMB within sixty (60) days from receipt of this Certificate an Air Dispersion Modeling Report (ADMR) strictly following EMB Memorandum Circular 2008-003 "*Guidelines for Air Dispersion Modeling*". The air modeling should include ambient air quality effects during the dry and wet seasons. The report should include ALL air pollution sources for the following project components:
 - Nickel Direct Shipping Operations (NDSO)
 - Nickel HLP Plant
 - Sulfuric acid plant
 - Power Plant
 - Access roads
 - d. Submit to EMB within sixty (60) days from receipt of this Certificate a revised Water Quality Report for the baseline stations in the conduct of the EPRMP. The Chain of Custodies and complete Laboratory Analysis Reports should be included.
4. The proponent shall comply with the environmental management and protection requirements of pertinent provisions of the Philippine Mining Act of 1995 (R.A. 7942) and its implementing rules and regulations (DAO. No. 96-40, as amended), as well as the Memorandum of Agreement between EMB and MGB executed on April 16, 1998. These include, among others:
- a. Submission of a revised Environmental Protection and Enhancement Program (EPEP), with the Final Mine Rehabilitation and/or Decommissioning Plan (FMR/DP) integrated thereto, to the MGB, for approval prior to operation;
 - b. Submission of a revised Social Development and Management Program (SDMP), to the MGB Regional Office III, for approval prior to operation. The EMB shall be furnished with the SDMP within thirty (30) days from its approval;
 - c. Continuous establishment of the Contingent Liability and Rehabilitation Fund (CLRF) and Environmental Trust Fund (ETF);
 - d. Continuous operationalization of the Mine Environmental Protection and Enhancement Office (MEPEO) to competently handle the environment-related aspect of the project. In addition to the monitoring requirements as specified in the EMMP, the MEPEO shall also monitor the actual project impacts vis-à-vis the predicted impacts and management measures in the EIS/EPRMP and the effect of blasting activities particularly vibration, noise and dust generation;
 - e. Continuous operationalization of the Mine Rehabilitation Fund Committee (MRFC), Multipartite Monitoring Team (MMT) and Community Relations Office (CRO);
5. The proponent shall ensure that its contractors and sub-contractors properly comply with the relevant conditions of this Certificate;
6. Submit to EMB within sixty (60) days from receipt of this Certificate the company's Green House Gas Emission Reduction Program (e.g. tree planting, methane capture, energy efficiency and conservation, etc.) which shall be implemented immediately to address climate change and global warming problems;

7. In all phases of the project implementation, the cutting of trees should be avoided. However, when it becomes absolutely necessary, permit issued by the competent DENR authority shall be secured before said tree cutting activity can be conducted;

II. RESTRICTIONS

8. No extraction of nickel laterite ore shall be done in areas where ultramafic aquifer is disturbed;
9. The extraction method for the nickel laterite ore shall be by surface mining with no blasting involved;
10. Processing method to be employed at the processing plant shall be Heap Leach Technology;
11. This Certificate does not cover the rehabilitation of the existing Bolitoc port in Zambales to accommodate the storage of sulfur;
12. The produced sulfuric acid is for exclusive consumption of HLP plant. This Certificate does not allow the commercial sale of said chemical;
13. The proponent shall submit to EMB Central Office the approved Special Land Use Permit for other project components such as water storage dam, storm flow pond and 3-Year Waste Storage Facility outside the MPSA 191-2004-III prior to construction and operation of said facilities;
14. In case of transfer of ownership of this project, these same conditions and restrictions for which written notification must be made by herein grantee to EMB within fifteen (15) days from such transfer.

PROJECT ASSESSMENT PLANNING TOOL

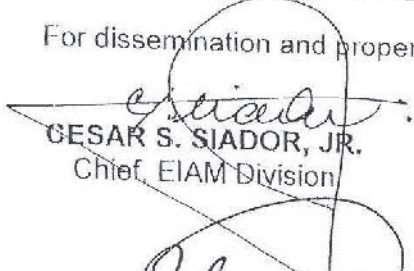

Annex B

For the assistance of the Proponent and government agencies concerned in the management of the project and for better coordination in mitigation on the impact of the project on its surrounding areas and to the environment.

By way of requirements, the following have been taken notice of by the EIA Review Committee and are forwarding these requirements to the parties and authorities concerned for proper action.

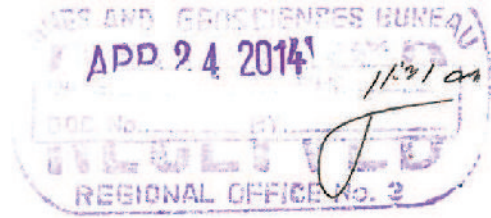

REQUIREMENTS	CONCERNED GOVERNMENT AGENCIES/ENTITIES
1. Proponent needs to comply with: a. Sanitation Code of the Philippines; e. Labor Code of the Philippines including occupational safety and safety standards for all mining activities and provide personal protective equipment for the workers; c. Building Code of the Philippines;	DOH DOLE-Bureau of Working Condition/MGB Municipal Planning & Devt. Office/LGUs Concerned
2. Comply with LGU requirements such as securing of necessary permits (i.e. Mayor's permits, endorsements / certifications / resolutions);	LGUs Concerned
3. Proponent needs to secure Lease Contract or Deed of Absolute Sale for various locations of ancillary facilities;	Landowners Concerned
4. A comprehensive Risk Assessment and ERF for the RSP	MGB
5. Ensure conformance with the Ecological Solid Waste Management Act;	LGUs concerned
6. Construction and Operation of Mine Waste Structures;	EMB
7. Proponent needs to secure Water rights permit;	NWRB
8. Proponent needs to secure Agro-Industrial Economic Zone Permit;	PEZA
ENVIRONMENTAL PLANNING REQUIREMENTS FOR THE PROPONENT	
9. Propagate, and use indigenous or endemic forest species in the area to rehabilitate and restore the same to its original vegetation cover;	
10. Ensure proper maintenance of the siltation control system;	
11. Individual Quantitative Risk Assessment Reports on the Nickel HLP Plant, Sulfuric Acid Plant and Power Plant need to be submitted to EMB Central Office thirty (30) days after the finalization of the Detailed Engineering Designs of each component and the result shall be the basis for the formulation and implementation of the Emergency Preparedness and Response program;	
12. Submit/report to the National Historical Institute any archeological artifacts to be found during operations;	
13. Give priority employment to qualified local residents. Adequate public information for jobs available to local residents in the affected areas needs to be provided; and,	
14. Provision on assistance to IPs and affected communities as part of the SDMP to be submitted within 60 days from approval hereof.	

For dissemination and proper action of the parties concerned.

ZDMC *Zambales Diversified Metals Corporation*

13 January 2020

DR. WILSON L. TRAJECO, PME, PhD
Regional Director
Environmental Management Bureau (EMB)
Regional Office No. III
San Fernando City
Pampanga

Dear Director Trajeco,

The Zambales Diversified Metals Corporation (ZDMC) respectfully submit to your office a copy of its **2019 Fourth Quarter Self-Monitoring Report (SMR)** for its **Sta. Cruz – Candelaria Mining Project**. This is in compliance to the requirement for the company's Mineral Production Sharing Agreement (MPSA No.191-2004-III).

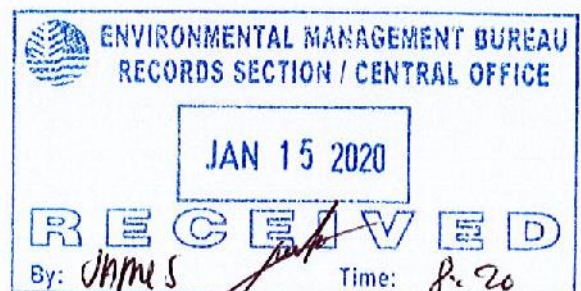

Thank you very much.

Sincerely yours,

CESAR F. SIMBULAN, JR.
President

RAMAR Village, San Agustin
City of San Fernando, Pampanga

Dear Director Claudio,

In compliance with the mandatory reportorial obligation of Corporation's Mineral Production Sharing Agreement denominated as MPSA 191-2004-III, the undersigned respectfully submits 1st Quarter Compliance Monitoring and Verification Report 2017. The initial soft copy of the report was given to Engr. Tirso Cruz during the Mine Rehabilitation Fund Committee Meeting last May 10, 2017 at Subic Bay Free Port.

Thank you.

Truly yours,

HENDRIK F. MARTIN

Dear Dir. Claudio,

In compliance with the mandatory reportorial obligation of the Corporation's Mineral Production Sharing Agreement denominated as MPSA 191-2004-III, the undersigned respectfully submits to your good office the attached **2018 Third (3rd.) Quarter Compliance Monitoring and Validation Report (CMVR)** covering the period of July to September 2018 with the following attached documents, to wit:

- 1) Various MMT Attendance Sheet;
- 2) Certificate of Participation issued by MGB Region III;
- 3) LANDBANK Certificate of Deposit Balance with Control No. 112-2018-158;
- 4) Ostrea Mineral Laboratories, Inc. Certificate of Analysis (CAN #104661 & 104617);
- 5) Environmental Monitoring Results conducted by Ostrea Mineral Laboratories, Inc. dated September 22, 2018.
- 6) 2018 Annual Environmental Protection and Enhancement Program (AEPEP);
- 7) 2018 AEPEP Certificate of Approval;
- 8) 2018 Annual Social Development and Management Program (ASDMP); and
- 9) 2018 ASDMP Certificate of Approval.

Thank you.

31 May 2021

ENGR. WILLIAM P. CUÑADO

Director

Environmental Management Bureau

DENR Compound, Visayas Avenue

Diliman, Quezon City

Attention: ENGR. ESPERANZA A. SAJUL

Chief Environmental Impact Assessment and Management Division

Subject: Public Scoping Report and Request for Technical Scoping Meeting

Dear Director Cuñado:

This is to submit the Public Scoping Report relative to the proposed expansion of Zambales Diversified Mining Corporation (ZDMC) Sta. Cruz-Candelaria Mining Project. The said activity held on 26 May 2021 has given us the opportunity to present our expansion plans and hear the issues and concerns of our stakeholders towards the project.

Rest assured that the issues and concerns raised will be addressed in the Environmental Impact Assessment (EIA) study that we will be conducting.

Further, we would like to take this opportunity to request for the scheduling of the technical scoping meeting preferably in the early part of June 2021.

We are looking forward for your confirmation and availability. Our EIA consultant Argotech Inc. through Mr. Jay Richard R. Siasoco, shall communicate with your office to follow up on this. Should you feel the need to contact him, kindly reach him through mobile no. (63) 09155400790.

Thank you.

Very truly yours,

RAMON MANUEL R. BRIONES

Vice President for Operations

PUBLIC SCOPING MINUTES

Project Name	Sta. Cruz – Candelaria Mining Project	Project Location	Municipalities of Sta. Cruz and Candelaria, Province of Zambales
Proponent Name	Zambales Diversified Metals Corporation (ZDMC)	Proponent Address	3 rd Floor, DMCI Homes Corporate Center, 1321 Apolinario street, Bangkal, Makati City, 1233
Proponent Contact Person	Ramon Manuel R. Briones	Proponent Means of Contact	(02) 8823-7963 (02) 8831-6241
EIA Consultant	Argotek, Inc.	Consultant Address	Pasda Mansion Bldg., No. 77 Panay Ave., Diliman, Quezon City
EIA Consultant Contact person	Jay Richard R. Siasoco	Consultant Means of Contact	0915 540 0790
EMB/DENR Scoping Representatives	Mark Anthony Tuliao	Place of Public Scoping	Dawal Beach Resort, Candelaria, Zambales and Zoom Meeting 823 5146 6086
		Date of Public Scoping	26 May 2021

ISSUES / CONCERNS TO BE INCLUDED IN THE SCOPE OF THE EIA STUDY

EIA Module	Issues/Suggestions Raised by Stakeholder	Sector or Representative who Raised the Issue/Suggestion	Proponents Response
Project Description	Is the EIA study will cover the total MPSA area (3,847.78ha) or limited only to the expansion area (82.39ha)?	Atty. Gene Mislang of Tanggol Kalikasan	In the process of amending the existing ECCs, it will cover the existing MPSA area in order to check ZDMC 's compliance and also the expansion area to prove its capability through the process of EIA review. ZDMC will maintain its approved extraction/mining rate for nickel, chromite and associated metals.
	What is the type of mining method employed by ZDMC and will it result to flooding on low lying areas?	Atty. Gene Mislang of Tanggol Kalikasan	ZDMC adopts contour mining for its operation. Maximum of 60ha of active mining at any given time. Engineered system of settling ponds are in placed

			to mitigate the flooding scenario. Before opening other areas for stripping and extraction, mined out areas will undergo Temporary Revegetation Program or Progressive Rehabilitation Program.
	What is the type of chemicals used in the mining site and its effect on people, live stocks and crops downstream?	Bee Barrera of Concerned Citizens of Candelaria	We do extraction only. No chemicals used in mining operations. Even the fertilizers for rehabilitation are all organic.
	Are you aware of the resolution executed by Uacon Barangay Council against destructive mining and that 1,000+ petitioners against ZDMC expansion?	Bee Barrera of Concerned Citizens of Candelaria	<p>ZDMC is aware of the said barangay resolution. Also, it is aware of the repeal on the Municipal ordinance issued by the LGU of Candelaria against destructive mining. ZDMC considers itself as a responsible mining company.</p> <p>On the signature campaign, ZDMC is not yet aware. It has a counter signature campaign for those who supports the company's continued operation, including the neighboring communities, host communities, scholars and other SDMP related undertaking.</p>
Land	<p>The mining areas in the more than 10years of ZDMC operation do not show sign of rehabilitation. Google maps from 2010-2020 do not show contraction of the mining areas but instead it is getting bigger and bigger every year.</p> <p>Isn't the MGB required to inspect the compliance of mining corporations according to DENR policies?</p>	Vincent Manikan of Save Candelaria Movement	<p>More than 179 million pesos was spent for the Annual Environment Protection and Enhancement Program of ZDMC.</p> <p>Within the MPSA, 15.236ha was planted with 16,927 native trees and established 27.5 ha biodiversity conservation area with 30,553 saplings. Outside the MPSA, 333.6ha</p>

			<p>was planted with 311,934 native trees. Adopted 20 NGP sites and planted 11,110 seedlings and 1,500 bamboo culms.</p> <p>Rehabilitation activities in the 59.145 ha mined out areas include planting of 153,351 native trees, established 1ha research plot for ecological restoration and mandatory planting at a minimum 12 trees annually of all regular and project-based employees.</p> <p>Social Development and Management Program milestone of Php44 Million in 15 barangays within the Municipalities of Sta Cruz and Candelaria, Zambales</p> <p>The areas undergoing rehabilitation are planted with native and endemic trees that were recommended by experts from UPLB to be the most suitable species for the area. Unfortunately, these are slow growing species. Just 3-5 feet of development in 5 years. Thus, it is not that visible on Google earth and also the Google Earth satellite image are taken from a distance that cannot capture small details onsite. These areas are regularly monitored by MGB and can be visited for site inspection.</p>
	Will there be a CBFM/ISF area that might be affected by the expansion?	Cesar Estrada	There is none.

			PENRO Zambales Marife Castillo confirmed that based on the GIS, no issued CBFM within the area.
	<p>Is the topsoil stored and used during rehabilitation?</p> <p>While there's no rehabilitation done yet, what will happen when it rains? Would this cause flooding?</p>	<p>Bee Barrera of Concerned Citizens of Candelaria</p> <p>Atty. Gene Mislang of Tanggol Kalikasan</p>	<p>Topsoil is stockpiled near the mining site, secured with silt fence, and is utilized during rehabilitation.</p> <p>The topsoil is kept in with engineered settling ponds. In case it rains, enough containment structures are established in order not to cause siltation of the rivers or cause flooding. The capacity of the settling ponds is 1.1M cubic meter. Ever since, the settling ponds haven't overflowed yet.</p>
Water	Can ZDMC guarantee the residents of Candelaria that the flooding events due to overflow of Luis river during the typhoon Lando will not happen again?	CJ of Save Candelaria	<p>After typhoons Labuyo and Lando, the UP National Institute of Geological Science conducted a study to rectify and improve the settling ponds and silt mitigation system in mine site.</p> <p>ZDMC now has sufficient settling ponds that can accommodate a typhoon Labuyo type which has the highest recorded of precipitation of 0.6meter per day. It has a total storage of 1,112,000 cubic meter.</p> <p>Sediment flux study was also conducted on 2016 during the wet and dry season.</p>
	Does ZDMC have a rehabilitation program for shallowing water bodies?	CJ of Save Candelaria	The Annual Environment Protection and Enhancement Program of ZDMC includes desilting, construction of settling ponds and its maintenance.

Air	<p>Is there a baseline study of air, noise and water quality in Candelaria?</p> <p>What is your cyclone study baseline?</p>	Concerned Citizens of Candelaria	<p>Baseline study was conducted in the EIS of ZDMC. There is also a quarterly sampling and testing of air, noise and water quality.</p> <p>The basis for cyclone study – ZDMC for the purposes of Project Description submission refers to the 2008 EPRMP study submitted to EMB. After the technical scoping, it has to undergo updating, which will be done by Argotek.</p>
People	How many employees does the ZDMC have? How about during rainy season?	Bee Barrera of Concerned Citizens of Candelaria	<p>At full operation, ZDMC has 730 personnel and almost 90% of which are Zambales residents. If indirect employment will be considered, there are more than 1,000.</p> <p>Like other business, there is downtime in operation. But there are activities like office work and rehabilitation that are available even during rainy seasons.</p> <p>Key positions are currently occupied by Zambales based residents. ZDMC prides itself in developing local talents specially the scholars. They are encouraged to take mining related courses to absorb them after graduating and passing the board exam. Skilled workers and technical people are mostly locals of Zambales specifically Sta. Cruz and Candelaria.</p>
Others	On ECC 0910-003, we didn't receive any notification, the residents of Candelaria, on public hearing regarding your mining	Marlyn of Concerned Citizens of Candelaria	Presumption is that public consultation was conducted since the ECC was issued. Before an ECC can be issued

	<p>project. How did you come up with the endorsement and resolution from our LGU prior to the commencement of your project? We want to see a copy of the endorsement, resolution, and it had gone through public consultation and public hearing. MGB did not reply to my email.</p> <p>Did you acquire the ECC for the expansion from EMK/Rosina? The ECC 0910-003 you got it from Crau?</p> <p>On the ECC, Annex B. You are directed to secure an agro-industrial economic zone from PEZA. Did ZDMC complied with the Annex B?</p>		<p>it go through a process under the EIA system. ZDMC acquired the project in 2014. The ECC was approved in 2010. The trial heap leach was not the new management's initiative. It did not push through. The new management already applied for decommissioning and abandonment plan to cancel the ECC on the trial heap leach at EMB R3.</p> <p>The ECC for the commercial heap leach is part of this ECC amendment while that of the trial heap leach it is under the ECC issued by EMB3.</p> <p>Verification as to the availability of the endorsement on file since the same was secured by the previous owner. Then, we can email a copy to the concerned citizen.</p> <p>Based on the documentation, the two ECC, prior to the transfer, was under the name of Crau. On the question on the heap leach, Crau was the holder of MPSA. They enter into an agreement with Rusina, then Rusina gave the operating rights to ZDMC. But all were under Crau prior to transfer to ZDMC.</p> <p>Annex B of the ECC is a list of possible permits or documents to be complied with. Only the applicable items for the project are needed. ZDMC secured</p>
--	--	--	---

			<p>only what was applicable. Since the area is not under agro PEZA zone, it did not apply to ZDMC. The list in Annex 2, those are the ones ZDMC needs to comply if applicable. ZDMC to check the details under PEZA.</p> <p>EMB verified: Annex B is a planning tool, recommendation to the proponent, guide on they need to secure applicable to their projects. However, all ECC conditions must be complied by the proponent.</p> <p>MGB will discuss the issue with the review committee. Proponent will be asked to answer the email of Ms. Marlyn.</p>
	Isn't it that the ECC has a 10-year validity only? Did the ZDMC acquired the ECC in 2010?	Bee Barrera of Concerned Citizens of Candelaria	<p>EMB answered that once a project is implemented, ECC will be valid. ECC will only expire when project is not implemented within 5 years after the ECC was issued. Once the project was implemented, there is no expiration.</p>

PUBLIC SCOPING FOR ECC AMENDMENT

ZDMC (Sta. Cruz – Candelaria Mining Project)

MPSA No: 191-2004-III

26 May 2021

MPSA LOCATION MAP

- Mineral Production Sharing Agreement (MPSA) No. 191-2004-III was approved by DENR in 2004
- Current area is **3,765.39** hectares
- Situated within 2 municipalities (Candelaria and Sta. Cruz)

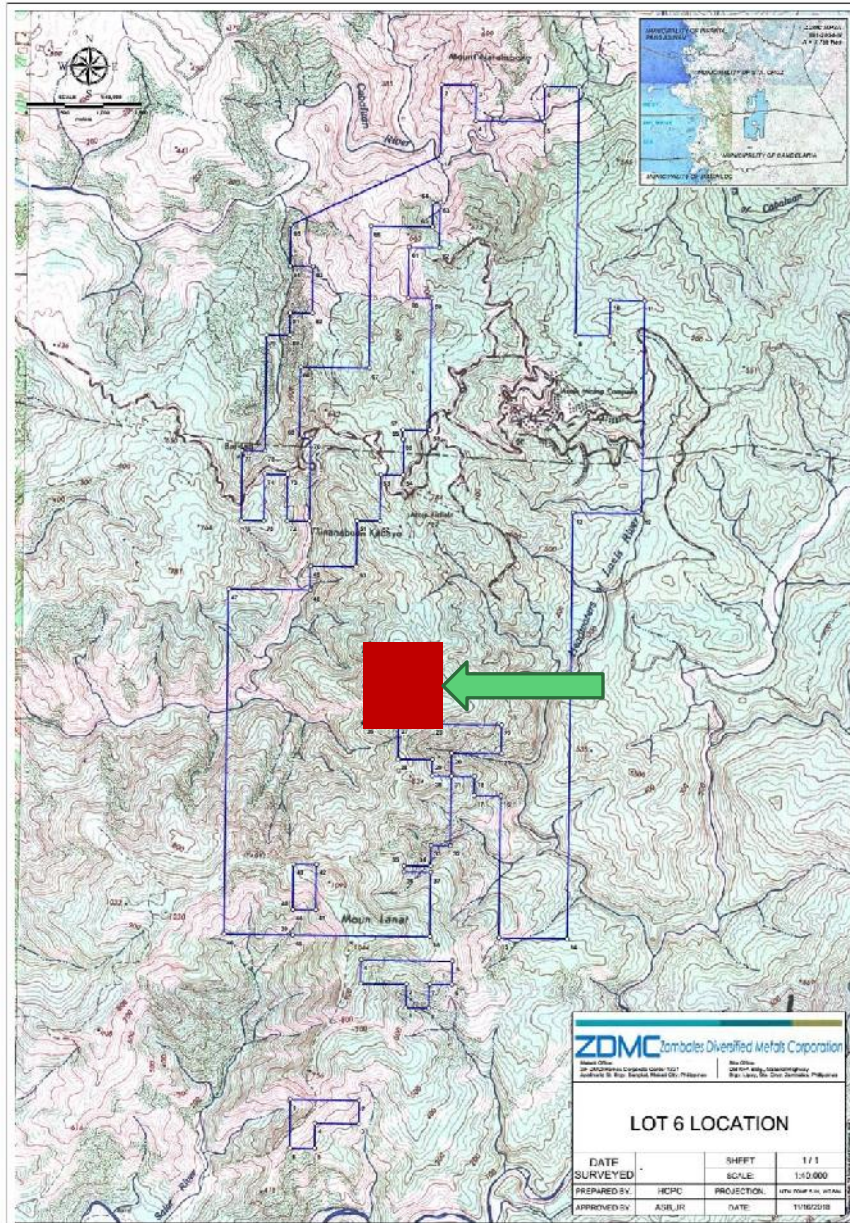

PROJECT PROPONENT

PROJECT DETAILS

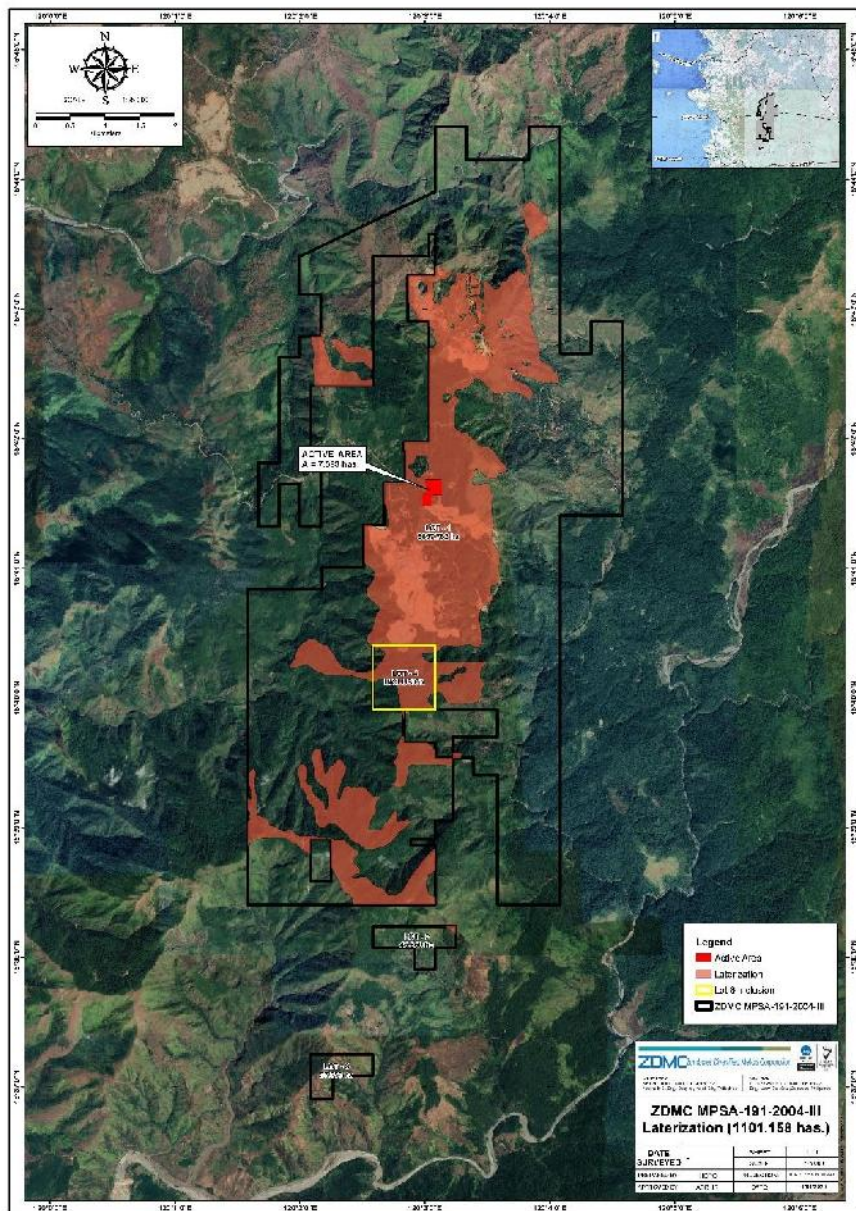

Particulars	Details
Name of Project	Sta. Cruz-Candelaria Mining Project
Scope of Application	ECC Amendment of existing mining operation due to area expansion and transfer of ownership
Project Location	Municipalities of Sta. Cruz and Candelaria, Province of Zambales
Direct Impact Areas	Municipality of Sta. Cruz <ul style="list-style-type: none">• Brgy. Lucapon South Municipality of Candelaria <ul style="list-style-type: none">• Brgy. Uacon

MPSA AMENDMENT

To include the **82.39** hectares property located at Brgy. Uacon, Candelaria.

From total area of 3,765.39 hectares to 3,847.78 hectares

OUT OF THE 3,765.39 MPSA AREA

ONLY 29 % OR 1,100 HECTARES HAVE OCCURRENCE OF LATERITE

OUT OF THIS ONLY 43 % OR 430 HECTARES HAVE PROBABLE RESOURCE
THIS REPRESENTS 11 % OF THE ENTIRE MPSA

CURRENTLY, ONLY 149 HECTARES IS DISTURBED BY MINING OPERATION OR
ONLY 4% OF THE ENTIRE MPSA AREA

2018	56,888,557.02
2019	17,807,994.60
2020	17,551,836.35
TOTAL AEPEP EXPENSES	179,809,254.85

REFORESTATION INITIATIVE

- ➡ **Within MPSA Area : 15.236** hectares planted with **16,927** fast growing native / indigenous trees and established **27.5** hectares Biodiversity Conservation Area planted with **30,553** earthballed saplings
- ➡ **Outside MPSA Area : 333.6** hectares planted with **311,934** native / indigenous trees (planted in identified NGP sites)
- ➡ **Adopted 20 hectares NGP sites** in Sitio Mabato, Brgy. Guisguis, Sta. Cruz, Zambales and Cabaluan Riverbank, Brgy. Lucapon South, Sta. Cruz, Zambales planted with **11,110** seedlings and **1,500** bamboo culms

REHABILITATION ACTIVITY

- * Completed rehabilitation of **59.145** hectares mined-out areas planted with **153,351** assorted native / indigenous and metallophyte tree species;
- * Established 1-hectare Research Plot for Ecological Restoration and Native Metallophytes Conservation in Mining Areas.
- * Mandatory planting minimum of **twelve (12)** trees per year of all Regular and Project-Based employees celebrating their Birthday / Work Anniversary

SDMP MILESTONE

Since 2008 until 2020, a total of

**Forty Four Million Pesos (Php
44,000,000.00)**

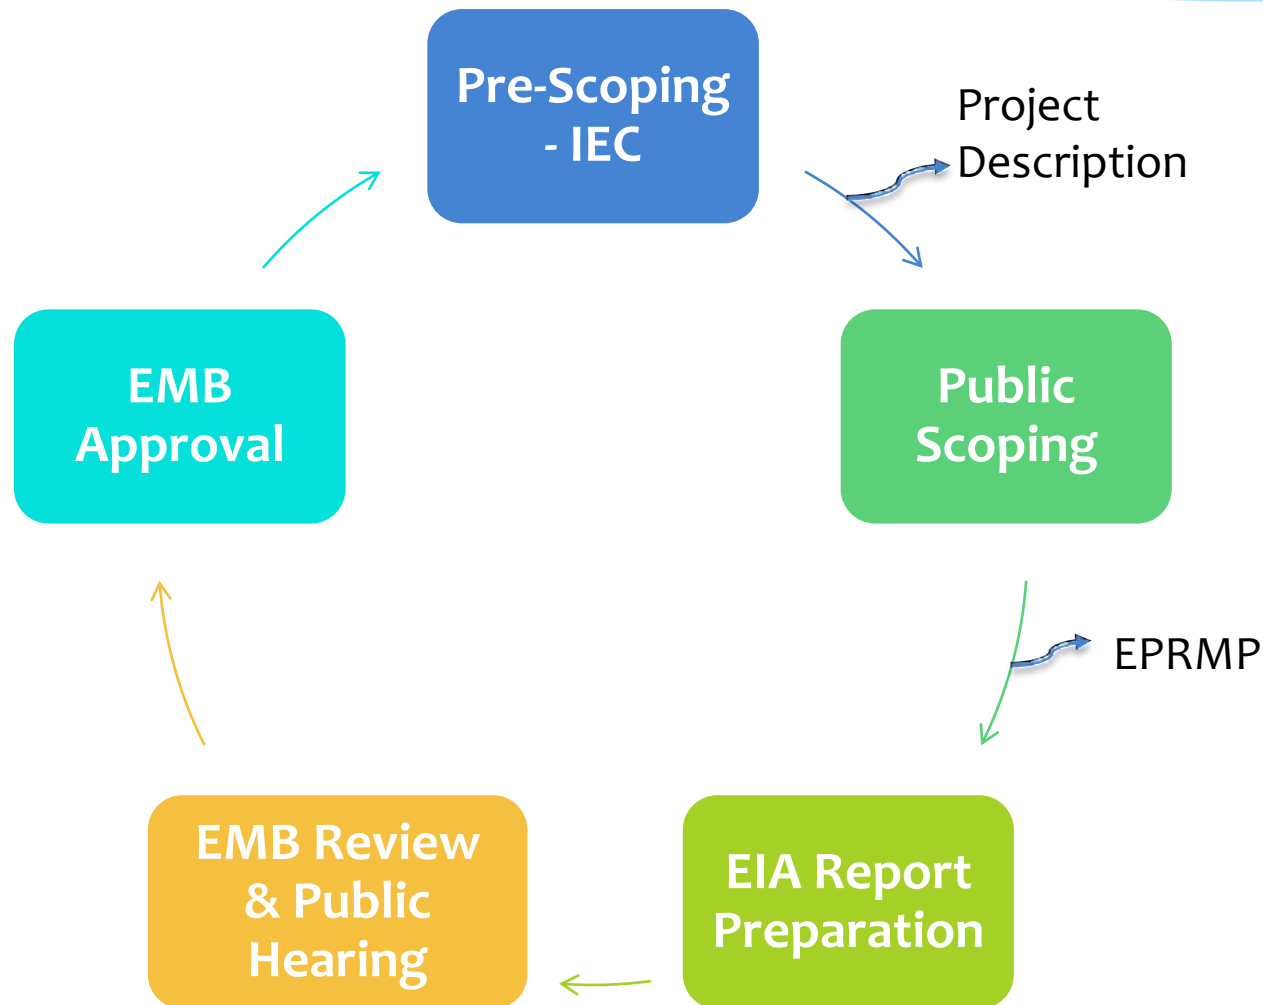

has been implemented for
Social Development and Management Program
(SDMP)

In **15 Barangays** from Municipality of Sta. Cruz and
Candelaria, Zambales

SDMP MILESTONE

EIA ECC AMENDMENT PROCESS

IEC ISSUES AND CONCERNS

IEC conducted on March 8 to 22, 2021

1. Increase dust generation during hauling operation.
2. Siltation of farmlands during rainy season.
3. Municipal Ordinance of Candelaria banning destructive mining operation.
4. Increase local employment.

THANK YOU!

ANSWERS TO IEC ISSUES AND CONCERNS

IEC conducted on March 8 to 22, 2021

1. Increase dust generation during hauling operation.
 - a. ZDMC employs 93 envi workers (sweepers, marshalls, washbay crew, road maintenance)
 - b. only ZDMC has dedicated in-house road maintenance equipment .
 - i. 1- Grader
 - ii. 1- Road Compactor
 - iii. 2 - dedicated Dump Trucks for road gravelling
 - iv. 6 Water Truck units

IEC ISSUES AND CONCERNS

IEC conducted on March 8 to 22, 2021

2. Siltation of farmlands during rainy season.

a. ZDMC has sufficient settling ponds designed to accommodate Typhoon “Labuyo” class precipitation or **1,112,000** cubic meter of rainfall

b. FINAL SETTLING PONDS are 28 KM from Luis Bridge and 23 KM from Baito Bridge

IEC ISSUES AND CONCERNS

IEC conducted on March 8 to 22, 2021

3. Municipal Ordinance of Candelaria banning destructive mining operation.

Sangguiniang Bayan of Candelaria is currently in the process of repealing the local ordinance.

IEC ISSUES AND CONCERNS

IEC conducted on March 8 to 22, 2021

4. Increase local employment.

At full blast operations, ZDMC is employing a total of 730 personnel with close to 90% residents of Sta. Cruz- Candelaria area.

This does not include contractors and other service providers (~ 250 work force)

Mr. Raul Ecleo
Punong Barangay
Brgy. Bayto, Sta.Cruz
Zambales

Dear **Mr. Ecleo**:

We are pleased to invite you and your constituents to attend the Public Scoping for the proposed Sta. Cruz-Candelaria Mining Expansion Project of Zambales Diversified Metals Corporation represented by Mr. Ramon Manuel R. Briones to be located in Municipalities of Sta. Cruz and Candelaria, Province of Zambales. The said Scoping is scheduled on:

Date / Time	Videoconference (via zoom)
26 May 2021 (Wednesday) / 09:00 AM to 11:00 AM	Meeting ID: 823 5146 6086 Passcode: 993119

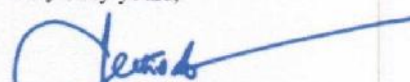

The public scoping is an early stage in the Environmental Impact Assessment Process where the proponent aims to provide an overview of the proposed project, proposed action, gather issues and concerns, and other relevant information to provide the scope of work and terms of reference for the preparation of Environmental Impact Statement.

A copy of the Project Description Report for Scoping is downloadable at our website: www.eia.emb.gov.ph (kindly access the Notice of Public Scoping link found at the lower right portion of our website).

For more details, please contact the EMB Central Office at (02) 8920-2240 to 41.

We look forward to your participation.

Very truly yours,

ENGR. WILLIAM P. CUÑADO
Director

**Annex M: Agreement
between DMCI and proponent regarding use of jetty/causeway**

1 August 2015

ZAMBALES DIVERSIFIED METALS CORPORATION
3/F DICON Building
2281 Don Chino Roces Avenue
Makati City

Re : Use of Bolitoc Port

Gentlemen:

This Letter confirms the on-going arrangement regarding the use by **Zambales Diversified Metals Corporation ("ZDMC")** of the port facility in Bolitoc, Sta. Cruz, Zambales ("**Bolitoc Port**"), subject to the terms and conditions set out below:

I. BACKGROUND:

- (a) **ZDMC** is the holder of MPSA No. 191-2004-III covering an area of more or less three thousand seven hundred sixty-five (3,765) hectares of land located in Sta. Cruz and Candelaria, Zambales.
- (b) In 2011, sixty percent (60%) of the total and issued share capital of **ZDMC** was owned by **ENK Ltd.**
- (c) In August 2012, **DMCI Holdings, Inc. ("DMCI Holdings")** acquired sixty percent (60%) of the entire issued share capital of **ENK Ltd.**
- (d) In March 2014, **DMCI Holdings** increased its stake in **ENK Ltd.** by acquiring the remaining forty percent (40%) equity interest in said company thereby making **DMCI Holdings** the sole and one hundred percent (100%) owner of **ENK Ltd.**
- (e) **DMCI Holdings** holds and/or owns one hundred percent (100%) equity interest in **DMCI Mining Corporation ("DMCI Mining")**.
- (f) On 24 October 2014, **DMCI Mining** acquired the total and outstanding share capital of **ZDMC**.
- (g) By virtue of **DMCI Holding's** equity ownership in **DMCI Mining**, and the fact that **DMCI Mining** wholly owns **ZDMC**, **DMCI Holdings** is the parent company of both **DMCI Mining** and **ZDMC**.
- (h) The Philippine Ports Authority issued in favor of **DMCI Mining** a Certificate of Registration/Permit to Operate No. 439 ("**COR/PTO No. 439**") covering the Bolitoc Port.
- (i) Under **COR/PTO No. 439**, **DMCI Mining** is authorized to handle cargoes owned or consigned to it by contract or otherwise.
- (j) In line with the authority conferred to it under **COR/PTO No. 439**, and its role in the organization, **DMCI Mining** shall service the shipping requirements of the subsidiaries within the **DMCI** group.

DICON Building, 3/F 2281 Don Chino Roces Ave., Makati City
Tel. No.: 888-3238 • Fax No.: 888-3520

PLEASE ADDRESS ALL COMMUNICATIONS TO THE COMPANY
NOT TO INDIVIDUALS

II. SERVICES: Subject to the terms of this Agreement, DMCI Mining shall –

- (a) designate, and allow ZDMC to use, a stockpile area(s) located within the Bolitoc Port; and/or,
- (b) handle the arrastre work as well as provide the manpower, barge(s), and equipment for the loading of the ores and its transport to a vessel; and/or,
- (c) allow ZDMC to load the ores extracted from ZDMC's operated mine site onto the vessel contracted by ZDMC, which is berthed at DMCI Mining's port. and/or
- (d) handle the marketing/trading of ores covered by this Agreement.

III. TERM: This Agreement shall terminate upon mutual agreement and confirmed in writing by both parties (the "Term").

Provided however that, either of ZDMC or DMCI Mining may, for whatever reason, terminate this Agreement by serving a written notice to the other party at least ten (10) days prior to the effective date of termination. Such termination shall be without prejudice to any claim which either party may have against the other on account of the services already performed or by express provision of this Agreement.

IV. Charges and Regulatory Fees: Dues that may be imposed by the Philippine Ports Authority as well as other or similar charges, penalties, and fees including any interest thereon that may be assessed and/or collected by other agency or regulatory body on account of, or as a result of, the services performed under this Agreement shall be for the exclusive account of ZDMC and must be settled directly by ZDMC.

V. Other terms and conditions:

(a) ZDMC shall, solely for this particular transaction, undertake to do and shall assume full responsibility for the following:

- i. engage a third-party surveyor;
- ii. assaying of ore samples;
- iii. ore grading and quality control;
- iv. comply with all Barangay requirements to provide street sweepers and traffic marshals along the Bolitoc Barangay Road during the hauling of the ore from its mine site to the subject stockpile area;
- v. protect the ore unloaded onto the stockpile area against any loss, damage, and theft;
- vi. pay any passway fee due on account of the hauling of ores from ZDMC's mine site to the stockpile area; and,

Tel. No. 888-3238 Fax No. 888-3520

PLEASE ADDRESS ALL COMMUNICATIONS TO THE COMPANY

vii. comply with existing environmental regulations in order to avoid any adverse environmental impact to the stockpile area and within the surrounding area.

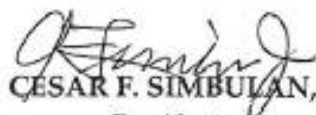

(b) ZDMC shall be fully responsible for the management and control of all its equipment, and shall assume full responsibility for any loss or damage to the equipment it shall use during the hauling and unloading of its ores onto the Stockpile Area.

Should you find the above terms and conditions acceptable, please sign on the "conforme" space provided below and send back to us the original signed copy of this Agreement.

CONFORME

Very truly yours,

CESAR F. SIMBULAN, JR.
President
